U.S. getting 'heat' from French, British over Concorde

WASHINGTON (AP) — Transportation Secretary William T. Coleman Jr. says he will consider economic and diplomatic factors, in addition to environmental values, in deciding whether to allow the Concorde supersonic jet to land at two U.S. airports.

Coleman promised a quick decision during a public hearing Monday, where supporters of the Concorde said the 1,400-mile-per-hour jet was a giant step forward while the plane's opponents said it was a harbinger of ecological disaster.

The plane is being pushed by its British and French sponsors, and officials of both countries contended Monday that their plane not only meets all applicable U.S. standards but that the environmental hazards have been grossly exaggerated by opponents.

They also sounded a veiled warning that any decision prohibiting the Concorde from landings in the United States could bring unspecified repercussions to the United States.

"A negative decision on the question of Concorde service to the United States undoubtedly would have political consequences in both France and the United Kingdom," the governments said.

Both nations acknowledged their plane was noisier than existing subsonic jets but noted the application for Concorde service was limited to two round trips per day to New York's Kennedy Airport and one round trip per day to Washington's Dulles International Airport.

The two nations said the simultaneous and cumulative impact of the subsonic jet operation "greatly outweighs the effect of the limited number of Concorde operations. A U.S. ban on the Concorde, in the face of the greater over-all impact of the subsonics, would be widely regarded abroad as inequitable and discriminatory."

In Toulouse, France, meanwhile, the Communist-led union at the plant where the jetliner is made said today it would urge French airport workers not to service U.S. planes if America refuses to grant the Concorde landing rights.

Leaders of the General Confederation of Labor (CGT) at the National Aerospace Industries plant said they would boycott U.S products if the Concorde was banned from landing in America and would ask the government to take similar action.

Several groups opposed the applications of Air France and British Airways to use the Concorde on certain transatlantic flights, but the strongest blow to the hopes of the plane's manufacturers came from the Environmental Protection Agency.

Assistant EPA Administrator Roger Strelow said the EPA opposes allowing Concorde into either airport, saying, "Introduction of Concorde service runs directly counter to the noise abatement and other environmental policies and programs of the United States."

Most opponents concentrated their opposition on the noise made by the delta-winged plane on takeoff and landing, but others attacked the jet for its potential impact on the earth's protective ozone layer.

The Department of Transportation said last year in an environmental impact statement that the Concorde would sound twice as loud to persons under its flight path near airports than conventional jets.

It also said the plane could cause an increase of less than one-tenth of 1 per cent in the number of cases of nonfatal skin cancer in the United States each year. The department predicted this would occur because the high-flying plane's exhaust would deplete the ozone layer and thereby increase the amount of potentially cancer-causing ultra-violet rays reaching the earth's surface. There are now about 250,000 cases of nonfatal skin cancer each year.

Coleman told speakers at the hearing that he intends to consider all factors, including diplomatic and economic considerations, in reaching a decision. He passed out a list of nine legal questions and asked participants to advise him on their feelings on each question.

Four of the questions dealt with U.S. obligations to the British and French under international treaties and agreements and five dealt with environmental laws and their impact on the Concorde's future.

Coleman has the final word on whether the plane will be allowed in the United States. However, his ruling can be appealed to the courts. Congress also could overturn the effects of a court decision.

Freeze damaging Southland citrus

Area crops haven't been hurt yet, but wipeouts in Tulare

Subfreezing nights apparently are taking their toll in citrus in much of Southern California, but the valley has not been hurt so far.

Carl Waldapfel, manager of the Sunkist Growers field lab in Ontario, says the current cold spell has not damaged the local citrus crop.

"It hasn't been cold enough in our area," he explained. "Usually, the citrus is damaged when the mercury dips below 26 degrees for more than an hour. The one time it went to 25, it stayed there for only a few minutes, so we haven't been hurt."

But elsewhere in the Southland there were reports of damages already, with some agricultural officials warning of "total wipeouts" of several individual orchards.

Temperatures dipped into the low-20s in Tulare, San Bernardino and Riverside counties for the fourth straight morning, with Tulare hit the hardest.

"There isn't any question, a lot of damage has been done to our area," Tulare County Agricultural Commissioner Clyde Churchill said.

And Robert Howie, agricultural commissioner of Riverside County, said he expected his area's citrus crop losses to be the worst since 1950, when a record period of frost wiped out almost the entire crop.

He said the full extent of the damage would not be known until tests are completed in about 10 days.

But he warned state agricultural officials to be alert in inspections because "some growers are picking the damaged fruit to get them to the market before signs of frost damage are visible."

Meanwhile, the weatherman is predicting warmer mornings throughout the Southland.

A low of 34 is predicted for Pomona tonight with 31 expected in the outlying districts. According to the National Weather Service a warming trend is on the way and temperatures will rise Wednesday and Thursday.

Monday's high was 65 and the overnight low was 35.

SMOKE BILLOWS OVER BROOKLYN

A plume of smoke billows into the sky over the burning Patchogue Oil Terminal Corp., in South Brooklyn Monday after a new explosion rocked the oil tank storage area. Smoke dwarfs fireboat, foreground, on the Gowanus Canal. Second blast injured five firemen, but there were no deaths. Air view is looking west toward Manhattan, background.

Evidence of doctor slowdown at several valley hospitals

While the San Fernando Valley is hardest hit by the doctors' slowdown due to the crisis caused by increased medical malpractice rates, seven of the 32 hospitals which serve the San Gabriel Valley also reported some disruptions of health care on Monday.

The hospital Council of Southern California reported some disruptions at the following:

Pomona Valley Community Hospital, a 389-bed facility where surgery has been reduced due to refusal of anesthesiologists and orthopedic surgeons to serve Medi-Cal patients; Foothill Presbyterian, Glendora, 132 beds; Santa Teresita in Glendora, 283 beds; Garfield Hospital, Monterey Park; 226 beds; Monterey Park Hospital, 96 beds; Queen of the Valley Hospital in West Covina, 282 beds; and Sierra Madre Hospital.

None of the hospitals has a critical situation at this point, a council spokesman said.

In fact, PVCH reports an overall increased patient census over the same day last year, although the surgery load is less.

At San Antonio Community Hospital, an administrator said the surgery schedule is "lighter than usual."

The Hospital Council of Southern California said that only three of San Bernardino County's 30 hospitals are affected to date and none of the 30 hospitals in Orange County report problems.

"I don't expect any patient to die for lack of care," said Dr. Gail V. Anderson, director of emergency services at the mammoth County-USC Medical Center, one of the nation's largest hospitals.

But he said patients could expect inconvenience.

By late Monday, County-USC was receiving a few patients transferred from private hospitals. But a special Emergency Operations Center, activated by the hospital to coordinate area medical services, reported no life-threatening problems yet.

Leon Hauck, a spokesman for the Hospital Council of Southern California, said a survey of the group's 234 hospitals in six counties showed 71 were affected in some way by the slowdown.

The key complaint is against Travelers Insurance Co. which proposed rate hikes on malpractice insurance of as much as 486 per cent on Jan. 1. Travelers insures most of the 10,000 private physicians in Southern California, who pay an average $6,000 a year for coverage.

The rate hike was delayed until Jan. 15 while the company appeals a rate-hike ceiling of 327 per cent imposed by the state.

"It's more of a nuisance for people who are patients than it is an inability to find services," said Daniel Yatabe of the emergency center. "It just takes longer to find someone to put a cast on a broken arm."

Anderson said County-USC, which has 22 emergency room doctors on duty for each shift, has reserves waiting should the slowdown produce a crisis.

"We can't close our doors to anybody," he said. "This is the one place they know they can come."

Meanwhile, nearly all private facilities were halting specialized emergency services. The most serious effects were reported in the sprawling San Fernando Valley with more than one million residents. Militant enforcement of the protest there forced patients to seek aid at the state-operated UCLA Medical Center in West Los Angeles.

"It looks like it's going to be almost double the usual load," said Al Hicks, spokesman for the 800-bed UCLA center. "It's putting a bit of a strain on the people down in emergency, but they anticipated it."

Figures show Reagan leading President in finance derby

WASHINGTON (AP) — Preliminary figures show Ronald Reagan has raised more money than President Ford in their campaigns for the Republican presidential nomination.

Reagan also seems to be raising private donations faster than Ford and qualifying for more federal campaign subsidies than the President.

A spokesman for the Ford campaign said the financial gap is probably temporary and of questionable significance.

"If you're a moderate it's a little harder to raise money," he said.

On the other hand, a Reagan campaigner said the figures show broad-based support for the former California governor.

Official finance reports aren't due for weeks. But campaign spokesmen said in response to questions Monday that Reagan raised about $2 million in public donations during 1975 and Ford raised $1.7 million.

On that basis, it appeared that Reagan raised money at the rate of more than $500,000 per month during the last quarter of 1975, compared with $327,000 per month for Ford. A Reagan spokesman said the pace was continuing into 1976.

Reagan campaign lawyer Loren Smith said more than 50,000 persons have given money to the Reagan campaign.

"It isn't just the money that makes us happy. It shows there is support out there," Smith said.

Reagan's financial edge is magnified by public financing. This year for the first time, the government is giving qualified presidential candidates dollar-for-dollar matching grants up to $250 for each private donation they get.

Because the individual donations to Reagan's campaign tend to be smaller than the contributions to Ford's, a greater portion of Reagan's money qualifies for the federal matching funds. Spokesmen said about three-fourths of Reagan's money is matchable, but less than half of Ford's money qualifies.

Based on donations through last October, Ford claimed $374,000 in federal funds and Reagan claimed $600,000.

However much Reagan gets, he can't necessarily spend more than Ford in the crucial early primaries because the new election law limits campaign spending. The ceiling for each candidate is $200,000 in New Hampshire's first-in-the-nation presidential primary Feb. 24, and $10 million for all preconvention presidential campaigning.

Pomona mayor asks census of all parochial schools

Census of all Pomona parochial schools was begun today by city officials after Mayor Ray Lepire ordered the survey to counter what he termed "exaggerations" in a Progress Bulletin story outlining "white flight" from Pomona.

Lepire, at Monday night's city council meeting, ordered City Manager Jerrold Gonce to poll Ministerial Alliance members to determine racial makeup of all Pomona church-operated schools.

Such a survey, according to Lepire, will refute assumptions that white families are moving away from Pomona based on Pomona School District records this year showing minority students now making up more than 56 per cent of public school enrollment. Figures showed an increase in minority enrollment percentage this year of 4.1 per cent.

Lepire said assumptions drawn from the article that white families are fleeing Pomona are untrue. He said he has talked to some parochial school directors who said white enrollment jumped this year, indicating many white families are not fleeing the city but remaining and transferring their children to private parochial schools.

Mayor Lepire did not elaborate on his order to Gonce for the survey, giving the order only moments before the council retired into a secret session to discuss upcoming court action on Pomona's controversial anti-billboard ordinance.

Weather

Fair today and Wednesday, with some haze in the morning. High today 65, low tonight 34, high Wednesday 65. The high Monday was 65 and the overnight low was 35. Wednesday's sunrise 6:57, sunset 4:58.

Alaska's governor hits back at organized crime charges

ANCHORAGE, Alaska (AP)— Despite recent reports that Alaska is reeling under an onslaught by organized crime, Gov. Jay Hammond says the state's number one law enforcement problem continues to be "disorganized crime."

In an editorial printed in Monday's Anchorage Daily Times, the governor said criminal activity in the state had increased "along with other perils of population explosion."

However, he said federal, state and local officials find little indication of national syndicate involvement. Such involvement was suggested by recent articles in the Los Angeles Times.

"Nor do most Alaskans believe a midnight stroll down Cushman in Fairbanks fraught with half the hazards faced on LA's Sunset Strip at high noon," Hammond said.

'If anyone has solid evidence, please provide it," he said. "But don't assert coverup, apathy or politics as the cause for failure to make a hard case out of froth."

The governor said he had been informed that 80 per cent of Alaskan crime continues to be alcohol-related and 70 per cent of those committing crimes are repeat offenders.

"Dry up the drunks and put away repeat offenders and the crime rates would plummet," he said.

The governor said the state was well-equipped with law enforcement personnel to handle enforcement, investigations and corrections.

Growth, no-growth conflict buffets A.L. school board

Alta Loma Elementary School District is between a rock and a hard place and doesn't like it.

That's the tone of a letter sent to San Bernardino County Supervisor Daniel Mikesell by schools Supt. Floyd Stork on approval by school trustees.

Stork charged in the 2½-page letter to Mikesell that the small Foothill district nestled in the shadows of San Gabriel Mountains has become a scapegoat for both sides of the growth-no growth issue.

For the past two years acres of old lemon groves have become the site of sprawling suburban tracts sparking a battle between longtime residents who want to preserve the rural atmosphere and builders who want to concrete and stucco verdant foothills.

No-growth advocates want the district to lobby for tighter building restrictions before supervisors in San Bernardino. Alta Loma is unincorporated and subject to the zoning whims of San Bernardino County supervisors.

Those wishing a change from rural to suburban environment in Alta Loma also pressure the school district to lobby for their cause with statements that the district can supply adequate classrooms to handle a multiplying kindergarten through junior high population.

Stork and the school board headed by Mrs. Nancy Kettle, believe that the school district is no different from police or fire departments, which expand or contract to meet growth or atophy as the situation demands, but should take no active part in promoting growth or a population drop-off.

Stork said, under existing law, the district can expand with state and local funds to meet demand — not immediately, but within reasonable limits. But the district should not be placed in the position of championing either growth or status-quo philosophies, he said in the letter to Mikesell.

It is up to supervisors only to set zoning and planning policy for the area, with the school district serving only as a body to service the population just as fire and police departments do, Stork said.

The letter was made public Monday shortly before the school board convened to study the new state collective bargaining law for teachers, which goes into effect next July at the beginning of the 1976-77 school year.

Trustees, as must all others in the state, will decide between April and July procedures for recognizing an official bargaining agency or agencies for certified and non-certified employes of the district.

In other action at Monday night's meeting, the board agreed to continue using La Verne College education majors as student teachers and approved an agreement with the county Board of Education on financing vocal music clinics.

Next regular board meeting was set for Jan. 19.

Tract with recreation vehicle space gets a break in La Verne

West La Verne will get a $2.2 million subdivision soon, with 45 homes and garages that will accommodate recreational vehicles.

The City Council approved a zoning variance Monday night that would permit construction of three-car garages by narrowing sideyard requirements to five feet.

The vote was 4-1. Councilman Harrison Sanborn contended that the narrower sideyards would be useless.

Chuck Reynolds, civil engineer for PCB Inc. of Santa Ana, developer of the project, contended that it is only by narrowing sideyards that the company could put up the three-car garages. He said the garages would permit front as well as rear entry for recreational vehicles.

The proposed subdivision is west of Damien Avenue and north of Gladstone Street.

Reynolds said his company planned to build $47,000 homes.

The Council also approved requests by its Planning Commission to rezone four parcels, approximately 110 acres of land, from agricultural to single family areas.

The zone changes include 62 acres northwest of Base Line Avenue and Emerald Avenue; 34 acres northeast of Base Line and Emerald; 6.75 acres at Bradford Street south of Amherst Avenue, and five acres east of the Emerald Wash on the north side of Bowdoin Street.

Two other parcels were rezoned from high density residential to single residential. 4½ dwellings to the acre: 28 acres between Romola Avenue and San Dimas Canyon Road north of Canyon View Drive, and five acres on the west side of Emerald Wash north of Bowdoin Street.

The council also approved a zone change for administrative to commercial use on about 6.3 acres of land on the south side of Foothill Boulevard and Wheeler Avenue.

No diploma unless reading okay

LOS ANGELES (AP) — High school graduates must be able to pass a reading proficiency test before being awarded diplomas, the school board has decided.

The Los Angeles Board of Education voted Monday to make a reading proficiency test mandatory for graduation beginning with next fall's 10th graders.

The students will be given four chances to pass the test, which is described as a practical measure of a student's ability to read and understand such material as voting directives, driver's tests, job applications and resumes, advertisements, bank account forms, maps, cash register tapes, television guides and income tax forms.

Harry Handler, associate superintendent in charge of instruction, stressed the new test is intended to supplement — not to replace — the district's current academic requirements for graduation.

Handler said students who fail the test will be given remedial reading help.

Equal job plan OK'd by Chaffey

By PHYLLIS CANNON
PB Staff Writer

An affirmative action or equal opportunity program, prepared by a district-wide committee, was accepted by Chaffey Union High School District board of trustees Monday night for action Jan. 19.

This program is a refining of affirmative action policy under which the district has been operating the past three years.

The eight-page document defines affirmative action as "equal employment opportunity for racial and ethnic minorities and women." Minorities are defined by the U.S. Department of Labor as blacks, Spanish surnamed, American Indians, Orientals and women.

In assuring equal opportunity, the program calls for the district to "recognize and overcome the effects of past racial, sexual and social discrimination in employment," in compliance with federal regulations.

The refined program lists a policy statement with objectives and goals, an implementation process and calls for the appointing of an affirmative action committee to consult with the superintendent on recommendations concerning the internal operation of the affirmative action program.

This committee shall include a personnel administrator, two principals, three community representatives, three classified employes, three teachers and three counselors under the proposed program.

The primary objective of the program is "to insure equal employment opportunity for every available applicant and employe without regard to race, color, religion, age, sex or national origin."

Its primary goal is "to achieve a reasonable percentage or minority and women work force comparable to the employable minority and female population of the district."

The target date for an in-depth review of the accomplishment of the goals is one year.

The board, in another action, authorized business manager Mike Dirksen to apply for federal assistance to serve Type A hot lunches at the Chaffey Training Center, a facility for special education students with an enrollment of about 90.

Along with the authorization, the board adopted a policy statement regarding free and reduced-price meals and free milk.

If approved, this will be the district's initial experience with the government's free lunch program for needy students.

In a unanimous board vote, district policy regarding the community use of school facilities was modified, waiving a "great number" of fees now being charged. Dirksen and Schools Supt. Al Smith recommended the changes.

"The more the schools are utilized, the better off we are," agreed board member John Schnepp.

Dirksen explained that $50,000 in restricted community service tax money had been carried over from the 1974-75 budget to the 1975-76 budget, and that the 5 cent per $100 of assessed valuation community service tax was being collected this year, allowing the district to make its facilities more accessible to the community.

A request from the Montclair High School French Club to spend two weeks in France next June was approved by the board. Mrs. Reanne Douglass is club adviser.

The board accepted with thanks a NCR Bookkeeping Machine from Merchant's Bookkeeping of Ontario for the Business Education Department of Upland High School.

Following its regular meeting, the board adjourned to executive session to consider the recommended expulsion of three boys from the Mountain High Alternative School, Upland, who were involved in the extortion of money and cigarettes from another student.

Administrators said a knife was used to threaten the student at the time of the extortion.

LEARNING HOW TO VOTE

Vic Fazio, D-Sacramento, gets a lesson in operating the electronic vote key on his first day as a lawmaker in the legislature. Helping him is Assemblyman Carmen Perino, D-Stockton. Fazio was elected in a special election last month to replace Assemblyman Edwin Z'berg who died. Legislators are back on the job after a four-month recess.

Montclair wins a voice in subsidized housing projects

By MAE TATE
PB Staff Writer

The Montclair City Council approved wording changes in the community development agreement with San Bernardino County Monday night in finding the agreement "99 and nine-tenths per cent in our favor."

The action finally resolved a conflict between the municipality, the county and U.S. Department of Housing and Urban Development.

Although voicing some ire that the city could not reject federally subsidized housing projects not meeting city standards, the council went along with the agreement in order to facilitate the allocation of Community Development Act funds for the next two fiscal years.

Tom Mauk, assistant city administrator, presented the status report on the agreement for cooperation with the county in the application for the federal dollars. He reminded the council of its original objections to losing local controls over federally subsidized low to moderate income housing in the community when the first report was made in mid-November.

The principal area of concern was the "section eight resolution" in the agreement which called for county administration of such projects rather than the city and gave the county power to pull the federal funds from Montclair if it did not approve of local use of the dollars.

The City Council subsequently accepted a draft of the joint powers agreement but instructed City Atty. Eugene Demchuk to negotiate a more equitable agreement on the section eight resolution with the County Counsel's Office. The city attorney, at the suggestion of the council, added a section calling for council review and approval of any housing projects in the community.

Mauk reported that the "county cannot accept, because of HUD regulations and their own concerns, the right of the city to reject projects."

Demchuk and the county counsel therefore re-worded the agreement, substituting "review and comment" for "review and approve" on both the housing projects and the Housing Assistance Plan and Housing Distribution Plan.

"The right of review and comment should provide the city with adequate protection through political channels, should we not be content with any particular activity the county is undertaking," said Mauk. "We have gotten everything we wanted in this agreement with this one exception."

Mayor Harold Hayes declared that the agreement was "99 and nine-tenths per cent in our favor. It is quite an improvement over the original proposal. We're not entirely satisfied, but it is a case of compromise. I guess we can comment with exclamation points if necessary."

With that, the council voted to unanimously accept the amended joint powers agreement.

State Senate rejects hike in liquor tax

SACRAMENTO (AP) — The Senate has soundly defeated an attempt to override Gov. Edmund Brown Jr.'s veto of a bill boosting liquor taxes to pay for alcoholism treatment programs.

However, after Monday's 20-19 vote was seven short of the two-thirds override requirement, Brown said he "sympathizes with the problems of alcoholism" and will soon propose a $37-million administrative reorganization to deal with the problem.

Brown praised the Senate for "rejecting an unnecessary and unwarranted tax increase," and called for reform of existing programs before funding new ones.

"This is no time for state government to be reaching into the consumer's pocket when the price of everything is going up," he said.

The Senate refused to override the governor despite arguments that the bill would provide $38 million in badly needed funds to fight one of the state's major social problems.

"Alcoholism is clearly the greatest drug problem we have in California — not just with older adults but with young people as well," Sen. Arlen Gregorio said in debate on the bill.

"The most frightening thing is that it's getting worse."

The San Mateo Democrat, who introduced the measure, said alcoholism costs Californians at least $3 billion a year in various ways and is the third leading cause of death in the state.

The bill would have boosted beer, wine and liquor taxes, beer by two cents a six pack and hard liquor by seven cents a court and wine by one-fifth of a cent a fifth.

Claremont parking board to mull several proposals

The Claremont Vehicle Parking District Board of Commissioners will consider recommendations from city Public Works Director Paul Cook when the board meets Wednesday at 8 a.m. in the City Council chambers.

Cook has reported that an analysis of the private parking spaces behind Claremont TV and Pepita's shows that no additional parking spaces would be generated by combining the two lots. He estimated that combining the lots would cost $11,000.

Cook recommended that the two stores landscape the space between their lots.

At another parking lot next to Fire Station 1, Cook has suggested that the direction of angle parking on the east side of the lot be reversed to allow drivers to circulate throughout the lot to find a parking space.

Cook also suggested that the alley between Second Street and Bonita Avenue be converted to two-way traffic so that vehicles from city hall may have access either to Second Street or Bonita Avenue.

Worry beads

Misbaha beads, known to the West as "worry beads", are carried by both Lebanese Christians and Moslems. They help count the number of prayers, and by the rhythm of their clicking tell the mood of the holder.

Mental health unit names two to aid in lease talks

Two Pomona City Council representatives were appointed to Tri-City Mental Health Authority late Monday to help negotiate a new lease for the psychological therapy center.

Tri-City Mental Health Authority serves Claremont, La Verne and Pomona with each city sharing costs of operations. The center is located at 1149 N. Garey Ave. and treats mental health patients on an ability-to-pay basis. The facility is privately owned, but receives local and state money for its operations.

Authority members appointed council members Georgia Grove and Charles Bader to study Pomona's share of the lease and attempt to reach an agreement by the [illegible] meeting Feb. 2.

In other action, the mental health authority approved a contract with California School of Professional Psychology to supply interns on a work-study program to work at least 20 hours a week at the clinic.

Haldeman appeal: didn't get fair trial

Mitchell, Ehrlichman, Mardian also go before U.S. Court of Appeals

WASHINGTON (AP) — A federal appeals court was told today that the Watergate coverup trial was preceded by publicity which whipped the American people into a "white heat" and denied the defendants a fair trial.

"We did not get a fair trial in this case," the lawyer for former White House chief of staff H. R. Haldeman told the U.S. Court of Appeals.

Atty. John J. Wilson said that publicity made the trial a cause celebre and created the "greatest, largest, most virulent situation" in American judicial history.

"The American people were whipped up to a white heat against the appellants in this case," Wilson told the six appeals court judges hearing the case.

Wilson concentrated on the publicity that preceded the case, including the Senate Watergate hearings, the House Judiciary impeachment proceedings against former President Richard M. Nixon and Nixon's resignation.

"The assurances of a juror as to an open mind may not be reliable where there is a deluge of publicity saturating the community," Wilson said.

He claimed that U.S. District Judge John J. Sirica was not thorough enough and did not allow sufficient time for careful scrutiny of potential jurors.

Wilson led off arguments before six Appeals Court judges. The lawyers for the other men, John D. Ehrlichman, John N. Mitchell and Robert C. Mardian, addressed themselves to other claimed errors in the trial in arguing to have the convictions overturned. But Wilson said each one was speaking for all.

The four men, along with Robert C. Mardian, were convicted of conspiring to cover up the Watergate scandal. All except Mardian also were convicted of obstructing justice and multiple counts of perjury. All four are appealing their convictions.

Special Watergate Prosecutor Charles Ruff, working with a depleted staff, engaged a former member of the staff, Peter M. Kreindler, to argue for the government before the appeals court. Kreindler, 30, a 1971 cum laude graduate of Harvard Law School, has never before made a major argument before the appeals court.

Six judges of the nine-man U.S. Court of Appeals agreed to hear the arguments; the others excused themselves without giving a reason.

Haldeman and Ehrlichman, who were Nixon's No. 1 and No. 2 White House aides, and Mitchell, the former attorney general, were sentenced to 2 ½ to 8 years in prison. Mardian, convicted of only the single conspiracy count, was sentenced to a term of 10 months to 3 years. All have been free pending the outcome of the appeals.

More than 1,000 pages of legal briefs preceded today's arguments. The defendants' lawyers were given 30 minutes each; the government was to have two hours.

Because of public interest in the case, the appeals court is using the ornate ceremonial courtroom, which is distinguished by the statues of ancient lawgivers Moses, Maimonides, Solon and Justinian. The courtroom is three times the size of other courts in the building.

It was in this room, on Oct. 2, 1974, that U.S. District Court Judge John J. Sirica began screening platoons of prospective jurors for the 12 that finally sat in judgment. The trial itself was held in Sirica's court, on another floor, and resulted in the guilty verdicts against the four on New Year's Day 1975.

No matter how the appeals court rules, the case will be carried to the Supreme Court for final resolution. An appeals court normally takes at least three months before deciding a case, and sometimes as much as a year.

Should the decision go against the defendants, however, they probably must begin serving their prison terms immediately even though their lawyers petition the Supreme Court.

FIRE DESTRUCTION

Slender jets of water, because of low pressure, are directed into a fire that destroyed a five-story commercial and residential building on Cleveland's near West Side Monday night. There were no reports of deaths or injury in the spectacular blaze.

Auto sales brighten industry's hopes for '76

DETROIT (AP) — Domestic car sales continued their upswing in mid-December, leaping 30 per cent above dismal year-earlier levels to brighten industry hopes for a strong performance in 1976.

It was the eighth straight 10-day period in which sales topped year-earlier levels, and it prompted company executives to reiterate forecasts of a healthy new year for car sales.

The four U.S. auto companies, which resumed business after a 10-day holiday shutdown, reported Monday that car sales in the Dec. 11-20 period totaled 189,826, up from 146,195 the year before, when the industry was in the midst of a recession.

"There no longer can be any doubt about the recovery of our business," said William P. Benton, a vice president of Ford Motor Co. "Our sales momentum is growing and our dealers are entering 1976 with confidence that our sales pace will continue to strengthen."

American Motors Corp. sales were up 43 per cent, Ford deliveries rose 42 per cent and Chrysler Corp. sales jumped 41 per cent. General Motors, the largest of the firms, reported a 21 per cent gain.

GM said its sales gain trailed the rest of the industry because it had an unusually strong performance in mid-December 1974 and thus a harder target to surpass in 1975.

Despite the sharp industrywide gain over mid-December 1974, the selling pace still lagged 6 per cent behind the tempo of mid-December 1973, when fuel shortages had just begun to plunge the companies into their worst slump since the Great Depression. The tempo also was off 26 per cent from the period record set in 1972.

The 1974 rate was the industry's worst for a mid-December in 15 years, with the exception of 1970, when sales were depressed by a lengthy nationwide strike at GM.

The domestic companies sold 209,418 cars in the first 10 days of last month, a 43 per cent jump from 1974, to give them their best early December in six years.

Despite the yearend pickup, 1975 domestic car sales through Dec. 20 were 6,850,103, down 6 per cent from a poor 7,295,756 in 1974. GM, hardest hit in 1974, was up seven-tenths of a per cent, while AMC was off 4 per cent, Ford off 11 per cent and Chrysler down 18 per cent.

Domestic car sales for all of 1975 are expected to be the poorest since 1962. The U.S. companies and 21 importers report their yearend sales figures on Wednesday.

Here are the mid-December and calendar 1975 domestic car sales through Dec. 20, released Monday by the four major auto makers, with comparable figures for 1974 in parentheses:

General Motors: 103,480 (85,270), up 21 per cent; 3,645,438 (3,621,885), up seven-tenths per cent.

Ford: 55,960 (39,480), up 42 per cent; 1,922,677 (2,166,706), down 11 per cent.

Chrysler: 22,786 (16,124), up 41 per cent; 965,860 (1,178,149), down 18 per cent.

American Motors: 7,600 (5,321), up 43 per cent; 316,128 (329,016), down 4 per cent.

Totals: 189,826 (146,195), up 30 per cent; 6,850,103 (7,295,756), down 6 per cent.

Spotlight on crime

Pomona Travelodge robbed by 2 men

Two men, one brandishing an eight-inch knife, robbed the Pomona Travelodge at 130 E. Holt Ave. Monday afternoon.

Manager Robert B. Cornett, 68, said the pair entered, inquired about a room and then asked for change for a quarter. When he opened the cash drawer, one pulled the knife.

Cornett was forced to lie on the floor while the men looted the cash drawer and fled.

The armed man was described as black, about 28, 5 feet 9 weighing 165 pounds. He had a 2-inch afro and wore a red and white striped shirt and dark trousers.

Two men, one armed with a hunting knife, robbed the Wine Cellar liquor store, 663 E. Holt Blvd. in ONTARIO of a small amount of cash and a .38 caliber revolver hidden under a counter Tuesday night, police reported.

Police said the robbery of the liquor store and its clerk, Mrs. Nellie Bigalow, 52, was similar to a robbery Sunday night at the Angola Liquor Store, 739 W. Holt Blvd.

Mrs. Bigalow told police that two blacks walked into the store about 9:40 p.m. and asked for some candy.

She said one of the men suddenly vaulted the counter and drew a hunting knife from his pocket. The robber ordered the clerk to lie on the floor and took the cash from the register.

Mrs. Bigalow said the robber took the store's revolver hidden under the counter and then turned to ask her where her purse was. She told the robber and he took the cash from the register and stuffed it in her change purse.

She said the two men left the store.

The knifewielder was described as about 25 years old, 5 feet 10, 160 pounds and of a light complexion. She said he was wearing a mustard colored sweater, a black leather jacket and black cap.

The second man was about 25, and slightly heavier.

Three men stopped by a sheriff's deputy for a traffic violation Monday evening were later arrested for investigation of burglary after two new batteries believed stolen from a MONTCLAIR service station were found in the car.

West End Sheriff's Deputy Carl Swanlund said he stopped the trio about 6 p.m. when he heard their car brakes rubbing on metal. Swanlund said he noticed that the men and two car batteries still in the boxes in the back seat with the name of the Mobile Service Station and Central Avenue and Mission Boulevard stamped on them.

When the men could not come up with a receipt for the batteries deputies checked with the service station owner who discovered the two battiers were missing from his storage area.

Swanlund said the men, identified as Anthony Chaves Torres, 31, of San Fernando; Raymond Duane Anderson, 23, of North Hollywood; and Edwin Glen Lewis, 25, of Los Angeles were all booked in the West End Jail on second degree burglary charges. Lewis was also booked for being under the influence of heroin.

ANNE L. ARMSTRONG

New offensive in Angola war?

JOHANNESBURG, South Africa (AP) — Troops of the Soviet-backed Popular Movement (MPLA) have captured Carmona, in northern Angola, from the U.S.-supplied National Front (FNLA) in what may be the start of a new offensive in Angola's year-old civil war, the Rand Daily Mail reported today.

The paper did not give the source of its information, and there was no way to check its accuracy since few foreign newsmen are admitted to Angola.

Woman is new envoy to Britain

WASHINGTON (AP) — Anne Armstrong, former co-chairman of the Republican National Committee and presidential counselor, will be named U.S. ambassador to Great Britain, officials here say.

A White House announcement is expected soon after formal agreement is given by the British government. British officials in Washington said privately they would have no objection to her appointment.

State Department officials said they foresaw no problem in obtaining Senate confirmation.

U.S. officials privately confirmed reports of Mrs. Armstrong's appointment Monday. She would succeed Elliot L. Richardson as U.S. ambassador to the Court of St. James's in London. Richardson is leaving that post to become secretary of commerce.

If nominated and confirmed, Mrs. Armstrong, 48, would be the first American woman named ambassador to a major embassy since Claire Boothe Luce served as U.S. ambassador to Rome from 1953 to 1957. In addition, she would be the first woman envoy named by a major country to London, officials said.

Mrs. Armstrong served as co-chairman of the Republican National Committee for two years from January 1971 and then held the $42,500-post of presidential counselor for nearly two years under Presidents Richard M. Nixon and Gerald Ford. She resigned her White House post in December 1974.

Senate has woman sergeant-at-arms

SACRAMENTO (AP) — The all-male California State Senate's first woman sergeant-at-arms is a 20-year-old zoologist who says she wants to learn more about government.

DANA HAYES

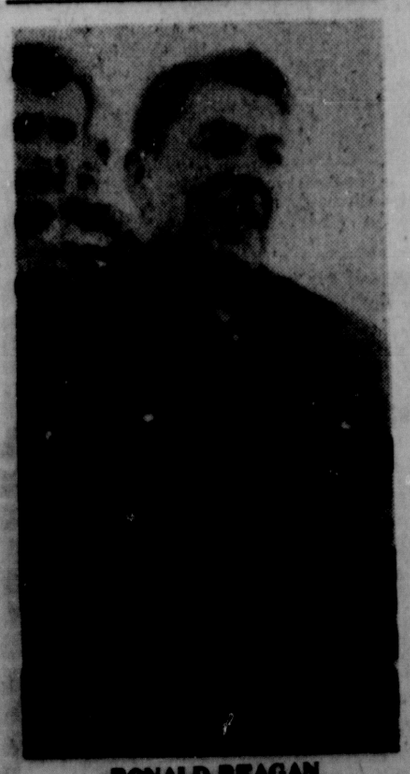

Dana Hayes, 20, wore a miniskirt and sergeant's badge as she guarded the north entrance to the Senate floor when the 1976 legislature convened Monday.

She said she didn't think about the fact she was breaking the sex barrier until after she landed the job. She said she applied because "I wanted to learn more about the working of government."

Miss Hayes is a former resident of Inglewood who graduated last year from the University of California at Davis with a degree in zoology.

Sergeants-at-arms provide security and errand service for the legislature. They maintain order in committee and floor sessions.

Last year the Assembly hired the first women for its 40-member sergeant-at-arms force.

RONALD REAGAN

Ford defends farm policies

Reagan opens campaign in New Hampshire

While President Ford defended his farm policies in St. Louis, former California Gov. Ronald Reagan toured frigid New Hampshire by bus and had the voters of the earliest primary state all to himself on the first day of the 1976 political season.

Reagan launched his campaign for the Republican presidential nomination on Monday and was the only announced presidential candidate meeting voters in the state, which holds the nation's first primary balloting on Feb. 24.

Few of the 10 candidates for the Democratic presidential nomination were on the road Monday. Ford spent the day in St. Louis where he spoke to an American Farm Bureau Federation audience.

Ford's appearance was billed as nonpolitical, but he spent much of his time praising his own farm policies. And the President told a group of newspaper executives that he still plans to enter every presidential primary although he will not actively campaign in each state.

Sen. Henry M. Jackson, D-Wash., launched his candidacy today in Massachusetts. Jackson is not campaigning in New Hampshire.

In remarks prepared for delivery in Boston, Jackson decried "a wave of cynicism engulfing this nation's politicians. These head-in-the-clouds politicians seem to feel it will be good for the country's soul if we lower our horizons and if we reduce our standards of living.

"What they don't seem to realize is that millions of Americans have already reduced their standards of living — that millions of people are far worse off today than they were five and 10 years ago."

Reagan's first major campaign swing into snow-covered New Hampshire, where he will meet Ford head-on in their first bout to determine the GOP nominee, brought supporters out in sub-freezing weather at stops across the state.

Reagan defended his proposal to transfer funding of some $90 billion in federal social service programs to the states, but he said he did not intend for the program to force states to enact new taxes.

Reagan called his plan "not a budgetary proposal, but one for transfer of control, authority and responsibility ...." He said critics of the plan had misinterpreted it.

"The people through their state and local governments would and should decide if they want to expand, modify, change or replace these programs and how best to do so," Reagan said. But he avoided saying how state programs replacing the federal programs would be financed.

Reagan made the proposal in a speech three months ago, suggesting that programs such as welfare, education, health and food stamps be transferred to the states, allowing the federal budget to be cut.

Before Reagan arrived in New Hampshire, his plan was criticized by two top state legislators who are backing Ford. New Hampshire House Speaker George B. Roberts Jr. and state Senate President Alf Jacobson charged that Reagan's proposal would have "drastic ramifications."

New Hampshire would have "to eliminate many necessary programs, to add to the local property tax burden, or to institute a state sales tax or income tax or both," they said.

Meanwhile, there were these developments:

—Democratic candidate Rep. Morris Udall, D-Ariz., made a bus tour of Iowa, which holds precinct caucuses Jan. 19. He said a front runner among the party's candidates will emerge within 90 days.

—Sen. Robert C. Byrd, D-W. Va., the Senate's majority whip, indicated he would decide shortly whether to announce his candidacy for the Democratic nomination. He would be the 11th Democratic candidate.

—Preliminary figures show Reagan has raised more campaign money than Ford has. Campaign spokesmen indicate Reagan raised more than $500,000 per month during the last quarter of 1975, compared with $327,000 per month for Ford.

McCone urges watchdog

SAN MARINO (AP) — Former Central Intelligence Agency chief John J. McCone says a joint congressional watchdog committee should be formed to insure that the nation's intelligence operations are "performing consistently with the agreed foreign policy purposes of the United States."

McCone, who headed the CIA during the Kennedy and Johnson administrations, said in an interview Monday the committee "would certainly give the public and Congress as a whole a feeling of appropriate oversight."

The committee would be similar to the Joint Committee on Atomic Energy, McCone said, would have members both from the House and Senate and would have an adequate staff.

The committee would not set policy, which would continue to be established by the president and Congress, McCone said.

"Its oversight function would be to see that the foreign intelligence community functioned consistent with policy and would be subject to such restraints as policy might dictate," he said.

"Once the Congress and the administration agreed on rules and missions of the intelligence community which would be logical and correct and in support of our foreign policy, then I'm sure that any department of government that was conforming to those guidelines would be operating within acceptable moral and legal standards," he said.

McCone, 74, who has written a first-person article advancing the proposal in the forthcoming Jan. 10 issue of TV Guide, said his plan calls for a "redefinition of roles and missions of the intelligence community."

McCone said he did not foresee any problems with an intelligence agency trying to hide its operations from the joint committee.

Obituaries

Rose Ebersole

Mrs. Rose V. Ebersole of 2700 Magnolia Ave., La Verne, died Sunday in Woods Memorial Convalescent Hospital, La Verne, following a short illness.

Mrs. Ebersole was born Feb. 14, 1886 in Ft. Lupton, Colo. She came to California in 1888 from Ft. Lupton and lived in Covina. In 1922 she moved to La Verne from Imperial Valley.

She owned and operated a maternity home in La Verne during the 1920s and 1930s. She was a member of the Church of the Brethren, La Verne.

Surviving are two sons, Walter J. of La Verne and Elbert H. of Pasadena; two sisters, Mrs. Alice Wolfe of Santa Ana and Mrs. May Hepner of Laguna Hills; a brother, Walter Hepner of Baltimore, Md.; five grandchildren; and three great-grandchildren.

Services will be held Wednesday at 11 a.m. in the Church of the Brethren, La Verne. The Rev. Leland Wilson and the Rev. James Carter will officiate. Todd Memorial Chapel Pomona is in charge of arrangements.

Friends may make memorial contributions to the Woods Memorial Convalescent Hospital, 2600 A St., La Verne, 91750.

Eunice Sontag

Mrs. Eunice Edna Sontag of 590 S. Indian Hill Blvd., Claremont, died Sunday evening in a local convalescent home.

Mrs. Sontag was born Oct. 8, 1877 in Iowa. She came to California in 1917 from Iowa and resided in Long Beach and Bakersfield. She had lived in La Verne and Claremont since 1960.

Surviving are two nephews, Frederick E. Sontag of Claremont and David B. Sontag of Long Beach; and a niece, Mrs. Victor Morgan of Fresno.

Private services will be held in Sunnyside Cemetery, Long Beach. Todd Memorial Chapel Pomona is in charge of arrangements.

William Goff

Sgt. William R. Goff of the Montclair Police Department died Saturday at San Antonio Community Hospital of a sudden illness.

He was born Feb. 6, 1928, in Des Moines, Iowa, and was a resident of Montclair for the past 19 years.

He was a veteran of World War II, serving with the U. S. Navy.

He was a Montclair police officer for the past 15 years. Previously he served with the South Pasadena Police Department, the Federal Bureau of Investigation in Washington, D. C., and the Los Angeles Police Department.

Surviving him are his widow, Shirley; a son, William R. Goff Jr. of Walnut; a daughter, Mrs. Judy Stuart of Montclair; a grandson, William R. Goff III of Walnut; and a brother, Jack Childs of Cucamonga.

Services will be held at 10:30 a.m. Wednesday at Draper Chapel, Ontario. Burial will be made at Bellevue Cemetery, Ontario.

Robert Burt

Robert F. Burt, former Pomona resident and participant in many local aviation activities, died Jan. 1 at a Ukiah hospital after a long illness.

He was born in 1905 in Iron River, Mich. He resided in Pomona from 1946 to 1970 and was employed by Southern California Edison Co. He was active in aviation groups in this area and built experimental aircraft of his own.

Mr. Burt was a test pilot for the Glen L. Martin company during World War II. Among aircraft he tested were B-29 bombers, including the one which, later to be known as the "Enola Gay," dropped the atomic bomb on Hiroshima in 1945.

Since leaving Pomona, Mr. Burt had operated a pear ranch in Ukiah.

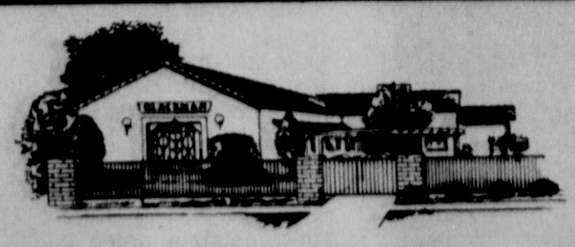

Survivors include his widow, Kathryn; a son, Lowell of Cucamonga; three daughters, Natalie Sailer of Glendale and Kathleen Castleberg and Naomi Engstrom, both of Ukiah; and five brothers; two sisters and five grandchildren.

Services were held Monday in Ukiah. Burial was made in Ukiah Cemetery.

$30 million suit filed for Harris'

LOS ANGELES (AP) — The American Civil Liberties Union has filed a $30 million lawsuit on behalf of Symbionese Liberation Army members William and Emily Harris, who claim law enforcement officials have conducted a "vicious propaganda campaign" against them.

The suit was filed Monday and names the FBI, the Los Angeles and San Francisco police departments, the Los Angeles County district attorney and the U.S. attorney in San Francisco.

ACLU attorneys held a news conference to announce the suit and released a statement from the Harrises, who are charged — along with newspaper heiress Patricia Hearst — with kidnap, assault and robbery stemming from a May 1974 shooting incident at an Inglewood sporting goods store. The Harris trial begins here Jan. 16.

Miss Hearst currently is awaiting trial on federal bank robbery charges in San Francisco and will be tried in Los Angeles.

Ex-POW title barred from ballot

EL CAJON, Calif. (AP) — Ed Murphy can run for the City Council, but he can't list himself on the ballot as an "ex-POW," City Clerk Mildred Kennel says.

Sacramento summaries

By The Associated Press
A Summary of Major Action
Monday, Jan. 5, 1976

THE GOVERNOR

Praised the Senate for not overriding his veto of a measure that would have raised taxes on beer, wine and liquor to fund alcoholism treatment programs.

Named Herbert Nobriga, 35, of Sacramento as director of the Office of Administrative Hearings and James Hicks Jr., 58, as chief of the Department of Housing and Community Development's division of codes and standards.

ASSEMBLY
Bills Introduced

Drunken driving — Would require local law enforcement to send state drunken driving arrest records for one-year study; AB 2585; Cullen, D-Long Beach.

Constitutional Amendment Introduced

Legislation — Would increase from 12 to 30 days the time the governor has to decide whether to sign or veto bills passed during the first year of the two-year session and presented to the governor after the legislature is adjourned; ACA 75; Lockyer, D-San Leandro.

THE SENATE
Override Defeated

Alcoholism — Would have raised taxes on beer, wine and liquor to fund alcoholism programs; SB 204; Gregorio, D-San Mateo; 20-19.

Bills Introduced

Taxes — Would prohibit any person who is in the business of making or negotiating loans of money or other property from requiring an applicant for a loan to provide a copy of the applicant's state or federal income tax returns as a condition of making such loan; SB 1332; Whetmore, R-Buena Park.

Farm Labor — Would specify that the exercise of farm labor organizing rights granted by the state's new farm labor law shall not infringe upon private property rights of any citizens; SB 1337; Stull, R-Escondido.

Jobs — Would appropriate $10 million to the Commission for Economic Development to develop and recommend legislative programs for the resolution of problems in areas such as health care, poverty, public safety, pollution, unemployment, housing, education, transportation, nutrition, communications and energy; SB 1346; Greene, D-Los Angeles.

Resolution Introduced

Nursing homes — Would direct the 6 state Department of Health to conduct a study of nursing homes and nursing home care; SCR 71; Wedworth, D-Hawthorne.

Transfer your savings certificate account to Pomona First Federal!

We guarantee no loss of interest, and can also guarantee higher earnings and annual yield!

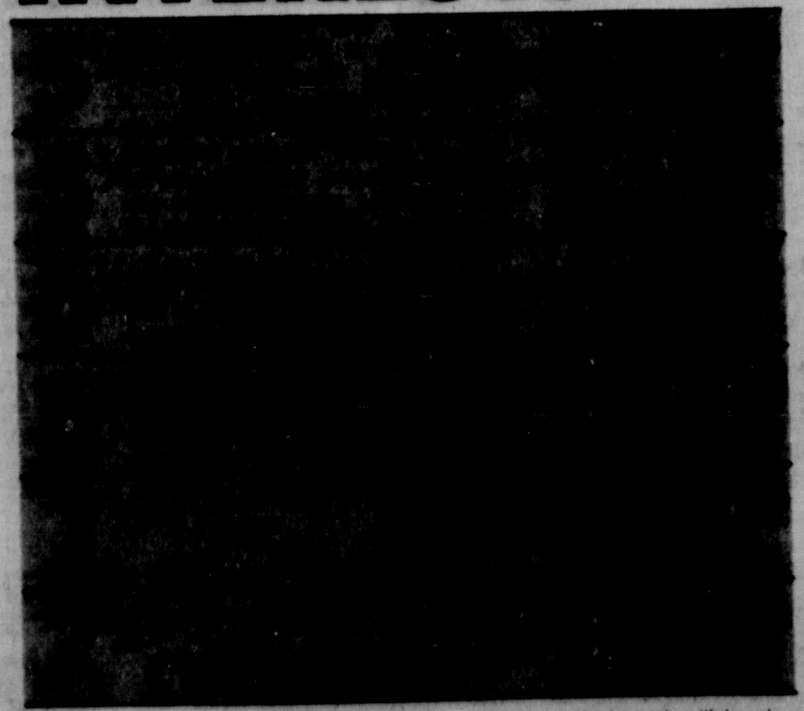

If you opened a certificate account several years ago that account may be ready to mature. It is probably at a much lower interest rate than savings certificates available today. Unless you take *specific* action on that account, you stand to lose substantial interest.

At Pomona First Federal, your Financial Friend, you can transfer your account to higher earnings, at no cost or loss of interest to you. In a Pomona First Federal certificate account, your funds can earn up to 7¾% per annum—an annual yield of 8.06%!*

Remember, if savings certificates are left to renew (which they do automatically ten days after they mature), you'll be losing important interest—the difference between the interest rates of the past and the higher rates of today.

Bring your certificate in to Pomona First Federal *today*. We'll be glad to transfer the account, no matter when your certificate matures, 30, 60, even 90 days from now. That's the spirit of Financial Friendship at PFF! Guaranteed Interest!

GUARANTEED INTEREST!

*Of course, federal regulations require a substantial interest penalty for early withdrawal. All yield figures are based on earnings remaining in your account for one year. Availability of Certificate Accounts is limited and may be withdrawn at any time.

We will be OPEN SATURDAY JANUARY 10 ...9 a.m. 'til noon.

Jewish Singles to meet

Pomona Valley Jewish Singles will meet at 8 p.m., Wednesday, at Temple Beth Israel, 3033 N. Towne Ave., Pomona.

The group meets regularly and welcomes persons who are interested.

An instructor of psychology from Mt. San Antonio College will be the speaker.

Further information may be obtained by calling 622-0804.

Shakespeare Club schedules meeting

Jeraldine Byrne will be the speaker when Shakespeare Club of Pomona meets at 2 p.m., Jan. 12, in the Lowell Decker home, 3906 Williams Ave., La Verne.

The speaker has chosen as her topic "Collections and Resources of the Francis Bacon Library."

She has served for the past three years as cataloger of rare books in the library at 655 N. Dartmouth Ave., Claremont. Mrs. Byrne will give a survey of the beginning of the collection and tell of later acquisitions.

She has degrees from the University of Wisconsin and the University of Minnesota. Mrs. Byrne also maintains a shop in Los Angeles where she does hand book binding and restoration of rare books.

Chairman for the tea will be Mrs. J. Dudley Cason. Members of the committee are Mmes. Jack Booth, Erroll Murphey, Rudolph J. Richards, and Robbin E. Fisher.

Critchley-Fetty vows repeated

St. Andrew's Presbyterian Church in Newport Beach was the setting for the marriage of Elizabeth Carol Fetty of San Dimas and John Ronald Critchley of Huntington Beach.

The couple was married by the Rev. Donald Maddox in a double-ring candlelight ceremony followed by a reception held at the Airport Inn Irvine.

The bride is the daughter of Kenneth C. Fetty of San Dimas. The bridegroom is the son of Mrs. Jack McDonald of La Jolla and Jack Critchley of Coronado.

Mrs. Gary Lawrence was honor attendant. Serving as best man was Lewis Evans, Jr.

Bridesmaids were Judith Kidder of La Habra, Mrs. Michael Tolmachoff of Lafayette, Colo., Mrs. Paul Held of Burlingame and Miss Linda Hart of Newport Beach.

Ushers were Steven Flower, Philip Critchley, Charles Smith and Captain Paul Farmer, USMC.

MRS. CRITCHLEY

The newlyweds honeymooned at Mission Bay, San Diego and will be at home in Huntington Beach.

Coming events

WEDNESDAY

CLAREMONT League of Women Voters, 624 W. 10th St., Claremont, 9:30 a.m.

Meeting charted Thursday

Pomona Valley Shrine, Order of the White Shrine of Jerusalem, will honor its members at a meeting at 8 p.m., Thursday, in the Pomona Masonic Temple.

The officers will relinquish their stations to other members for that evening.

Refreshments will be served in the dining room after the meeting.

Family Circus

"Will you put my watch on so it's lookin' at me?"

League schedules meetings

Mt. Baldy View Chapter of La Leche League has scheduled three meetings during January.

The first meeting is set Wednesday morning in Alta Loma. The second meeting will be held Thursday evening in Claremont. Topic for these meetings will be "Advantages of Breastfeeding to Mother and Baby".

The third meeting will be held in the evening on Jan. 15 in San Dimas with "Baby Arrives, the Family and the Breastfed Baby," as the topic.

La Leche League is a nonprofit, international organization founded in 1956 for the purpose of offering encouragement, information and support to those women who wish to breastfeed their babies.

Babies are welcome at the meetings. Additional information may be obtained by calling 593-1482 or 623-3387.

This week's beauty tips by Mary Lou

Curl false eyelashes quickly by holding them in the palm of your hand and press hard with a fingernail into the center of the strip.
Where beauty is concerned, don't settle for less than your full potential. Let us bring out the latent loveliness of your hair.

'Raisin' due at Schubert

"Raisin," the Grammy and Tony award-winning musical, opens at the Shubert Theater in Century City Jan. 21 for a six-week run.

The production stars Virginia Capers who received a Tony Award as best musical actress in the Broadway show. The multi-talented performer is a resident of Los Angeles and has appeared in many local productions.

Produced by Robert Nemiroff and presented in Los Angeles in association with the Inner City Cultural Center, "Raisin" has music by the 1975 Grammy award-winning composer Judd Woldin and Lyricist Robert Brittan. Donald McKayle is director and choreographer for the show with sets by Robert U. Taylor, costumes by Bernard Johnson and lighting by William Mintzer.

Over two million theater-goers have cheered "Raisin" which is recommended as an entertainment must by the American Revolution Bicentennial Administration. The musical comedy is a human explosion of soul, song and dance blended from the play "Raisin in the Sun" which captured the late Lorraine Hansberry best play award from the New York Drama Critics.

VIRGINIA CAPERS

In its three years on Broadway, "Raisin" has established itself as a classic in the American musical theater and has been hailed by drama critics throughout the country.

Performances are scheduled for 8:30 p.m. Tuesdays through Saturdays, 7:30 p.m. Sundays and Wednesday and Saturday matinees at 2:30 p.m. Special extra matinees are planned for Jan. 22 and 25 at 2:30. Persons wishing ticket information may call (213) 553-9000.

Small writing

The smallest writing achieved is a density of 85 letters per square millimeter. An engraving tool was used.

Photo by Associated Press

NOSE TO NOSE! — Lauren Bacall rubs noses with Yul Brynner backstage at New York's Palace Theater where the actress went to congratulate Brynner on the premiere of "Home Sweet Homer." Brynner stars in the musical based on the Homeric epic, the "Odyssey."

CERAMIC EXHIBIT — Rich Dillingham examines a ceramic piece that will be exhibited at the Chaffey College art museum Thursday through Feb. 6. The works of the Scripps College student will be displayed for the public during gallery hours noon to 4 p.m. and 7 to 9 p.m. Mondays through Thursdays; noon to 4, Fridays; closed Saturdays; and 2 to 5 p.m. Sundays.

Pottery exhibit set for Chaffey

An exhibition of the pottery of Rich Dillingham, a student at Scripps College, will open Thursday at 8 p.m. with a reception in the Rex W. Wignall Museum-Gallery of Chaffey College.

The reception is sponsored by the Chaffey Community College Museum-Gallery Auxiliary.

Dillingham received his bachelor of fine arts degree from the University of New Mexico in 1974. He has been on the West Coast for the past year working on his master's degree in fine arts at Scripps.

Strongly influenced by the pottery techniques of the American Indians, Dillingham has combined those techniques with Raku to produce ceramic pieces. He has works in major collections throughout the country, including the University Art Museum at New Mexico, the Museum of Albuquerque and museums at universities in Utah, Nebraska and Arizona. His work has been shown in galleries in Arizona, California, New York, Santa Fe and Hawaii.

The exhibit will continue through Feb. 6. Gallery hours are noon to 4 p.m. and 7 to 9 p.m. Monday through Thursday; noon to 4, Friday; closed Saturday; and 2 to 5 p.m Sunday.

Folk ballet scheduled at Claremont

Aman, the American International Folk Ballet, has announced its program for two performances at 2:30 and 8:15 p.m. Saturday at the Claremont Colleges' Garrison Theater.

The 60-member cast of costumed musicians, singers and dancers will recreate the color of America's heritage through dance and music. The program will feature country Appalachian dances, fiery Russian leaps and the rolling hips of the Middle East.

Tickets are available at the box office, Mutual and Liberty agencies, or by phone with BankAmericard or Master Charge credit cards, 626-4523

Heavy bell

The heaviest bell in the world is the Tsar Kolokol in Moscow.

Minister has sore throat

Lengthy talking record set

BIRMINGHAM, Mich. (AP) — The Rev. Robert Marshall has won the title of most talkative minister on record.

But he may have more of a sore throat now than he needed to get in winning the honor.

The Rev. Marshall, 55, completed a 60-hour, 31-minute sermon at 12:33 p.m. Saturday, topping the record for the longest sermon in the Guinness Book of World Records.

But there is some question now about just what the old record was.

Rev. Marshall said a religious newspaper published an article saying the old record was 60 hours and 25 minutes, set by an Irish minister.

However, after sermonizing six minutes longer than that, the Michigan pastor was advised there may have been a typographical error in the article, and the old record actually was only 50 hours and 25 minutes.

"I can tell you that after 50 hours it got a lot tougher," Rev. Marshall said Sunday of his 10-hour-too-long sermon. "I didn't find out about it until after I finished. In a way I'm glad. But just to make sure, I'm going to ask the Guinness people to sort it out."

MARGARET GRIFFITH of Pomona recently retired from the General Telephone Co. after 29 years of service. She began work with the utility in 1929 as an operator. During the past 10 years, she has been administrative clerk. She plans to spend time with her grandchildren, sew and take an ocean cruise.

Highest cloud

The highest standard cloud form is cirrus, averaging 27,000 feet and above.

On Feb. 8, 1962, rioting in Paris of thousands of left-wing demonstrators against the Right Wing Secret Army Organization claimed eight lives and injured hundreds.

PUBLIC NOTICE

NOTICE OF TRUSTEE'S SALE UNDER DEED OF TRUST
48026
dmn
TF 44658
LOAN NO. 172393

Notice is hereby given that SERRANO RECONVEYANCE COMPANY, A California corporation as trustee, or successor trustee, or substituted trustee pursuant to the deed of trust executed by LAWRENCE A. SULLIVAN, a married man and recorded Nov. 7, 1973 in book T8529 page 785 of Official Records in the office of the County Recorder of Los Angeles County, California, and pursuant to the Notice of Default and Election to Sell thereunder recorded Sept. 15, 1975 in book M5114 page 470 of said Official Records, will SELL on January 20, 1976 at 11:00 a.m., at the OXFORD STREET ENTRANCE TO THE BUILDING LOCATED AT 3731 WILSHIRE BOULEVARD, CITY OF LOS ANGELES, COUNTY OF LOS ANGELES, STATE OF CALIFORNIA, at public auction to the highest bidder for cash (payable at the time of sale in lawful money of the United States) all right, title, and interest, conveyed to and now held by it under said deed in the property situated in said County and State described as follows:

Lot 18 of Tract No. 22868, in the City of Pomona, County of Los Angeles, State of California, as per map recorded in Book 599, pages 56 and 57 of Maps, in the Office of the County Recorder of said county.

Property Address purportedly known as: 294 Royal Coach Avenue, Pomona, California 91767.

Said sale will be made, but without covenant or warranty, express or implied, regarding title, possession or encumbrances, to satisfy the indebtedness secured by said Deed, including the fee and expense of the trustee and of the trusts created by said deed, advances thereunder, with interest as provided therein, and the unpaid principal of the note secured by said deed; to-wit $17,313.21 with interest thereon from June 15, 1975 as provided in said note.

Dated: December 18, 1975.
SERRANO RECONVEYANCE COMPANY
as such Trustee
By J. E. CORNWALL
Authorized Officer
DC-133 Pomona PB
Pub. Dec. 30, 1975; Jan. 6, 13, 1976

NOTICE OF TRUSTEE'S SALE
T.S. No. 5672

On January 20, 1976, at 10:30 A.M., CAL FED ENTERPRISES, a California Corporation duly appointed Trustee under and pursuant to Deed of Trust recorded November 7, 1974, as inst. No. 691, in book T9119, page 202, of Official Records in the office of the County Recorder of Los Angeles County, State of California will sell at public auction to highest bidder for cash (payable at time of sale in lawful money of the United States) in the third floor auditorium lobby of the building at 5670 Wilshire Boulevard in the City of Los Angeles, California all right, title and interest conveyed to and now held by it under said Deed of Trust in the property situated in said County and State described as:

Lot 23 of Tract No. 19615, in the City of Pomona, as per map recorded in Book 546, pages 30 and 31 of Maps, in the office of the County Recorder of said County.

The street address and other common designation, if any, of the real property described above is purported to be: 2977 Abbott Street, Pomona, California.

The undersigned Trustee disclaims any liability for any incorrectness of the street address and other common designation, if any, shown herein.

Said sale will be made, but without covenant or warranty, express or implied, regarding title, possession, or encumbrances, to pay the remaining principal sum of the note(s) secured by said Deed of Trust, to-wit: $18,962.06, with interest thereon, as provided in said note(s), advances, if any, under the terms of said Deed of Trust, fees, charges and expenses of the Trustee and of the trusts created by said Deed of Trust.

The beneficiary under said Deed of Trust heretofore executed and delivered to the undersigned a written Declaration of Default and Demand for Sale, and a written Notice of Default and Election to Sell. The undersigned caused said Notice of Default and Election to Sell to be recorded in the county where the real property is located.

Date: 12-22-75

What's going on around here...

ELDERLY, POOR NEED TAX HELP

The Upland Recreation Department Volunteer Service Section is looking for persons who are willing to assist senior citizens and lower income persons in filling out their income tax forms.

Volunteers in the program will receive training through the Volunteer Income Tax Assistance program of the Internal Revenue Service.

The Recreation Department will set up an office where the service can be given and will arrange office hours to suit the schedule of the volunteers.

Persons interested in the program are asked to contact Harry Sippel, supervisor of volunteer services, at 985-0994.

MONTCLAIR MAN HONORED

Alvin Charles Grudem of Montclair has been honored by General Telephone Co. on completion of 25 years' service.

He is a special equipment installer assigned to the Pomona Plant. He began his career in 1950 in Pomona as a cable splicer helper.

He has been active in United Way for 17 years. He is a past president of the Communications Workers of America, Local 9588.

He and his wife, Alora, have one child, Pat.

KARATE EVENT IN S.D.

A karate demonstration will be held at the San Dimas library on Saturday at 3 p.m.

Tiawa Aponte of Claremont, a member of the U.S. Karate League, will lead the team of participants in demonstrating the art of karate. The event is free and open to the public.

THOMPSON A. ELLIOTT Jr. of Upland has been promoted to vice president in Security Pacific Bank's operations department. A graduate of Mt. San Antonio College, he joined the bank as a management trainee in 1959.

Creoles

Louisiana's Creoles are descendants of early French and Spanish settlers, including the Acadians. Some 4,000 of these people, originally French settlers in what is now Nova Scotia, were taken from their homes and transported by the British to Louisiana in 1755 as a security measure in the conflict with France over control of Canada. Their particular descendants became known as Cajuns.

Smoke effects on lung studied

Inhaling hot smoke into lungs causes problems, whether the smoke is from tobacco, brush fires or marijuana, according to Dr. Ralph C. Jung, president of the Lung Association of Los Angeles County.

The association, which is presently at the $850,000 figure in its Christmas Seal drive for funds to fight emphysema, tuberculosis, asthma, other lung diseases and air pollution, is supporting several studies on the effect of smoke on the human respiratory system.

Current studies regarding smoke effects on the lungs at several institutions reveal that while tobacco smoke and marijuana affect the lungs in different ways, both inhibit the germ-destroying action of certain cells in the lungs.

Almanac

Today is Tuesday, Jan. 6, the sixth day of 1976. There are 360 days left in the year.

Today's highlight in history:

On this date in 1412, the French national heroine, Joan of Arc, was born.

On this date—

In 1838, Samuel F.B. Morse made the first public demonstration of his telegraph, at Morristown, N.J.

In 1912, New Mexico became the 47th state.

In 1919, former President Theodore Roosevelt died at his home at Oyster Bay, N.Y.

In 1950, Britain recognized the Communist government of China.

Ten years ago: President Lyndon Johnson sent Secretary of Labor W. Willard Wirtz to New York to try to end a crippling transit strike.

Five years ago: Secretary of Defense Melvin Laird said the U.S. combat role in Vietnam would end before the middle of the summer.

One year ago: Portugal opened diplomatic ties with the People's Republic of China and said it considered Taiwan part of that Communist nation.

Today's birthdays: Entertainer Danny Thomas is 62 years old. Actress Loretta Young is 63.

Thought for today: "I know what I wish Ralph Nader would investigate next. Marriage. It's not safe at all." Writer Jean Kerr.

Bicentennial footnote: Two hundred years ago today, Revolutionary officials in South Carolina advised Georgia compatriots that British warships had left Charleston and might be bound for Savannah.

SACRAMENTO. EASY.

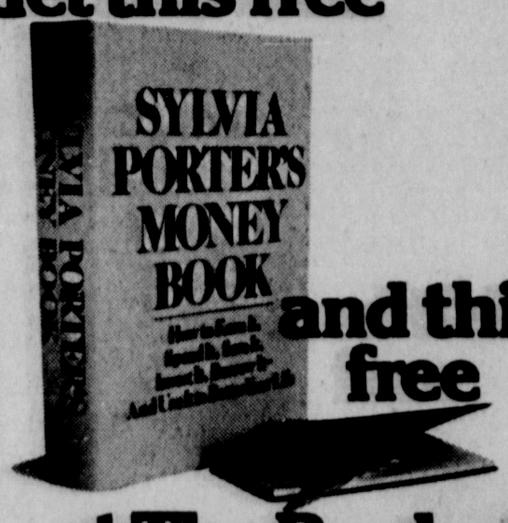

21 Sunjet flights a week plus the only same-day round trips from nearby Ontario Airport. Lowest commuter fare, too. So call Easy Information first. If there's an easier way to get you there, we'll be the first to tell you.

Call Easy Information in Colton, (714) 825-6900; El Monte, (213) 444-4501; Los Angeles, (213) 627-5401; Ontario, (714) 983-2743, or your local travel agent.

VEGA

Vega Sport Coupe

5-Year/60,000-Mile Dura-Built Engine Guarantee.

This 5-year/60,000-mile engine guarantee is an added value feature included in your 1976 Vega or Monza car.

The Chevrolet guarantee covers 60,000 miles, or 5 years, whichever occurs first. The guarantee is for 1976 Vegas and Monzas equipped with 4-cylinder, 140-cubic-inch engines. It means that should something go wrong with the engine, your Chevy dealer will fix it . . . free. The guarantee covers repairs to the cylinder block, cylinder head, all internal engine parts, intake and exhaust manifolds, and water pump, made necessary because of defects in material or workmanship. It does not cover repairs required because of accident, misuse or lack of proper maintenance.

See your Chevy dealer for complete guarantee statement.

30 MPG. HWY. 19 MPG. CITY

EPA Ratings with Dura-Built 140-2 engine and manual transmission.†

$3134

Pomona solon rebukes public works chief

By CONRAD CASLER
PB Staff Writer

Pomona Public Works Director Ronald Kranzer was chastised publicly at Monday nights City Council meeting charged with violating council orders.

Councilman Benjamin Ochoa Sr. blasted Kranzer in front of the audience after citizen Jerry Romo representing his brother who owns property at 768 E. Philadelphia St., pleaded his case. Romo said the property was served by a septic tank and when his brother asked that his property be connected to city sewers, he was told the street had just been repaved and he would have to hire a private contractor to do the job and pay a high fee for tunneling under the street rather than cut down through pavement.

Philadelphia Street was repaved last summer. It was learned later that not only was the Romo property not connected to city sewers directly under the street, but 12 other properties were not as well.

At that point Ochoa exploded at Kranzer.

"Ron, I specifically told you some time back that when streets were to be repaved, all utilities were to be notified so that any work could be done without having to cut the street once it was paved. Sewers are a utility and this was not done.

"We are paying you guys good money and you are not doing the job," Ochoa charged.

A flushed Kranzer answered that failure to check the sewer dilemma on Philadelphia Street was a "simple oversight."

Mayor Ray Lepire said the city would study the problem in an effort to relieve property owners of huge fees for connections because of the city's oversight.

Shortly before the meeting ended, both Councilwoman Georgia Grove and Councilman Adrian Wright challenged all city officials to tackle the crime situation as Pomona's No. 1 issue for 1976.

Mrs. Grove asked City Manager Jerrold Gonce to study a new program involving 18- and 20-year-olds in other cities at $2 an hour to handle quasi-police work. She said an article she recently read indicates that more than 75 per cent of a policeman's time is spent on noncriminal activity.

Hiring youths to handle noncriminal matters would relieve police of less important matters and allow more effort aimed at stamping out crime, she said. Gonce said he would draft a report for the next council meeting.

Wright said the city must formulate a whole new approach at handling crime.

Wright was the lone dissenter in a 4-1 vote authorizing Thursday's city employes' union election. He said he did not approve of allowing a single union to bargain for employes who did not want to join it and voted against its representation.

In question is whether Pomona City Employes Association, a strictly local union, will continue to represent city workers, or the Service Employes International Union which spans the North American continent.

Wright was joined in his argument against the measure by citizen Bart Maher, a regular member of City Council audiences. Maher, who described himself as "pro-union," said, however, that union demands by local government employes are driving city officials more and more to Washington to get projects accomplished.

"Sooner or later if this keeps up, the federal government will be running everything because local government won't be able to afford it," Maher charged.

Mrs. Grove objected to proposed improvements for Pomona Boulevard, charging the project does not appear on the city's list of priorities adopted by city council many months ago.

Proponents argued that widening the business-industry district street between Valley Boulevard and Roselawn Avenue, installing two miles of curbs and gutters plus erecting attractive street lights would entice industry to move into the generally open area and increase Pomona's dwindling tax base. Councilmen approved the measure 4-1. The vote also included elimination of any repair work on Bonita Avenue west of Garey Avenue this year.

No one stumping for preservation of Barbara Greenwood Arroyo Kindergarten Bungalow showed up at the meeting to plea for preservation funds, so councilmen tabled the matter two weeks.

Council position reversed

Upland F.D. retirement issue wins spot on ballot

By VONNE ROBERTSON
PB Staff Writer

Upland City Council members Monday agreed by a 3-2 vote to place a proposed firefighters retirement program on the March 2 municipal ballot.

The proposal had been defeated at the Dec. 15 meeting when Mayor Abner Haldeman and Mayor Pro Tem John McCarthy supported the Upland Firefighters Association in its request and Council members Ina Petokas and Hal Bailin opposed the measure.

These four stuck by their previous vote. The deciding vote was cast by Councilman George Gibson who was absent at the previous meeting.

The proposed retirement program was to be decided by Upland voters would cost the city an estimated additional $63 400 for the fiscal year 1976-77, resulting in a property tax increase of approximately 6.2 cents per $100 of assessed valuation.

The tax rate would increase or decrease proportionately each year as costs change.

A similar retirement program, which allows safety personnel to retire at the age of 50, was granted to Upland Police Department personnel by the voters in March 1974.

Because of the high risks involved by fire and police personnel, the special retirement program was authorized by the state legislature and is not available to other city employes.

In opposing the ballot measure, Bailin said "I don't believe Upland firefighters have a specifically hazardous duty. Our tree trimmers have just as hazardous work.

"We already depend on federal revenue sharing funds to support the Police Department," continued Bailin. "To put this on the ballot merely passes the buck.

"The existing retirement system for the department is better than most people in private industry are given."

In supporting the motion to place the measure on the March 2 ballot, Haldeman said "We are facing a real austerity program, but the citizens have a right to vote on the issue."

Thomas J. Moseley, president of the Upland Firefighters Association, took issue with Bailin. He said that the firemen are still working under a 1944 retirement program which is more advantageous to the man who joins the force at an older age.

Moseley said this program was instituted during World War II when the department sought the older man and veterans. Since then, he added, the city's miscellaneous personnel and police officers have been provided with upgraded programs so that they all have better retirement programs than the firefighters.

City Manager Lee Travers said that, because of many technicalities, safety personnel cannot be offered the same retirement programs offered to other city employes.

In other action the council denied a zone change on property located at 965 N. Second Ave.

This lot has been considered as a residential home for six mentally retarded adults. In denying the action, the council felt that the city has better control over the use of the property by keeping it zoned commercially instead of permitting a change to a single family residence zone.

City Atty. Don Maroney explained that under the state's Lauterman Act, six mentally retarded persons may reside in a single-family residential zoned home.

CANADIAN BOOKS PRESENTED

Ambassador Jack Hamilton Warren of Canada, left, presented 300 books provided by the Canada Council to Claremont Colleges on Monday. Talking with the ambassador are Claremont Colleges Provost E. Howard Brooks, center, and Patrick Barkey, director of Honnold Library, where the books on foreign affairs and other topics have been placed.

Jail-court tunnel project gets S.B. County go-ahead

An underground tunnel will soon be constructed between the West End sheriff's jail and the Ontario Municipal Court building to provide more security in moving prisoners, said San Bernardino County Supervisor Robert Townsend.

County supervisors Monday authorized a call for bids to construct the tunnel under a parking lot between the jail and court facility.

Cost of the project is estimated at $140,500, he added. The tunnel will measure seven feet high, eight feet wide and 250 feet long.

The tunnel will begin at the jail's back door and open into an enclosed corridor on the court building's first floor.

The San Bernardino County complex is located north of Sixth Street and east of Mountain Avenue in Ontario. The sheriff's jail is used by sheriff's deputies and the highway patrol.

At present, prisoners are walked from the jail across an open parking lot and into the court building several hundred feet away.

Sheriff's officials have long sought the tunnel because of an increased number of "high security" inmates from state prisons and as a means of reducing the number of officers needed to escort prisoners between the jail and court facility.

While no construction schedule was announced, sheriff's Capt. Ed Noon of the West End station said he hoped work can begin "as soon as possible," since this is a priority project.

The tunnel, he explained, will be pre-cast concrete which can be installed during a weekend.

Increased attendance drive picks up 359 truant students

More boys than girls were swept off Pomona streets by police through Operation Increased Attendance the three weeks preceding the holiday vacation. The action was resumed this week.

Some 248 boys and 111 girls — for a total of 359 truant students — were picked up Dec. 1-19 and taken to the neutral location on Park Avenue, according to John Owsley, assistant director of the Pomona Valley Juvenile Diversion Project.

Juvenile Diversion, Pomona Police Department and Pomona school district are cooperating in the operation, initiated by the police department in an attempt to reduce daytime crime.

Police Chief Forest P. Wallick said that burglaries have decreased in areas where the truancy program has been concentrated.

All officials involved in the operation are hopeful it will continue to substantially lower daytime residential burglaries.

"The general response of the parents who were notified their children had been picked up and asked to escort them back to school has been very favorable," said Owsley.

Of the 359 picked up by police, 14 were from out of the district, three were not registered at any school, 105 were from Ganesha High School, 90 were from Pomona High School, 87 were from Garey High School, 26 were from Park Avenue High School, six were from Fremont Junior High, six were from Marshall Junior High, five were from Palomares Junior High, two were from Simons Junior High and one was from Emerson Junior High.

Twelve were from the Emergency School Aid Act (ESAA) Pilot Project and one was from Project Upstream.

Picking up the 330 Pomona students and returning them to school saved the district $2,036.10 in attendance funds, school authorities said.

One more time!—Claremont to decide on school closings

By GEORGE MacLAREN
PB Staff Writer

The Claremont school board will hold a special meeting Thursday either to uphold, modify or rescind its decision of last June 2 to shut down Sycamore Elementary School and La Puerta Intermediate School as schools.

The board decided at its regular meeting Monday to hold the special meeting at 7 p.m. at Condit Elementary School. For an hour and 35 minutes before this action, the board discussed the problems facing the district because of declining enrollment south of Foothill Boulevard and a burst of residential construction activity north.

Board President Ernest Taylor reviewed the board's actions in deciding to close in their present uses Sycamore at the end of the present school year and La Puerta effective the 1977-78 school year.

He said that the board should take one of three possible actions at the next regular board meeting Jan. 19 or at a meeting when all board members are present. Since board member Beverly Shacklett faces back surgery and possibly will not be with the board until March, the board decided to meet again Thursday night.

District Supt. Richard Kirkendall recalled that the board at its Nov. 17 meeting agreed to use as a basis for projecting future enrollment a rate of new residential construction equivalent to 160 dwelling units per year more than the average of 40 for the past five years.

After discussing the possible implications of continuing the kindergarten through grade 6 in all present K-6 schools and discontinuing the K-6 program at Sycamore School, Kirkendall said he feels the district needs an additional nine or 10 months to determine how many new houses will be built and occupied in the next year and how many school-age children will live in those houses.

Kirkendall said that "it is my opinion that the district should continue a K-6 program at each present K-6 school at least through 1976-77."

He suggested that the board appoint an ad hoc committee to study enrollment, capacity and financial data and to recommend options on school housing and related financial problems facing the district.

Board member Arthur Steffen reported that Rosemount Estates and Lewis Homes are planning 222 homes, with some already under construction north of Foothill Boulevard.

He predicted that the district will have to build a new facility somewhere.

"I hope we will be able to provide it when it is needed," he said, estimating it takes two to three years to build a school from the planning through the construction stages.

Steffen said that it is evident that La Puerta will not be phased out but will not be used for the same grades as today. "It could be used for K-6 or K-8," he said.

Steffen predicted that El Roble Intermediate School would be used at less than capacity.

Taylor questioned whether such a new school would be built in the north of Claremont, at La Puerta, or at the district's Grand Avenue site.

He predicted that Sumner Elementary School would be difficult to keep filled, and that Chaparral Elementary School will be over-occupied in 1976-77.

"How do we get the students to classrooms available?" he asked.

Kirkendall assured Taylor that La Puerta cannot be expanded under the state building program because the district is 1,200 students below the state's qualification level.

Kirkendall explained that a school could be built with bonds because the district is below its bonding capacity.

The board also discussed the possibility of busing and attendance area changes of "major magnitude."

Kirkendall said there would be possible pressure for busing probably in 1978-79 from the northeast area, but added that the best thing that happened to the district was the dropping of busing several years ago.

Coach fails in bid to keep recreation post

By PEGGY GONZALES
PB Staff Writer

"Everybody here likes a winner. You may have your philosophy and it may be different from mine but at heart every one of you likes a winner," Larry Brown told the Walnut school board Monday night.

But Brown was a loser in his effort to be re-instated as a recreation leader at Collegewood Elementary School.

Brown lost his job Nov. 4, 1975. He was previously terminated in July, but was reinstated in August when representatives of the Cal Poly Black Student Union, Neighborhood Adult Participation Project and the National Association for the Advancement of Colored People went to bat for him.

Councilmen voted unanimously against the re-instatement after riffling through several pages of statements regarding Brown's performance on the job.

Brown said he saw no reason that he should be fired.

"Perhaps I'm not one of the greatest guys at putting things together, like arts and crafts. I'm a coach and I like to win."

T. James Hannan, president of the board, stated at the opening of Brown's presentation that the board had no legal or ethical obligation to allow him to make the appearance.

Consulting the list of statements, Richard A. Falloon, member of the board, spoke of tardiness, failure to bring in equipment, failure to clean up, failure to transport children without authorization.

Brown specifically denied the last charge and earlier, when Richard B. Vind, board member, asked if he refuted charges made "in this letter," Brown answered in the affirmative.

The board retired to executive session to come to a decision and then made the 5-0 vote in public session.

Floral design session slated

The second attraction of the annual winter-spring program of the Ontario City Library will feature Al Sugiki in a lecture-demonstration of novelty floral design in the garden room of the library at 7 p.m. on Wednesday.

During the presentation Sugiki will make several floral designs which will be presented to lucky ticket holders among those in attendance. Tickets will be presented to members of the audience as they arrive.

Sugiki is a former Army career officer. Floral design has been a lifetime interest of his that has been developed as a result of his study of technique in countries where he was stationed throughout the United States and abroad. Sugiki and his family reside in Alta Loma.

The event is free.

Accessories to public spending

A recent remark by Yale University president Kingman Brewster has been widely, and approvingly, quoted:

"Until we can devise ways by which the inflationary consequence of a congressman's vote is traced to him with the same particularity which attaches to a yea or nay on a revenue bill, we will not cure the disease of public spending motivated by the desire to achieve re-election."

As with other statements of a similar nature, the implication is that politicians will do anything to get themselves re-elected. That goes without saying. Nobody will argue about that.

But again, what seems to be totally ignored is the fact that it takes two to tango in this matter. If the voters insist on rewarding the big spenders by returning them to office again and again, the voters are at least accessories after the fact.

To complain about inflationary government spending while ignoring the responsibility of the electorate in a democracy is like lamenting about the rise in automobile thefts and burglaries while ignoring the fact that criminals don't buy stolen goods from each other — they sell them to law-abiding citizens happy to make a good deal.

Brewster also seems to be saying, however, that voters are unable to see the connection between their congressman's vote on a particular issue and its effect on inflation, and until they can see the connection, spend and spend and elect and elect will continue to be the watchwords of politics.

This may be so, but in this regard the people are no different from the best economic minds in this country who cannot agree on what causes, or cures, inflation.

Be that as it may, it is time we recognized that the contempt so many Americans feel for politicians is a two-edged sword. If politicians will do anything to get elected or re-elected — well, who elects them and re-elects them?

In support of cash

Thanks to the Fair Credit Billing Act, which took effect last November, retailers who accept "third-party" credit cards like the ubiquitous BankAmericard and Master Charge, may offer discounts to customers who pay cash.

Theoretically, that is. The law doesn't say they have to, and so far, there doesn't seem to have been any rush by merchants to take advantage of the new law.

And that strikes us as rather strange in this land of free enterprise.

True, the two to five per cent or more service charge the retailer pays to the credit card company is covered by his prices. But that means that not only are credit card users paying for the convenience of delayed billing, every cash-paying customer is to some extent subsidizing the card holders.

One would think stores would be leaping to steal cash customers away from their competitors by offering appropriate discounts.

Consumers Union, which has waged legal battles in this field, thinks so, too. By way of encouraging such a trend, it has published a guide to help local groups compile directories of merchants offering discounts for cash.

In fact, the name of the guide is "How to Compile a Consumers' Directory of Merchants Offering Discounts for Cash." It's available for $1 from the Book Dept., Consumers Union, Orangeburg, N.Y. 10962.

VIEWPOINT

"But why can't I keep him? He won't be any trouble!"

Preserving our history

Dear Editor:

I am so pleased — and shouldn't everyone be — that a group of civic-minded people have had the foresight to start a campaign to raise funds to save one of Pomona's historic structures.

The kindergarten bungalow on the Arroyo School grounds is the oldest school building still standing in Pomona. It was erected 67 years ago on which is now the site of Park Avenue High School.

Years later it was moved to the old San Antonio Elementary school grounds and was moved again in 1951 to Arroyo School grounds when San Antonio School was torn down to make way for a new fire station. San Antonio School was replaced by the new Kingsley School, I believe.

I hope that Pomona citizens will rally around the campaign to save the old kindergarten structure so that it may become a museum piece. I hope the same mistake won't be made when not too many years ago the community allowed the old abandoned Spadra school house to be sold at auction to the highest bidder.

The old schoolhouse, which still stands, was erected in 1920, but its history date back to 1867 when the first school district was formed in Pomona Valley.

Spadra school was abandoned for classroom purposes in the 1950's when the Spadra school district merged with the Pomona Unified School District. For years afterward it was used for storage purposes. Subsequently, it was put up for auction, but not before the school board at that time had the good sense to save the schoolhouse bell which is now on permanent display in the lobby of the education Center on S. Garey Avenue.

Probably it is too late to do anything about saving the Spadra schoolhouse for posterity, but we can avoid future mistakes by supporting the campaign to save the old kindergarten bungalow.

There have been a number of historic buildings, including the old city hall, that have been allowed to be torn down and therefore lost forever.

This should not happen. We are thinking about the old postoffice building on S. Thomas Street. I hope that someone will get interested enough in doing something about preserving that also for future generations. — Letter signed, but name withheld by request.

Jack Anderson

Cost of Nixon's removal

WASHINGTON — Government auditors are still trying to calculate exactly how much of the taxpayers' money was spent to remove Richard Nixon from the White House and to install him at San Clemente as a presidential pensioner.

The latest confidential General Accounting Office audit, which attempted to straighten out all the gifts the taxpayers have given to Nixon, was completed appropriately on Christmas Eve. Here are some of the highlights:

— The federal paymasters had to do some fancy financial juggling before they could start paying Nixon his $5,000 monthly pension. They had no authorized funds, for example, until Congress belatedly voted a separate pension for Nixon. In the meantime, they made the initial payments from pension funds that had been earmarked for the widows of Presidents Harry Truman, Dwight Eisenhower and Lyndon Johnson.

— Before Nixon's tape and documents became tied up in litigation, the General Services Administration assigned 37 archivists and laborers to sift through his papers. This cost the taxpayers an estimated $102,000.

— The deposed President completed the transition to civilian status, according to the bookkeepers, on Feb. 9, 1975. He then was given a $45,000 budget to last him until the end of the fiscal year on June 30. According to the confidential audit, he used $35,000 to pay the salaries of four assistants. He spent $7,200 for telephone and travel expenses. The rest went for supplies and equipment rental.

— Nixon's transition budget, which expired on Feb. 9, was a flat $100,000. Of this, a startling $52,815.95 was spent for stationery, another $12,000 for postage. Apparently, he will have need for all that stationery. He has been snowed under with more than two million unanswered letters.

— The former President was never charged for $265,580 in salaries paid to 54 federal workers who were "detailed" to him at first. Among them were his personal maid, butler, three chauffeurs and a medical corpsman. It cost the taxpayers $2,600, for example, to pay seven movers and packers to haul the Nixon's personal belongings out of the White House.

Nixon also should have paid $77,470 in rent for his oceanside office space. But GSA waived the rent last August.

Of course, Nixon is entitled under the law to the Secret Service protection. This runs the taxpayers $622,000 a year.

Footnote: The confidential report suggests that GSA at first was concerned that Nixon might not legally be entitled to any funds at all. But "the Justice Department determined that . . . former President Nixon, was entitled to the benefits provided by (two separate) acts."

WATCH ON WASTE: Not long ago, Randall Woods took a step up in Washington. He moved from the lowly Small Business Administration to the White House.

His associates at SBA were sorry to see him go. For Woods is a charming gentleman, manicured, soaped, pressed and pomaded, who has the sophistication of an experienced world traveler.

He should.

For as an assistant SBA administrator, he took an incredible 87 separate trips at the taxpayers' expense between June, 1972, and August, 1975. A list of his destinations reads like an atlas: Anchorage, Brussels, Denver, Honolulu, Los Angeles, New York City, Reno, Tucson, San Juan.

These are just a few of the cities Woods visited — always, of course, on "official business." During one particularly active week in August, 1974, he made breathless stopovers in Anchorage, Chicago, Honolulu, Los Angeles and Seattle.

On another occasion, Woods flew to Puerto Rico to present a trophy. Another time, he journeyed to Belgium to attend an international business conference.

He spent more than $18,000 of the taxpayers' money on airplane tickets alone. He also drew $12,000 from the government in travel expenses.

Woods doesn't think his travel was "exorbitant." He assured our associate Gary Cohn that the taxpayers got their money's worth from his trips. Woods explained that he often flew to disaster areas to help small businessmen get back on their feet.

As a government bigwig, of course, he was able to justify the trips merely by stating that they were necessary for official business.

WASHINGTON WHIRL: A few days ago, we told how J. Edgar Hoover had his aides buy him a garbage compactor to block our Great Garbage Caper: our search of Hoover's garbage to burlesque his own FBI snooping techniques. Now, we have learned that Hoover's top aides, who'd been hit up for contributions for the device, referred to it as the "anti-Anderson Garbage Smasher." . . . Rep. Mario Biaggi, D-N.Y., who fended off a Watergate plumber's effort to tie him to the Mafia, may soon have the same problem with his links to the Teamsters. He's been passing out free copies of Jimmy Hoffa's "Hoffa: The Real Story" to fellow Congressmen. Biaggi insists it's to stir interest in Hoffa's disappearance and in criminal reform for which Hoffa had fought.

Julian Bond at large

The freedom-fighters

You may not have heard of the Wilmington 10, or the Charlotte 3, but you should have. Together they face more than 300 years in prison. They are young men and women trying desperately to extricate themselves from a web of federal and state conspiracies.

In the same state that tried to kill Joanne Little, the same state that insists on trying Robert Williams for a kidnapping charge which most observers realize was an early attempt to stifle his civil rights activities, the Wilmington 10 and Charlotte 3 are having their problems.

Using the same tactics, North Carolina, in concert with paid informers and agents of the federal government, has engaged in a long struggle to thwart the civil rights and political activity of a small band of activists.

The two central figures in these cases are the Rev. Ben Chavis and Dr. Jim Grant. Following the Ku Klux Klan killing of a black Vietnam veteran in Oxford, North Carolina in 1968, civil disorder broke out in that small town. Chavis and Grant, respected black community organizers, were implicated in a bizarre dynamite plot on the word of two men who were paid $17,000 by government officials.

In 1971, Chavis, Grant and two others, were charged with burning a riding stable — the crime having occurred three years earlier. The prosecution witnesses again were the same two men who had served as paid informants at the original case.

Grant got 25 years, T. J. Reddy, a young poet, received 20 years, and Charles Parker drew 10 years.

At one time, State and Federal officials brought 78 separate charges against Rev. Chavis.

Now the Charlotte 3 remain in jail, and the Wilmington 10 will go back if their appeal to the U. S. Supreme Court goes unanswered.

It is no accident that these prosecutions have occurred in the state with the longest death row in the nation; in the state with the lowest percentage of organized workers in all the 50 states; in the state with more prisons than any other.

Sadly enough, while we all know of Joanne Little and Angela Davis, few of us know of these cases stretching back now nearly a decade. These incidents have their origin in the usual attempt to halt human progress. They were aided and abetted by people in high places in the old Nixon White House, and are tainted by the stain of informants of governmental crime and public indifference.

These freedom-fighters deserve our support.

Doc Peirsol

Just in jest

Recently I made a study of various weight reducing advertisements and have come to the conclusion the sure way to make a sale is to promise that no effort will be involved.

You know, offers like: — "losing weight the easy way" or "IF YOU CAN LICK A STAMP YOU CAN LICK YOUR WEIGHT PROBLEM." — And with that thought in mind I am considering getting into the lucrative weight reducing business myself.

Already I have come up with the headline for my advertisement. It's going to start right out where other ads leave off. — YOU FOLKS WITH GUTS CAN MAKE EASY WEIGHT CUTS — Cut isn't it? Now all that remains to be done is to create the cure.

Paul Harvey

Bureaucrat in the bathroom

Where will it end? Government snoopervision can be justified when it intrudes on our privacy to prevent the skyjacking of airliners. It is within government's proper province to prevent one person from harming another.

But when government presumes to protect us from ourselves there is no end to it. It sounds reasonable enough to require automobile seat belts and motorcycle helmets, yet I cannot help wondering how much commercial interests have influenced our lawmakers: lobbyists mostly interested in marketing seat belts and helmets.

If the lawmakers' concern were entirely for our well being, then they would have to be equally vigorous in prohibiting similarly harmful smoking and drinking — but they're not.

Also, a government agency created for some humanitarian mission such as ecology or safety has to keep doing something to justify its budget. Similarly, building codes — however well intentioned — can become silly.

And government enforcement provides the opportunity for bribing inspectors to "overlook" some code which never should have been on the books in the first place.

In McCammon, Ida., local plumbing inspector invited himself to John Schoonover's house to "check his plumbing." The vent from the bathroom toilet through the wall to the roof is prescribed by the present code to be three inches in diameter.

Schoonover's vent pipe was perfectly functional but fractionally less than the code specifies. Technically, according to the National Plumbing Code, the violation is a misdemeanor punishable by a $10 fine.

Schoonover's offer to pay the fine was refused, and he was cited with a felony complaint which could send him to prison for five years.

To replace the present vent pipe with another slightly larger would require tearing out walls from the lower-level bathroom to the roof, obviously a considerable expense.

So Schoonover went to court. And he is presently contemplating a court order to modify the plumbing in his house or else. A prosecuting attorney advised Schoonover that if he pursues the case further, other "technical violations" will be found.

Three times this bureaucrat in the bathroom has walked into the Schoonover house uninvited, once when nobody was home. He is legally immune to prosecution for trespassing.

Schoonover is aware that the law supports this invasion of his privacy, this intrusion on his "castle," and that his legal fight is likely a losing fight. But he says more grievous than going to jail is the prospect of seeing another traditional freedom go down the drain.

Joyce Hifler

Think on these things

Sensitive people have strong feelings about places, things, and even other people. They know when they walk into a house if it "feels right." There is a sensitivity to the atmosphere with "feelers" constantly reaching out to investigate and determine the rightness of the place. It is not a thing easily explained to everyone, but the feeling is just as real and explicit as something visible and has all to do with the compatibility of persons and places.

Maybe the same law that attracts people to people also establishes a relationship between persons and places. At least it does prove that we have built in a sense of "knowing" that goes beyond just thinking.

Berry's world

Tomorrow: Movie Stars of the Thirties

Ann Landers

Tragedy of senseless killing

Dear Ann: Tonight at 9:55 p.m. our phone rang. Dad answered. We could tell from his responses that it was bad news.

It was the mother of a dear friend who had just died. The week before, HER phone had rung. It was the sheriff asking her to come to the hospital. Her son had been shot in the head while driving down one of the main streets in Omaha.

He was only 33 — a wonderful person, no enemies, no reason why anyone would wish him dead. But someone took a shot at him — and now he is gone forever. The agony of this man's parents is unbearable. He was their only child.

There are no clues as to who committed this senseless murder. They will probably never find the killer. It makes me sick to know that whoever did this awful thing is out there somewhere — walking around with that gun. God knows who will be next. — America, What's Happening To You?

Dear America: That's a good question. One of the answers is this: There are at least 90 million guns out there and many are in the hands of crazy, irresponsible people. Again I am asking all concerned citzens to urge their Con-gress-men and Senators to pass a strong federal gun law. Every poll taken shows that the vast majority of Americans WANT it. Are the gun manufacturers and lobbies in Washington stronger than the voice of the people? Let us make ourselves heard.

Dear Ann Landers: I am going to pieces. My husband has accepted a new job — a substantial promotion. It means he will be out of town six nights at a time, once a month.

I know a man cannot go that many days in a row without sex. The thought of my husband sleeping with another woman is driving me crazy. I have small children and cannot travel with him.

Am I being childish and possessive? Do I need to see a psychiatrist? I'm frightened of my feelings. Please help me. — Mrs. X

Dear Mrs. X.: The notion that a man can't go without sex for six days is cuckoo. You need to talk to a therapist and learn why you are so insecure and why you feel so threatened. Get moving, Lady.

Dear Ann Landers: I am 16, a high school junior, and pregnant by a boy I don't love. I can't figure out how I got into this fix. It must have been too much booze.

I'm about nine weeks along and the doctor says I am P.G. for sure. The boy responsible says he will pay half the cost of an abortion. My mother and dad will pay the other half. The problem is I don't want an abortion because I'm afraid it will leave a scar on my mind forever.

I am not a Catholic, but I have this feeling about murdering an unborn child. My friends think I'm crazy but I want to go to a home for unwed mothers, have the baby and put it up for adoption.

Please tell me if you think I am out of my mind. My parents will let me make the final decision but they are trying very hard to get me to see things their way. Help me, please. — Annabelle

Dear Annabelle: This decision should be yours and yours alone. If you fear the psychological consequences of an abortion, then don't have one. For some 16-year-olds it's the best solution, but for you it might be the worst.

Marmaduke

"I don't care what the forecast was like, your not moving in."

Dr. Miller

Urethane shoes new for horses

DEAR DR. MILLER: Is it true they've come up with rubber horseshoes? Are they any good, really? Would they be too bouncy? —N.O.

DEAR N.O.: 'Tis true. The comfortable old shoe, or its equine equivalent, is now available. This new horseshoe is made from urethane, and horses wearing it should have the last laugh. Certainly they will as far as comfort's concerned. These shock absorbing shoes allow natural expansion and contraction of the hoof, something which steel horseshoes can't. Bouncy? A bit compared to steel, but not enough to bother. Time will tell whether these urethane models will render obsolete the time-honored steel horseshoe. They could well be a step in the right direction.

DEAR DR. MILLER: Isn't it true that the runt of a litter can turn out to be the best of the bunch when it grows up? —N.L.

DEAR N.L.: The runt may eventually develop into a physiologically, psychologically superior specimen, but it's a long shot. Don't count on it.

DEAR DR. MILLER: My husband is having a problem with cholesterol, so he's on a diet and on some medicine for it. Since our dog, Pedro, is also overweight and all, we figure he has a cholesterol problem, too. He won't stand for a diet, though, and we're wondering if giving him my husband's cholesterol pills without a diet might help him some. Can cholesterol medicine work without a low cholesterol diet? —S.S.

DEAR S.S.: In Homo sapiens, a low cholesterol diet plus drugs produces the best results. In man and other primates, however, the drug cholestryamine lowers serum (blood) cholesterol even without a change to a low cholesterol diet. Since this drug is currently being used in humans only for the treatment of gallstones, it would not be the one your husband is now receiving. Further, you don't know that Pedro really does have a cholesterol problem. You're simply guessing. Most important of all, you should never pop people pills into a pet without the permission of the pet's doctor. Even in those rare cases where the drug one proposes to give the animal might be appropriate, it would still be unlikely the dosage you'd give without specific instructions would be the correct one. Since the wrong dose, even for the right drug, can do more harm than good, there is no way to justify unsupervised home medication of pets by using human drugs.

STRETCHING THINGS . . .

. . . rubber bands, in particular, are extremely unsafe playthings around puppies and kittens. Some can can cause trouble when swallowed, or they loop around the base of the tongue in the process of being swallowed. Children playfully put rubber bands around leg or neck of the animal, then forget to remove them. A rubber band so placed can then be hidden by the hair and act as a tourniquet or, more slowly, as a rubber "saw" whose constant pressure effectively cuts through body tissue down to the bone.

Erma Bombeck

I loved you enough to say no

"You don't love me!"

How many times have your kids laid that one on you?

And how many times have you, as a parent, resisted the urge to tell them how much?

Someday, when my children are old enough to understand the logic that motivates a mother, I'll tell them.

I loved you enough to bug you about where you were going, with whom, and what time you would get home.

I loved you enough to insist you buy a bike with your own money that we could afford and you couldn't.

I loved you enough to be silent and let you discover your handpicked friend was a creep.

I loved you enough to make you return a Milky Way with a bite out of it to a drugstore and confess, "I stole this."

I loved you enough to stand over you for two hours while you cleaned your bedroom, a job that would have taken me 15 minutes.

I loved you enough to say, "Yes, you can go to Disney World on Mother's Day."

I loved you enough to let you see anger, disappointment, disgust and tears in my eyes.

I loved you enough to not make excuses for your lack of respect or your bad manners.

I loved you enough to admit I was wrong and ask your forgiveness.

I loved you enough to ignore "what every other mother" did or said.

I loved you enough to let you stumble, fall, hurt, and fail.

I loved you enough to let you assume the responsibility for your own actions, at 6, 10 or 16.

I loved you enough to figure you would lie about the party being chaperoned, but forgive you for it . . . after discovering I was right.

I loved you enough to shove you off my lap, let go of your hand, be mute to your pleas, and insensitive to your demands . . . so that you had to stand alone.

I loved you enough to accept you for what you are, not what I wanted you to be.

But most of all, I loved you enough to say no when you hated me for it. That was the hardest part of all.

L.M. Boyd

Football most dangerous sport

Over the years it has been reported that parents here and there have given their little girls such names as "Malaria," "Alto" and "Cameo." All of these sets of lovely syllables are from the Italian. More recently, the record shows that a California couple conferred upon their newborn son another unusual moniker of Italina origin: "Zucchini."

Most common hip measurement among the New York City models is 33 inches. Most common height is 5-foot-8.

Our Love and War man now reports that more than 3,750 lonely hearts clubs operate nationwide today to the financial benefit of somebody or other.

SPORTS DEATHS

Q—"Which kills the more athletes, football or racecar driving?"

A—Football. Figure about 25 players die annually. From 15 to 20 car drivers get killed each year.

Not only do houseflies contain more protein than prime beef, but they have less fat. That's why a professor at Colorado State University suggests we eat flies as a part of our regular diet. And termites and grasshoppers, too. Not today, sir.

Seven out of every 10 people in this world never read newspapers, hear radios, watch televisions or talk on telephones. And who can blame them? Wait, too flip. It's a little like that let-them-eat-cake line. Still, there are moments when all these words seem less blessed than silent solitude, what?

TATTOOS

Rapidly rising during the last 12 months on that list of most popular tattoos is the Social Security number.

Mister, all you need is just one simple little fresh idea to put your business in the black. Take Noel Mitchell's notion. In 1908, his real estate operation in St. Petersburg, Fla., was a little slack. So he contracted a carpenter to build 50 large benches. He painted them orange and decorated them with advertisements for his firm, then set them out along St. Pete's main street. Other merchants did likewise. So many so, in fact, that the city fathers finally had to pass an ordinance, stipulating that all the public benches there be uniform in size, wide enough to seat five persons, and painted green. Never mind. Mitchell's business was booming by that time.

That dandy hymn "God Moves in a Mysterious Way His Wonders to Perform" was composed in 1799 by William Cowper of London. That's widely known. Less widely known is what caused him to write it. One evening he became so melancholy he decided to commit suicide. He hailed a taxicab and told the driver to take him to a Thames River bridge. But the fog was thick. After an hour of wandering aimlessly, the cab man said he gave up, he couldn't find the bloomin' bridge, and he didn't even know how to get his fare back home. Cowper stepped out only to realize he was right in front of his own room. That's when he went indoors to write "God Moves . . ."

Dr. Lamb

Beer belly needs trimming

By LAWRENCE E. LAMB, M.D.

DEAR DR. LAMB — In reference to your column on weight control I would like to know what is best to reduce the size of my stomach. I am 5 feet 9 and weigh 180 pounds. The extra weight is in my stomach.

I enjoy my beer, and because of beer or over eating at times my stomach bloats and I have to take a vegetable compound to keep my bowels regular.

I have a herniated disc and I am limited in work and activities. I do not prefer surgery and was sent to a rehabilitation center for physical therapy to strengthen my back muscles. I have attended for seven months and I feel fairly good most of the time but when gas in the stomach builds up it puts pressure on my back and I am just barely able to get around. Any advice would be appreciated.

DEAR READER — You won't like the advice. Stop the beer. The way to get rid of a beer belly is to get rid of the beer. You really can't be successful in reducing the waistline if you have a lot of fat in the abdomen and around the abdomen. You just can't compress fat into something smaller. That is why exercises, as valuable as they are, can do so little for a truly fat abdomen unless you reduce.

If you are successful in getting the excess fat out of and off your torso, then exercises that strengthen your abdominal muscles will help shrink your waistline. Some of these exercises to strengthen your abdomen will also give your back support. You should be able to get help with these from the physical therapy department where you are now receiving treatment.

People who have back problems should not begin exercise programs without the approval of the type of exercise by their physicial.

DEAR DR. LAMB — I would like to know how dangerous smoking a pipe is to your health. Recently I started smoking one. I know the hazards of cigarette smoking but not that of a pipe. I do not inhale very much.

DEAR READER — Studies in the United States have not linked pipe smoking to heart disease or some other ills of tobacco. But Sweden's famed Karolinska Institute in Stockholm studied the problem and found a higher rate of heart attacks in pipe smokers than in non-smokers.

The differences in observations in the United States and Sweden are probably related to the difficulty in finding a population of pipe smokers to study over a period of time in the United States.

Studies in the United States though show that if a cigarette smoker quits and changes to cigars he may continue to inhale. Inhaling a cigar and probably a pipe is more dangerous than cigarette smoking. The usual virgin pipe or cigar smoker doesn't inhale and this provides his protection. If you smoke anything and want to avoid most of the health hazards involved, don't inhale at all.

About this-that

Honey is one of the earth's purest foods, since disease-causing bacteria cannot exist in it.

One of the busiest canals in Europe is Sweden's Gota, which stretches 115 miles from near Stockholm on the Baltic Sea to Gothenburg on the straits linking the Baltic and Atlantic.

Diamonds will burn when heated to a temperature of 800 degrees C. (1472 degree F.).

The National Academy of Sciences estimates that 15,000 Americans die each year as a result of air pollution.

Sauce, from the Latin "salsus," originally meant "salted food" and was something the Romans put on meat to add a relish. It was served on a saucer — a shallow dish for holding sauce.

What people say

"It is my belief, and clearly that of the majority of the people, that in only one way can the state's authority and, paradoxically, respect for the sacredness of human life, be restored — and this is by the penalty of death."

— British MP Hug Fraser, whose car was bombed by suspected IRA terrorists.

"Mr. Reagan's record is known in one state, California, and in that state we have the support of every major Republican official. Why? Because his record is poor."

— Howard (Bo) Callaway, President Ford's campaign chairman, at a southern Republican conference in Houston.

Astrographs

BERNICE BEDE OSOL
Wednesday, Jan. 7, 1976

ARIES (March 21-April 19) Your resolve will pay dividends today. Stick to what you set out to do, even if the road to attainment is a little bumpy.

TAURUS (April 20-May 20) You work best alone and in a quiet environment today. Sneak off somewhere private and peaceful.

GEMINI (May 21-June 20) Converse with a friend today whose thinking parallels your own. Something of mutual value will be gained.

CANCER (June 21-July 22) Draw upon your tenacity and resourcefulness today if you meet with any problems careerwise. You're up to the challenge.

LEO (July 23-Aug.22) You can handle things in a manner today that others will find impressive. Be both firm and fair. Explain reasons for your decisions.

VIRGO (Aug. 23-Sept.22) If an obligation is owed you and it is long overdue, a tactful reminder to the one involved might get the matter off dead center.

LIBRA (Sept. 23-Oct. 23) Re-study the details of an issue you've been concerned about. Answers can be found.

SCORPIO (Oct. 24-Nov.22) This is a good day for you to embark on an ambitious undertaking. Have definite aims. Work diligently.

SAGITTARIUS (Nov. 23-Dec. 21) You can make points with those in your charge today if you let them know you have their best interests at heart.

CAPRICORN (Dec. 22-Jan. 19) Don't settle for second best today in your endeavors, or things you do in association with another. Play to win.

AQUARIUS (Jan. 20-Feb. 19) Once you make a decision today and you feel your position is justified, have the courage of your convictions.

PISCES (Feb. 20-March 20) Don't be bashful about grinding a bit in commercial dealings today. You won't know if you can get a better price unless you try.

Your Birthday, Jan. 7, 1976

This coming year you should be able to make some advantageous changes in your lifestyle that you're planning. Make moves only after you're fully certain.

Pass			

Opening lead — Q ♥

The standard notrump opening with 16 to 18 high-card points and 4-3-3-3, 4-4-3-2 or 5-3-3-2 distribution has been practically unchanged since first suggested by Oswald Jacoby in 1933.

The Stayman convention, as invented by Sam Stayman and George Rapee around 1942 or 1943, uses the two club response to an opening notrump as an artificial forcing bid. The opener rebids two spades with four or more spades, two hearts, with four or more hearts and two diamonds without any four-card major. The convention has achieved almost universal acceptance.

If not using Stayman, North would simply raise one notrump to three with his 11 high-card points and balanced hand. Stayman enables him to check to see if his partner has four spades in which case he expects a spade contract to be preferable.

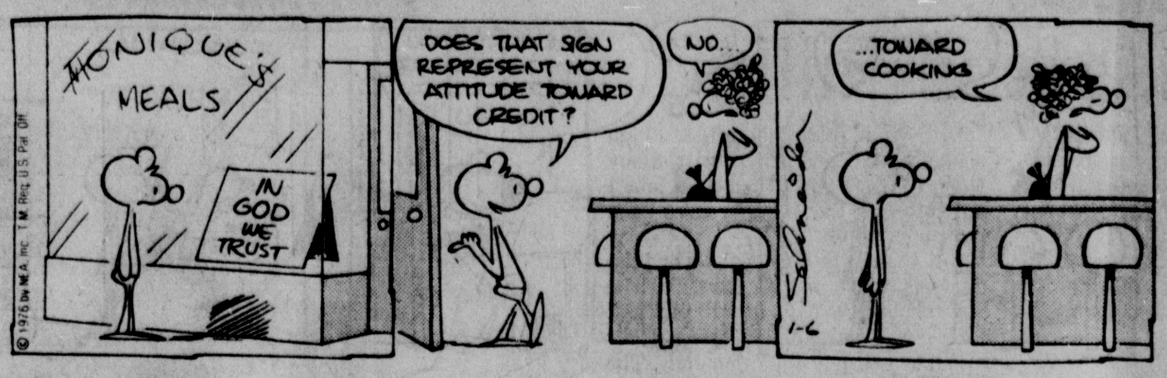

He bids two clubs. Sure enough, South does bid two spades and North takes him to the only makeable game contract.

Ask the Jacobys

A New Mexico reader wants to know what you respond to a Stayman two clubs when you hold four cards in each major suit.

There is no general rule here. Some bid the spades; others hearts. The Jacobys bid the better one of the two.

Glue is a sticky substance that holds things together. There are differnt kinds of adhesive materials we often call glue.

Many adhesives are made of plastic. Gums and resins are made from plants, while the milky white casein glue is made from milk, and so on.

True glue is made from the skins and bones of animals. To make true glue, the gluemaker usually obtains scraps of skin and bones from such places as slaughterhouses and meat packers.

At the glue factory, he puts the skins and bones into big pots to cook. As the skins and bones boil, the ooze out a liquid, known as glue.

The gluemaker drains off the glue and boils it again until the glue becomes thicker. Finally it is poured through a filter to strain out any lumps and dirt.

To mend a broken object, we smear the glue on the broken ends. When the glue dries and hardens, the strong adhesive qualities of the glue firmly anchor the broken pieces together.

World Almanac globe or other fine prize will be awarded to the first youngster sending in a question used here. Send your question and your age to Johnny Wonder, (c/o this newspaper), Box 1335 (DA), Santa Cruz, CA 95061.

Olsen undecided on retirement

LOS ANGELES (AP) — Merlin Olsen, a 14-year veteran of the Los Angeles Rams, said before the start of the 1975 season he had decided not to retire for one reason: "One more shot" at the Super Bowl.

The Dallas Cowboys, playing what Olsen termed "maybe" as good a game as any team can," ended that shot with a 37-7 victory over the Rams Sunday in the National Football Conference championship game.

Monday, Olsen said he faced one of the toughest decisions in his life, and he did not plan to rush it.

"I don't know whether I'll retire or not," the 6-foot-5, 270-pound defensive tackle said. "I want time to get the season out of my system before I make up my mind. It's not going to be easy, and I want to sit down with my family and think about it."

Olsen, who holds a master's degree in economics, has a number of business interests and also does radio and television commercials. He said he would like more time to devote to pursuits outside football.

"I'd like to do some more work in broadcasting and maybe some acting," he said. "I'd like to find out if I'm proficient enough at that to make a living."

But he said quitting football would be extremely difficult for him, and that playing for the Rams would make it even more so. "For one thing, being on this team is really enjoyable. They're a fine group of people."

Looking back on the loss to Dallas, the 35-year-old Ram co-captain said, "I think it would be a shame to let one game destroy all the good things we did during the year.

"There's no question that losing was frustrating. You don't pour that amount of energy and hard work into something without really wanting it. But we overcame a lot of problems this season (injuries among them), and I think we really can't complain."

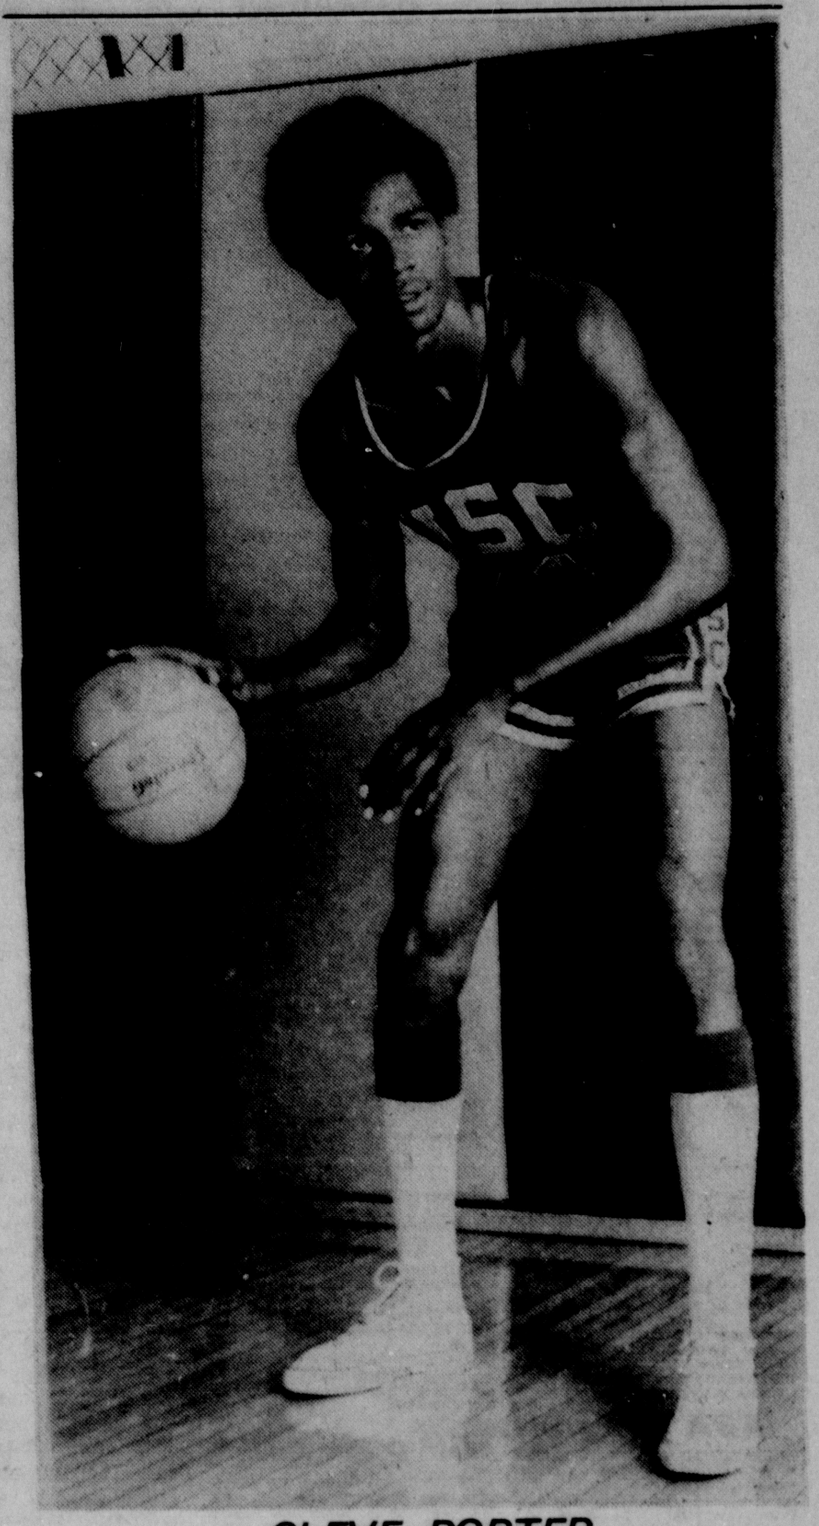

Olsen, the last remaining member of the Rams' famed "Fearsome Foursome" front line, said it seemed a pity to have a good season essentially go down the drain in a three-hour period. "But that's what makes football interesting," he said.

Olsen has been a member of some quite successful Ram teams since he was drafted by Los Angeles in 1962. The George Allen-coached Rams lost just one game in 1967 before falling 28-7 to Green Bay in the playoffs. Allen's 1969 Ram team again won its division but lost to Minnesota 23-20 in the playoffs.

The Chuck Knox-coached Rams have won their division the past three seasons, but lost in the playoffs to Dallas 27-16 in 1973, to Minnesota 14-10 in 1974, and again to the Cowboys.

Olsen, however, discounts any talk of a choke. "It just happens like that when good teams play," he said. "It's like flipping a coin. One team beats the other, then the next time around it loses. And sometimes a coin comes up heads six or seven times in a row."

And Olsen can't say yet whether the lure of the "coin toss" and another shot at the Super Bowl will draw him back this fall.

CLEVE PORTER

Porter is big in USC plans

By BILL LANGLEY
PB Sports Editor

LOS ANGELES — Pomonan Cleve Porter figures big in USC's basketball plans as the Trojans get ready to open Pacific-8 Conference action.

Coach Bob Boyd discussed the sophomore from Ganesha High after Monday's basketball luncheon.

"I'm very encouraged about Porter," Boyd said about the 6-foot-5 reserve forward. "He has a good outlook and it is a real pleasure to have him on the squad."

Porter wasn't with the Trojans last Saturday night in the wild 88-87 overtime win over Nevada Reno because of the flu but he is expected to be ready for the Pac-8 games Thursday night at Oregon State and Saturday night at Oregon.

"Cleve was running a temperature when the team met to go to Reno so we told him to go home," Boyd said. "We could have used him in that game. He was able to practice Sunday and should be ready Thursday."

Porter did well in helping the Trojans win the Rainbow Classic in Hawaii by scoring 21 points in the three games. In his best showing, he scored 12 points — 10 in the second half — to lead USC to its comeback victory over host Hawaii, 68-63. Cleve made four of eight shots and grabbed eight rebounds in 29 minutes of action.

"He was the sole reason why we beat Hawaii," Boyd said.

For the season, Porter is averaging 6.6 points and is shooting at a 53.8 per cent clip from the floor.

Senior forward Bob Trowbridge was selected the University of the Week for scoring 51 points in USC's four games. Junior guard Kraig King earned the College honors for scoring 47 points in helping Occidental win three games.

USC's team is 11-1 for the season but Boyd feels it's too early to say the Trojans belong with the nation's best.

"Even with an 11-1 record, it's premature to consider ourselves among the elite," Boyd said. "If we could win our next five games, I would be convinced we do."

Following the two games in Oregon, USC returns home to host California and Stanford then visits Arizona State in a non-league contest.

"These five games are the most critical of the season for us," Boyd said.

"What we have to be concerned about is continuing to improve," the USC mentor added. "I believe we will improve. We can play better but not luckier."

In looking at the Pac-8 race, Boyd said, "It's very difficult to go through this conference undefeated. If I had to guess, I would say the winner of the conference will lose three games."

In looking at Oregon State and Oregon, Boyd added, "Both teams seem to be peaking just right for conference play and I hope we are, too."

Garey, Damien top SAL cage openers

by MIKE BROSSART
PB Staff Writer

By a quirk of scheduling, the 1975 San Antonio League basketball title could go a long way toward being decided tonight when the first four league encounters take place.

Garey High will visit Damien at 7 p.m. in a game between the two teams most likely to capture the SAL crown this year. Since the Vikings and the Spartans will meet just one more time (Jan. 30 at Garey), tonight's leadoff clash figures to give the winner the driver's seat for at least the first half of league action.

Other SAL encounters tonight will send Ganesha to Montclair, Pomona to Claremont and Chino to Upland. All games will begin at 7 p.m., a new starting time for the SAL's Tuesday varsity games, which began at 4:45 p.m. last year. Friday games will begin at 8 p.m. as they have in the past.

The Hacienda League has also changed its starting time for midweek contest. Wednesday's varsity games will get under way at 4:45 p.m. rather than 3:15 as they did last year.

This Wednesday, the H.L. schedule will be highlighted by a struggle between Bonita and defending champion Walnut at the Mustang gym. The Bearcats and the Mustangs are the two valley teams most likely to derail Alta Loma on its way to the 1976 H.L. championship.

Other matchups for Wednesday afternoon will be Alta Loma at San Dimas, Ontario at Sierra Vista and Royal Oak at Gladstone.

Two other valley teams will spring into league action tonight. Chaffey will open its Citrus Belt League season with a 7:30 p.m. game at Redlands, while La Verne Lutheran will host Notre Dame at 8 in the Arrowhead League kickoff for both teams.

But in spite of the big lineup of league openers scheduled for tonight and Wednesday, the Garey-Damien affair is bound to generate by far the most interest.

Garey, the defending champion not only of the SAL but also of the CIF 3A division with a 30-1 overall record last year, struggled through a rather mediocre pre-league performance this year and takes a 7-5 record into tonight's game.

The Vikings, obviously not the untouchables they were last year, appear to be fair game this year, and the team that looks likeliest to overturn the champs is Damien.

The Spartans finished a 6-5 pre-league campaign with an impressive 71-65 victory over Bishop Amat Friday as forward Jon Kolodge returned to the lineup after missing two games with a sprained ankle and scored 17 points. Kolodge, Damien's top rebounder, yields to forward Mike Wetenkamp for top team scoring honors.

Wetenkamp, with an average of 22.4 points per game, joins Garey's Kent Jordan and Gary Carpenter to give tonight's big game three of the valley's top seven prep scorers. Wetenkamp is third, Jordan (21.4 per game) is fifth and Carpenter (19.5) is seventh.

Jordan and Carpenter are veterans of last year's championship team and, along with junior center James Lofton, provide most of the Vikes' scoring.

Gary Fulkerson's Ganesha squad will try to improve its consistency tonight at Montclair (2-7). The Giants, led by senior guard George Terry (22 points per game), have registered some lopsided wins and some disappointing losses on the way to a 7-5 non-league record.

Claremont's Wolfpack will likewise try to get on the winning track against Pomona tonight. The Pack appears to have lots of talent but has managed only a 4-6 mark so far. The Red Devils stand at 2-7.

Chino (4-6), runnerup in its own Christmas tournament last week, will face an Upland squad that has managed just one victory in nine games.

Wednesday's Hacienda League schedule will send Alta Loma, the league's most successful team thus far at 11-1, against San Dimas (0-8), the loop's only squad without a win this season.

The Braves sport an incredibly balanced squad, with all five starters averaging between 8.3 and 10.4 points per game. Senior forward Anthony Vasquez is the top scorer on a Braves team whose only loss was to Garey in the finals of the Upland-Montclair tournament.

Bonita will take a 7-4 record into its opener with Walnut. Walnut, after going through league play undefeated the last two years, seems unlikely to repeate that feat after a 4-8 pre-league performance.

Center Steve Sly leads Bonita with an average of 22.6 points per game while Kelly Bowlin and Eric Spindler (both 12.9) top Walnut scorers.

Ontario's Mickey Donaldson (15.6 points per game) will lead his Jaguars against Sierra Vista (3-5) Wednesday.

Chaffey's Mark McQuaid (22.8 points per game) and John Mattke (17.3) will probably pace the Tiger's effort against Redlands tonight, while La Verne Lutheran guard Gregg Guenther (20.1) will lead his squad when the trojans face Notre Dame.

Mike Brossart

Progress Bulletin Staff Writer

It's time to look ahead

I find myself taking over as prep sports editor at a dangerous but enjoyable time — the point at which basketball predictions are traditionally presented.

Predicting is a dangerous sport. It's easy to look the fool when you're way off base in print, and those who have been slighted are quick to let you know it.

But anyone involved knows that trying to figure out what's going to happen before it does is half the fun of sports.

And since San Antonio League play begins tonight and the Hacienda League follows suit Wednesday afternoon, it's time to throw caution to the wind and present my own view of how the local teams shape up.

So here goes.

Garey is going to win its fourth SAL championship in five years, but it will not be nearly so easy for the Vikings as it was last year, when they won all 14 league tilts and went on to win the CIF 3A championship with a 30-1 record.

The Vikes have two of the most talented basketball players in the area in forward Gary Carpenter and Kent Jordan, and that pair gives them the edge in the title chase. But Garey (7-5) has struggled through 12 non-league games. In fact, the Vikes were 5-1 after they won the Upland-Montclair tournament and since then have won two games and lost four.

Damien's Spartans will finish in the runnerup spot, just one game back of Garey. The team from La Verne has a fine duo of forwards that should see it through. Mike Wetenkamp is an excellent outside shooter and Jon Kolodge is an inside threat.

Ganesha will finish third and Claremont will be fourth. Both teams have a great deal of talent which has not yet come to the surface and either has a shot at the title if the players gel to form a team.

Chino also has plenty of talent, and is already accomplished at effective team play, but a lack of height will give the Cowboys a fifth place finish.

Montclair, Pomona and Upland are definite also-rans, and will finish in that order.

Braves look tough

It's quite a bit easier to pick a winner in the Hacienda League, but this year it won't be Walnut. The Alta Loma Braves have to be the odds-on favorite.

The Braves have won 11 of 12 games — losing only to Garey — with the most balanced squad imaginable. All five Alta Loma starters play a big (almost equal) part in every win, and the results have been gratifying for coach Jeff McCall.

Bonita will finish second to the Braves, with Walnut right behind. The Bearcats (7-4) are led by center Steve Sly and forward Aaron Bitran, and should be successful against everyone except Alta Loma and possibly Walnut.

It's impossible to count out the Mustangs after coach Bill Murray has led them to two straight undefeated H.L. seasons. They've had their troubles thus far, and are 4-8 in non-league action, but figure to bounce back when it counts.

Gladstone (6-5) will finish fourth, followed by Ontario, Sierra Vista, Royal Oak and San Dimas in that order.

No special talent

Lest I be accused of brilliance or some special insight in my rankings of the SAL and H.L. teams, I should admit that my predicted finishes exactly match the non-league records of the squads with two exceptions.

I have put Damien (6-5) ahead of Ganesha (7-5) in the SAL and moved Walnut (4-8) past Gladstone (6-5), Ontario (5-6) and Sierra Vista (3-5).

Here, then, are the predictions in capsule form, with non-league records:

San Antonio League

1. Garey (7-5); 2. Damien (6-5); 3. Ganesha (7-5); 4. Claremont (4-6); 5. Chino (4-6); 6. Montclair (2-7); 7. Pomona (2-7); 8. Upland (1-8).

Hacienda League

1. Alta Loma (11-1); 2. Bonita (7-4); 3. Walnut (4-8); 4. Gladstone (6-5); 5. Ontario (5-6); 6. Sierra Vista (3-5); 7. Royal Oak (3-7); 8. San Dimas (0-8).

In other loops, Chaffey (4-4) will finish second to San Gorgonio in the Citrus Belt League, Ontario Christian (7-3) will be runnerup to Whittier Christian in the Olympic League and La Verne Lutheran (7-3) and Webb (4-4) will finish second and fifth, respectively in the Arrowhead League.

Well, that's it. You needn't bother to tell me how wrong I was when it's all over.

MSAC Relays group to meet

It's "One Step to the Olympics" as the 1976 Mt. San Antonio Relays Committee gathers Thursday evening for its annual kickoff dinner.

That's the theme set by 1976 Relays chairman Earl Conn of Walnut for the 18th edition of the West Coast's largest track and field meet. Not only will the '76 Relays be a stepping stone to this year's Olympic Games in Montreal but it has also been designated an official Bicentennial event.

Relays assistant director Don Ruh is hosting Thursday's "Spaghetti Feed" at his Walnut home. An invitation is extended to past and present Relays Committee as well as newcomers to attend the 7 p.m. gathering. "We need new members to help this year's Relays be one of the most successful ever", adds Conn.

Throughout its 18 year history, the Relays have been the result of months of dedicated work by individuals from all areas of the valley.

Thursday's meeting will be at 20728 Loyalton Drive, Walnut. Those attending are urged to RSVP to the Relays Office at (714) 598-2811.

Atlanta man buys Braves

ATLANTA (AP) — The Atlanta Braves' National League baseball club has been sold to Ted Turner, an Atlanta advertising and television executive, it was announced today.

Purchase price was not disclosed but it reportedly was in the $10 million range.

The club had been owned by the Atlanta-LaSalle Corp., with most principals involved in the baseball operation residing in Chicago. The sale to Turner means 'home ownership" for the club, a situation which many have said is necessary for successful operation.

Tarkenton tops NFL All-Pro team

NEW YORK (AP) — Record-shattering quarterback Fran Tarkenton of the Minnesota Vikings heads the National Football League All-Pro team selected by The Associated Press and announced today.

Joining Tarkenton in the All-Pro backfield are runners Chuck Foreman of Minnesota and O.J. Simpson of Buffalo. Speedy Cliff Branch of Oakland and Mel Gray of St. Louis are the wide receivers with Denver's Riley Odoms chosen at tight end.

Up front, the nationwide panel of sports writers and broadcasters chose Ron Yary of Minnesota and George Kunz of Baltimore at the tackles, Joe DeLamielleure of Buffalo and Larry Little of Miami at the guards and Jim Langer of Miami at center. Jim Bakken of St. Louis was picked as the team's placekicker.

On defense, the 78 AP voters selected Jack Youngblood of Los Angeles and Pittsburgh's L.C. Greenwood at ends with Alan Page of Minnesota and Houston's Curley Culp at tackles. Pittsburgh's Jack Ham and Washington's Chris Hanburger are the outside linebackers, flanking Philadelphia's Bill Bergey.

Mel Blount of Pittsburgh and Roger Wehrli of St. Louis are the cornerbacks with Minnesota's Paul Krause at free safety and Ken Houston of Washington at strong safety.

Tarkenton enjoyed a brilliant season, directing the Vikings to their seventh NFC Central division title in the last eight years. The veteran quarterback shattered three of Johnny Unitas' career passing records, setting new marks for attempts (5,225), completions (2,931) and touchdowns (291). The Minnesota quarterback led all NFC passers, completing 64.2 per cent of his attempts and hurling 25 touchdown passes.

His favorite target was Foreman, who led the NFL with 73 catches, the most ever for a running back. Foreman also led the conference with 22 touchdowns and rushed for a club record 1,070 yards.

Simpson rushed for a league-leading 1,817 yards and set a single season record with 23 touchdowns, one more than Gale Sayers had for the Chicago Bears in 1965.

Branch caught 51 passes for 893 yards and nine touchdowns for the AFC West champion Raiders. Gray grabbed 48 for 926 yards and 11 TDs for the Cardinals, champions of the NFC East. Odoms had 40 catches for 540 yards for Denver.

Bakken connected on 19 of 24 attempted field goals and scored 97 points.

On defense, Blount and Krause led their respective conferences in interceptions. Blount picked off 11 passes, returning them for 121 yards. Krause had 10 interceptions and 201 yards in returns.

Krause and Page anchored a Minnesota defense that led the league. Pittsburgh was second in the AFC on a defense constructed largely around Ham and Greenwood, whose play helped overcome the loss of Joe Greene, out for five games because of a pinched nerve in his neck.

Ontario Christian at Valley Christian, 3 p.m.

Friday's games
(High schools)
Upland at Pomona, 2:30 p.m.
Chino at Ganesha, 2:30 p.m.
Damien at Claremont, 2:30 p.m.
Montclair at Garey, 3:15 p.m.

Marin's shot is on target

CHICAGO (AP) — "I don't know how much time I had but I didn't make a desperation shot," contends Jack Marin of the Chicago Bulls. "I was fading away from the basket but I had good control of the ball."

And his shot was right on target as Marin sank a 10-foot jumper as the final buzzer sounded to give the Bulls a 98-97 victory over the Houston Rockets in the only game played Monday night in the National Basketball Association.

Moaned Houston Coach John Egan, "Our defense definitely collapsed in the second quarter. That was when I had put in my reserves and, to put it in a nutshell, they let me down.

"It is an axiom in the NBA that a fellow on the bench has to be ready to play. And when he's not, the starters have to suffer," he said. "It should not have happened, but it did."

The Rockets, though, maintained a seven-point lead early in the fourth quarter with nine minutes left in the game.

"I have to admit that we did not start the game with any amount of enthusiasm," said Bulls' Coach Dick Motta. "Psychologically we were dull.

"This was a very strange game because we outshot Houston 92-59," he said. "We had 13 less turnovers and 12 more offensive rebounds yet we only won by a point."

And to do it, the Bulls had to put on a fourth quarter surge led by Marin and Cliff Pondexter, who netted 10 and seven points respectively in the final stanza.

Mike Newlin and Calvin Murphy topped Houston with 23 points each while Mickey Johnson paced Chicago with 27.

It was only the Bulls' ninth victory of the season, their sixth home triumph against 10 losses.

Mounties head for Las Vegas

LAS VEGAS — The Mt. San Antonio College basketball team will resume cage action here tonight after a week's layoff.

The Mounties will square off against the University of Nevada-Las Vegas junior varsity at 6 p.m. tonight in a preliminary game to the UNLV varsity tilt with Cal State Northridge.

The game figures to be a tough one for the Mounties, who will carry a 11-3 record into the contest. The Rebel J.V.s compiled a 17-6 record last year and are tough to beat at home.

The UNLV J.V. team is coached by Lynn Archibald, a former hoop assistant at Cal Poly, San Luis Obispo.

Following tonight's outing in Las Vegas, the Mounties will return home and open South Coast Conference play Saturday at Grossmont.

College basketball roundup

Is end near for Indiana?

By Associated Press

Is the end in sight for unbeaten, top-ranked Indiana?

The Hoosiers went all the way to the finals of the NCAA Mideast Regionals before losing last season but at least one knowledgable observer, Northwestern Coach Tex Winter, thinks they may have problems before long...like this weekend.

"Indiana's going to have a lot of trouble against a quick opponent like Michigan, especially in front of their crowd in Ann Arbor," Winter said Monday night.

Indiana visits Michigan on Saturday. Monday night, though, the Hoosiers had only 12 minutes of trouble from Winter's Wildcats. Then they broke away from a 20-17 squeaker, built their lead to 40-27 at the intermission, outscored Northwestern 14-2 in the first six minutes of the second half and coasted to their 11th consecutive triumph 78-61.

Meanwhile, 19th-ranked Michigan tuned up for the Hoosiers' impending visit by trouncing No. 17 Minnesota 95-72. The only other members of The Associated Press Top Twenty to see action were sixth-ranked North Carolina and No. 10 Alabama. UNC flattened Yale 81-42 while 'Bama whipped Kentucky 76-63.

Tom Abernethy paced Indiana's surge late in the first half and finished with 16 points, six behind teammate Kent Benson. Meanwhile, the Hoosiers' tenacious defense held Northwestern's 21.5-point scorer Billy McKinney to 14, only one of them in the second half.

Indiana Coach Bobby Knight, whose team has struggled against Kentucky, Notre Dame, St. John's and Ohio State, gave the Hoosiers a mild shake-up, benching Bob Wilkerson in favor of Wayne Radford.

"The reason I didn't start Wilkerson was because he played very poorly at Ohio State," Knight explained. "It's important we play people who are playing the best. When Wilkerson entered the game, he and Radford gave us good defensive pressure. I think we played as well as we have at guard play."

Junior college transfer Rickey Green paced Michigan's triumph over Minnesota with 32 points, spoiling the return to Ann Arbor of Minnesota Coach Jim Dutcher, a former Michigan assistant. It was Minnesota's 11th consecutive setback at Ann Arbor dating back to 1963.

While the speedy Green was burning the Gophers by taking numerous outlet passes and zipping past defenders for lay-ups, freshman Phil Hubbard added 20 points. Except for one 12-foot jump shot and two free throws, all Green's points came on layins. Mike Thompson had 26 points and Ray Williams 21 for the losers.

North Carolina, smarting over a drop from third to sixth in the ratings, reeled off 18 consecutive points for a 43-15 bulge while holding Yale scoreless for almost 7½ minutes late in the first half. The Elis then managed only one field goal in the first nine minutes of the second half and fell behind 65-24.

With the Tar Heels' Atlantic Coast Conference opener coming up Wednesday at Clemson, Coach Dean Smith was hard-pressed to find some kind words for the Elis. "It was," he decided, "better than practice."

Led by the sparkling defensive play of Leon Douglas and Anthony Murray, Alabama held Kentucky to 16 points in the second half after a 47-47 standoff at the intermission. Douglas blocked four shots and stole the ball once while Murray had two blocks, a steal and came up with numerous loose balls.

With Kentucky ahead 51-50, Alabama ran off 10 points in a row to seal the verdict. Douglas topped the Crimson Tide with 22 points while Kentucky's Jack Givens had 23.

"The key was defensive switches we made in the second half," said 'Bama Coach C.M. Newton. "We played a sound game defensively and also made some second-half offensive changes."

Elsewhere, Michigan State's Terry Furlow set a school record with 50 points as the Spartans trounced Iowa 105-88 despite 30 points by the losers' Scott Thompson; Dale Koehler's 26 points and Tim Paterick's overtime heroics sparked Wisconsin from a 47-25 deficit to an 82-81 decision over Ohio State; Johnny Davis, with 27 points, was one of six players in double figures as Dayton downed Jacksonville 92-83.

Auburn shaded Mississippi 72-66 with Eddie Johnson scoring 16 points and feeding Gary Redding for 17; Louisiana State got four points in the final three seconds on free throws by Bob Miller and Kenny Higgs to edge Florida 85-79; reserve Mike Moore's two clutch free throws helped Vanderbilt defeat Mississippi State 71-66 in overtime; Wally Walker and Steve Castellan split 30 points to lead Virginia over Davidson 72-51.

Montreal finally beaten at home

MONTREAL (AP) — The team which gave the Montreal Canadiens fits all during the 1974-75 National Hockey League season became the first club to defeat Montreal on its home ice this season.

Behind the three-goal effort of left wing Rick Martin, the Buffalo Sabres, fresh from a 12-6 victory over the Soviet Wings Sunday, skated to a 4-2 triumph over the Canadiens Monday night.

There were no other NHL games scheduled.

"It's the first game they've lost here all year," said Sabres' Coach Floyd Smith. "It had to be us, it had to be us."

The Sabres, who have won two of three meetings this season with Montreal, had four successes and a tie against the Canadiens in regular-season play last year and then eliminated Montreal in a six-game Stanley Cup semifinal series.

In an earlier appearance at the Forum, the Sabres dropped a 3-2 decision but beat Montreal 5-1 Nov. 9 in Buffalo to even the season series.

"We gave them one here the last time we were in," said Smith. "We played a lot better this time. We checked well against them."

Smith said the Sabres knew they had to come up with a big effort against Montreal. "We knew we had a big game tonight and we had to go and get going," Smith said.

The Sabres came out of the game without any injuries except a sore ankle suffered by Smith, who slipped on a patch of ice while walking to the Forum.

"I was trying to beat a red light and I slipped and took a header," Smith said.

The Sabres were greeted with a standing ovation by most of the 18,053 fans for their victory against the Russians Sunday.

"I had figured they would do it," said Smith. "They're great hockey fans. It didn't hurt us."

"The public here showed a lot of class," said Martin. "I would personally like to thank them for it. The game yesterday...the series...has been billed as sort of a Canada-Russia series. We were playing for Canada, for the NHL.

"We worked hard, we worked as a unit tonight. The offense and the defense worked well together.

Tennis crown to Casals, Stockton

DALLAS (AP) — The way Dick Stockton and Rosie Casals gamble, they should take their $25,000 World Mixed Double tennis championship winnings to Las Vegas.

Playing agressive, wide-open tennis, the Casals-Stockton team routed Britain's Mark Cox and Virginia Wade 6-3, 6-4, 6-4 in the best-of-five set final Monday night which took just 95 minutes.

"Dick takes lots of chances and is very agressive," said Ms. Casals. "It pays off more times than it should. After a while I get caught up playing the same way. Dick just intimidates the opposition."

The Casals-Stockton combination didn't lose a set in the four-day tournament.

They broke Cox's serve four times in the championship match and coasted to a lopside victory before 5,171 fans in Moody Coliseum. The Britons collected $15,000 consolation money.

Cox said, "Dick is just like an octopus around the net—he is so tremendously confident."

Miss Wade also said it was difficult to overcome the agressive play of their opponents. "Dick always seems to go where you hit the ball," she said.

Andy Pattison and Francoise Durr captured $8,000 third place money with a 6-2, 7-6 victory over Owen Davidson and Betty Stove, who shared $6,000.

Stockton and Miss Stove claimed the championship in 1975, beating the team of Marty Riessen and Ms. Casals in the finals.

"Marty and I just kind of decided to get a separation for this year," joked Ms. Casals. "It's not a divorce or anything."

Ms. Casals has been in the final all three years of the tournament sponsored by Spalding.

CIF 2-A selections

Walnut, Bonita players honored

Three Walnut and two Bonita players have been selected to the 2-A all-CIF football team.

Winning second team honors for Walnut were offensive tackle Steve Walsh, offensive guard Dan Reed and linebacker Kevin Veselic. Selected from Bonita to the second team were offensive guard Phil Mertz and center Mark Malone.

No local players made the first team, Royal Oak's Greg Grzechowiak being the lone Hacienda Leaguer on the first unit.

Of the five locals making the team, only Malone is a junior. Reed, Walsh, Veselic and Mertz are seniors.

Winning co-Player of the Year honors in the 2-A Division were running back Darren Rogers of Agoura and offensive end/defensive halfback Tim Hanifin of Sonora.

Rogers, only a junior, rushed for over 1,800 yards this past season and scored 25 touchdowns. Hanifin led Sonora to the 2-A title with his efforts on offense and defense.

2-A runnerup El Dorado placed the most men on the squad with five, while Walnut was one of four schools to have three representatives on the first and second teams.

Two players, Dan Brown of Norco and Phil Larson of Cajon, repeated as first team defensive selections. Rogers was the only junior picked to the first team, while Malone was one of three juniors on the second team.

ALL-CIF
2-A Division
FIRST TEAM OFFENSE

Backs — Darren Rogers, Agoura (5-9, 185, Jr.); Jim Haynie, El Dorado (5-10, 170, Sr.); Rich Nyden, Azusa (6-5, 190, Sr.); Andy Mussack, Agoura (6-3, 190, Sr.); Norris Jones, Kennedy (Barstow) (5-10, 180, Sr.).

Wide Receivers — Donn Thompson, Gahr (6-0, 175, Sr.); Ken Dressel, El Dorado (6-0, 185, Sr.).

Tight End — Steve Pittman, Norte Vista (6-1, 165, Sr.).

Tackles — Jim Jaramillo, Neff (6-5, 220, Sr.); Mark Merwin, Mission Viejo (6-1, 192, Sr.).

Guards — Brian Stack, El Dorado (6-2, 235, Sr.); Mike Sanz, Leuzinger (5-11, 192, Sr.).

Center — Mike Tanner, Dana Hills (6-0, 190, Sr.).

Kicker — Todd Peterson, El Dorado (5-11, 170, Sr.).

FIRST TEAM DEFENSE

Backs — Tim Hanifin, Sonora (6-2, 175, Sr.); D.J. Wallace, Antelope Valley (6-3, 180, Sr.); Tracy Cavender, Norte Vista (5-10, 170, Sr.); Ron Jellison, El Segundo (6-1, 165, Sr.).

Linebackers — Kimo Igarta, Lawndale (6-1, 185, Sr.); Tom Arons, San Clemente (6-2, 200, Sr.); Dan Brown, Norco (6-0, 190 Sr.); John Meyer, Sonora (5-9, 170, Sr.).

Linemen — Phil Larson, Cajon (6-4, 225, Sr.); Mark Franklin, Agoura (5-10, 188, Sr.); Clayton Jordon, Kennedy (Barstow) (5-10, 180, Sr.); Greg Grzechowiak, Royal Oak (6-3, 235, Sr.).

SECOND TEAM OFFENSE

Backs — Levell Quiller, Leuzinger (6-1, 187, Sr.); Brian Wood, San Clemente (6-0, 188, Sr.); Mark Kenlon, Sonora (5-11, 180, Sr.); Bill Silvey, Neff (6-0, 185, Sr.); Bill Hilliker, Antelope Valley (5-10, 168, Jr.).

Wide Receivers — Eric Schmidt, Mission Viejo (6-2, 182, Sr.); Jeff Keller, Baldwin Park (5-11, 160, Jr.).

Tight End — Dupree Branch, Barstow (5-11, 190, Sr.).

Tackles — Jeff Winsell, El Dorado (6-3, 230, Sr.); STEVE WALSH, WALNUT (5-10, 205, Sr.).

Guards — DAN REED, WALNUT (5-11, 198, Sr.); PHIL MERTZ, BONITA (6-2, 210, Sr.).

Center — MARK MALONE, BONITA (6-0, 190, Jr.).

SECOND TEAM DEFENSE

Backs — Jim Griffin, Coachella Valley (5-10, 165, Sr.); Vince Esparaza, Lawndale (6-0, 175, Sr.); Rick Ferm, Harvard (5-8, 145, Sr.); Seam Graham, University (5-10, 165, Sr.).

Linebackers — Jorge Herrera, Channel Islands (6-0, 195, Sr.); Dirk McJunkin, Burroughs (Ridgecrest) (5-11, 190, Sr.); Tony Espinosa, Azusa (6-0, 175, Sr.); KEVIN VESELIC, WALNUT (5-10, 167, Sr.).

Linemen — Fred Hogan, Brea-Olinda (6-1, 190, Sr.); Randy Hays, Rio Mesa (6-5, 230, Sr.); Ron Wade, San Clemente (6-4, 187, Sr.); Wayne Stockton, Hemet (6-0, 180, Sr.).

CO-PLAYERS OF THE YEAR — Darren Rogers, Agoura and Tim Hanifin, Sonora.

Quotes

"We got outcoached and just got beat." — Ohio State Coach Woody Hayes after his Buckeyes lost to UCLA 23-10 in the Rose Bowl.

Photo by Associated Press

ROSE BOWL INJURY — Two-time Heisman Trophy winner Archie Griffin of Ohio State relaxes at his parent's home in Columbus. He suffered a fractured bone in Rose Bowl loss.

Huskies, Bruins top Pac-8 stats

SAN FRANCISCO (AP) — The Washington Huskies and UCLA Bruins, one month away from their first clash of the season, take impressive statistics into this week's Pacific-8 basketball openers.

Coach Marv Harshman's tall Huskies have a slight edge in the most important area, with their perfect 11-0 record built against outside competition. Their conference opener is on the road against California, 6-3, Friday night.

The Bruins, winners of 10 straight since losing the season opener to top-ranked Indiana, give Coach Gene Bartow his first taste of Pac-8 action Thursday night at Oregon, 7-6. Southern California, 11-1, will be at Oregon State, 7-4, that evening.

Bartow said when he took over the UCLA job from retired John Wooden that he felt he had the best pair of forwards in college ball, Rich Washington and Marques Johnson, and they've combined for 39 points a game so far.

The Huskies' top scorers, Clarence Ramsey and James Edwards, are averaging 17.5 points apiece and the team has outscored opponents by an average of almost 19 points a game. Ramsey, however, may miss the opening Pac-8 game because of a sprained ankle.

Washington is the Pac-8's leading individual scorer so far, with a 21.5-point average, and the Bruins lead in team offense with 88.1 points per game. Washington is second in scoring, at 83.7, and best in defense, allowing 65 points a game.

Steve Puidokas of Washington State, which carried a 6-2 record into Monday night's game against Montana State, is second in individual scoring, with an average of 19.4 points, and leads in rebounding with 12.4 per game.

The WSU Cougars open Pac-8 play Friday night at Stanford, 4-6.

Stanford is the only Pac-8 team which had a losing record through December. The conference's over-all record through last weekend was 61-22.

Blues turn to Boivin for wins

ST. LOUIS (AP) — Leo Boivin, a defenseman for 18 National Hockey League seasons, was named coach of the struggling St. Louis Blues Monday.

Boivin, 44, whose playing career ended in 1970, had been hired by the Blues as a scout in 1974 and was named an assistant coach on Dec. 15. Since then he had been in charge of team drills as an aide to senior vice president Lynn Patrick.

"I haven't even signed a contract," Boivin said in respect to his agreement with the Blues. "It's only a gentlemen's understanding at this point. I want to see how I do first, then we'll talk about a formal contract."

A veteran of coaching only at Canadian Junior A ranks, Boivin becomes the Blues' ninth head coach as the successor to Patrick, who was serving on an interim basis.

"Something's got to be done about this coaching situation," the 63-year-old Patrick had said Sunday ahead of Boivin's Monday appointment.

"Leo's got to take over from me. Everyone will be better off," added Patrick, the Blues' original coach and the club's fill-in since the firing Dec. 14 of Garry Young.

As the choice of Sid Salomon III, the club's president and general manager, Boivin's task will be to reverse a skid during which the Blues have won only four of 18 games.

"We're fortunate to be in the division we're in," Boivin noted in respect to St. Louis' third-place position in the Conn Smythe Division.

"If we can string together a few victories, we'll be in good shape," he said.

Sports briefs

MACOMB, Ill. (AP) — Bill Shanahan was named head football coach at Western Illinois University Monday, succeeding Brody Westen who recently retired to enter private business.

Shanahan, 37, had been an assistant under Western the past two seasons and coached the defensive ends and linebackers. He previously was an assistant coach at the University of Utah.

Shanahan was selected from a panel headed by Athletic Director Gil Peterson. Last season, Westen had a 5-4-1 record.

INZELL, West Germany (AP) — Soviet men and women speed skaters beat America's best Monday in the opening 500-meter sprints of the three-track warmup competition for next month's Winter Olympics at Innsbruck.

Yevgeny Kulikov of the Soviet Union was clocked in 38.90 seconds in beating teammate Valery Muratov, 38.98, and United States champion Peter Mueller of Mequon, Wis., 39.09.

Jim Chapin of St. Louis was fourth in 39.40 in the snow on the artificial track in this Bavarian town.

NEW YORK (AP) — Former basketball great Bob Cousy's contract as commissioner of the American Soccer League has been extended, the ASL president announced Monday.

Cousy will serve for another year and has the option of continuing for a second season if he so desires, under the terms of his new contract.

LONDON (AP) — Joe Bugner, the 25-year-old British boxer who lacked a heavyweight champion's essential—a powerhouse punch—announced his retirement from the ring Monday.

He said his loss to Muhammad Ali last July had robbed him of "my love for the game."

MONTERREY, Mexico, — World doubles champions Raul Ramirez of Mexico and Brian Gottfried of the United States defeated Texans Cliff Richey and Sherwood Stewart 6-7, 7-6, 6-2 in the $64,000 Serfin Cup Tennis Tournament.

AUKLAND, New Zealand — Top-seeded Onny Parun of New Zealand downed Dominique Bedel of France 7-6, 7-5 in the first round of an open tennis tournament.

PHILADELPHIA (AP) — Former National Football League Coaches Norm Van Brocklin and Hank Stram are "serious candidates" for the head coaching job of the Philadelphia Eagles.

General Manager Jim Murray says he and owner Leonard Tose interviewed the two men for the job last week in Miami. Tose fired Coach Mike McCormack last month at the close of a 4-10 season.

MILWAUKEE (AP) — Del Crandall, fired as Milwaukee Brewers' manager on the last day of last season, says he has declined an offer to remain in baseball as a Minnesota Twins' coach in order to head public relations for an Irvine, Calif., dental association.

CHARLOTTE, N.C. — Paul S. Jones, 62, a well-known tennis umpire, died following a lingering illness.

DETROIT — Kayo Morgan, a boxer who lost only five times in 400 bouts, died of a heart attack at the age of 66.

CHICAGO (AP) — Czechoslovakian native Jana Hlavaty, the second ranked cross-country skier on the United States women's team, will be able to represent America in the Winter Olympics.

Mrs. Hlavaty, 34, received her United States citizenship Monday at the Dirksen Federal Building in Chicago. There was a possibility she wouldn't be able to represent the United States because the Feb. 4 starting date for the Olympics at Innsbruck, Austria, was two months short of the four-year residency requirement for citizenship.

PHILADELPHIA (AP) — The National Hockey League Philadelphia Flyers are playing under the assumption that star goalie Bernie Parent won't return to the lineup this season.

Parent, out all season after surgery for an injured nerve in his neck, was scheduled to play New Year's night in Kansas City. But he awoke on Tuesday with a pain in his neck and arm, and doctors postponed his return. They refuse now to speculate when Parent will play again.

SAN JUAN, P.R. (AP) — San Juan stands an excellent chance of being site of the Muhammad Ali-Jean Pierre Coopmans heavyweight title fight, it was learned Monday.

A reliable source said that contracts for the match would be signed in New York Wednesday.

Gordien to jump at Sports Arena

LOS ANGELES — Up until 1952, a 6-foot-8 high jump could earn a competitor a gold medal in the Olympic Games.

As ample proof of how things have changed, it took almost a 6-8 high jump just to make the high school high jump field for the Sunkist Indoor Track Meet, Friday night, Jan. 16 at the Sports Arena.

Claremont High's Kelly Gordien will be one of seven jumpers in the best-ever field for the high school section of the meet. The Sunkist meet combines the best track talent in Southern California — prep, college and club.

Included in the open field are athletes like Al Feuerbach, world record holder in the shot put; Rick Wohlhuter, world record holder in the 880; Randy Williams, 1972 Olympic long jump champ; and Maurice Peoples, solid choice to win the Olympics in the 400 this summer in Montreal.

Gordien has soared 6-8, making him one of four who have done so. The other three, Oakland Castlemont's Coart Owens (6-10), El Dorado's Jeff Lawson (6-9¼) and San Clemente's Carl Eissman (6-8¼) have gone even higher.

The preps kick off the meet at 5:30 with the open competition slated to start at 7.

Sagehens fall, 81-52

PASADENA — Pomona-Pitzer returned to action Monday night after 16-day layoff and the inactivity took its toll.

The Sagehens, (3-7) dropped an 81-52 tilt to Ambassador College in Pasadena. After building up a 15-9 lead in the first nine minutes, the 'Hens tired and Ambassador led by 11 at the half, 38-27.

All-conference forward Brandon Boyd was ill and scored only two points. Boyd played the first eight minutes and then had to leave. He returned for the last three minutes of the first half and two minutes at the beginning of the second half.

The Pomonans also have lost senior guard Garry Stewart. Stewart has not recovered from a whip lash injury suffered in an auto accident last spring. His doctor has advised him to discontinue playing.

Pomona-Pitzer opens conference play Wednesday night. Defending champion Occidental (8-3) visits Memorial Gym (8 p.m.)

Pomona-Pitzer (52)	Ambassador (81)
F-Hoehn (8)	Foston (18)
F-Boyd (2)	Guthy (18)
C-McFadden (12)	Schneider (12)
G-Pease (3)	Kendricks (10)
G-Pinkston (13)	Ross (12)
Pomona-Pitzer	27 25—52
Ambassador	38 43—82

Scoring subs: Pomona-Pitzer — Guangorena 2, Harris 10, Davis 2; Ambassador — Hanway 2, Cosgrove 5, Ledy 2, McNeely 2

Fouled out: Pomona-Pitzer — Hoehn

St. George's wins tourney

St. George's elementary school of Ontario won the Our Lady of Assumption basketball tournament in Claremont over the weekend.

St. Madeline's of Pomona placed second and St. Luke's of Temple City was third. In the consolation bracket, St. Joseph's of Upland was first, host Our Lady of Assumption was second and St. Margaret's of Chino third.

Joe Vigil of St. George's was named most valuable player and his coach, Steve Tucker, was honored as coach of the tourney. The Spirit Trophy went to Epiphany of El Monte.

McQuaid leads prep scorers

Quite a race has developed in the prep basketball scoring derby, with six players averaging better than 20 points per game and four of those between 22 and 23 points.

Chaffey High's Mark McQuaid moved into first place in this week's rankings with a 22.8 average. The senior center moved all the way from sixth place in the last derby to the top spot by virtue of four high-scoring efforts, including games of 39 and 27 points.

Bonita's Steve Sly remained in second place by keeping his average at 22.6 points, the same figure he boasted in the last derby.

Damien's Mike Wetenkamp is third with a 22.4 average and Terry is right behind at 22

Garey's Kent Jordan, the leader in the last derby, slipped to fifth place with 21.4 points per game. Gregg Guenther of La Verne Lutheran rounds out the 20-point men, with an average of 20.1.

TOP TEN
(Through games of Jan. 3)

Player (Team)	g	Pts.	Avg.
1. McQuaid (Chaffey)	8	182	22.8
2. Sly (Bonita)	10	226	22.6
3. Wetenkamp (Damien)	11	246	22.4
4. Terry (Ganesha)	12	264	22.0
5. Jordan (Garey)	12	257	21.4
6. Guenther (Luth)	10	201	20.1
7. Carpenter (Garey)	12	234	19.5
8. Maltke (Chaffey)	8	138	17.3
9. VanderSchaff (OCHS)	10	166	16.6
10. Donaldson (Ontario)	11	172	15.6

Sign-ups announced by San Dimas L.L.

The San Dimas Little League has set its signups for the 1976 season on Jan. 10 and 17 at Merchant Park in San Dimas.

The signups will be open from 10 a.m. to 2 p.m. on those two days and are open to boys ages eight through 12.

The fee for each signup is $15 which is of a donation nature. With this fee each parent will receive 15 tickets which they can sell or keep. The tickets are chances for a cash prize drawing.

Applications for managers will also be accepted on the Jan. 10 and 17 dates.

For further signup information call Joe Barrett at (714) 599-4961.

WARNING
INVESTIGATE
BEFORE YOU INVEST

State inspectors and investigators are enforcing Section 17800 of the Business and Professions Code which reads (in part) as follows: It is unlawful to publish any advertising which is untrue or misleading and which is known or which by the exercise of reasonable care should be known to be untrue or misleading. The Progress Bulletin strives to protect its readers against such advertising and exceptions to this should be reported to the Classified Advertising Manager immediately by phoning 622-1201.

EXXON stations for lease in Chino, Pomona and Azusa. Paid training available. Investment is necessary. Call Ted Horsey (714) 886-6661 or (714) 547-1892 after 6:30 pm.

HAVE YOU
EVER MISSED . . . ?

Have you ever missed out on a real growth opportunity? There have been plenty:

1900-The Automobile
1923-The Refrigerator
1945-TV
1954-Fast Foods
1975-Residential Security

These and scores of others were ideas whose time had come. Each born to fill a need. A great need exists today for Residential Security. There is an enormous and virtually untapped market for a low-cost, efficient burglar and fire alarm system for homes and apartments. Ours is an exceptional system and we're looking for men and women with sales background.
This is YOUR opportunity to build a profitable business of your own as a Guardian Service Distributor. Modest investment for inventory only. For full details about an exciting future, write or call COLLECT:
Dick Rogers

MSAC Continuing Education COMMENT

MT. SAN ANTONIO COLLEGE 1100 NORTH GRAND AVENUE WALNUT, CALIFORNIA 91789

VOLUME IV, NUMBER 2 SPRING SESSION 1976

SPRING, 1976

EVENING DIVISION

Schedule of Classes

SPRING SEMESTER, 1976

(Retain for Registration)

SPRING CALENDAR

October 15 - January 9 . . . Application for Permit period for students who were not in attendance during Fall Semester, 1975. Telephone request for applications should be made from 8:00 a.m. through 4:15 p.m. Monday through Friday. Call the Admissions Office (714) 598-2811, Extension 216 to request application materials. Applications may also be acquired at the Admissions Office (Building 5). The Admissions Office is open from 8:00 a.m. to 4:30 p.m. Monday through Friday; and from 6:00 to 9:00 p.m. Monday through Thursday.

January 19 - January 23. . . Spring Applicants for Evening Division who have not obtained a Permit will be required to come to the Admissions Office (Building 5), complete an application and obtain Permit for registration.

January 23 . . . . . **LAST DAY TO MAKE APPLICATION FOR SPRING SEMESTER 1976.**

January 12 - January 22. . . Registration by Permit for students who were in attendance during Fall Semester, 1975. Registration will take place in the Student Center, (Building 9C); the hours for registration will be 6:00 to 8:30 p.m. Monday through Thursday.

January 26 - January 30. . . Registration by Permit for new students and students returning after an interruption. Registration will take place in the Student Center (Building 9C); the hours of registration will be 6:00 to 8:30 p.m. Monday through Thursday.

February 2 . . . . . Classes begin. A student who does not attend the first meeting of his class will be cancelled.

February 2, 3, 4, 5 . . . . . Program Change Nights. To make a program change, a student must report to the class he wishes to add during the first hour of the class meeting on February 2, 3, 4, 5. The student must then bring the class card to the Student Center (Building 9C), complete an "ADD" card and process through the Registrar's Clerk, in order to be officially enrolled in the class.

February 12. . . . . Holiday (Lincoln's Birthday)

February 13. . . . . School Holiday

February 16. . . . . Holiday (Washington's Birthday)

April 12 - 16. . . . . Spring Semester Recess

May 31 . . . . . Holiday (Memorial Day)

June 7, 8, 9, 10 . . . . . Evening Division Final Examinations

June 18 . . . . . Semester Ends.
Commencement

GENERAL INFORMATION

ADMISSION REQUIREMENTS: Any high school graduate, or any other person over 18 years of age, who can profit from the instruction offered, is eligible for admission to Mt. San Antonio College, provided he is not an academic dismissal.

COUNSELING: Counseling is available to students during the registration period and by appointment during each semester. All new students who are enrolled in more than six units and all students who are on probation are required to receive special counseling for study load regulation and appropriateness of goals. All students, continuing and/or first time, who are planning to enroll in 12 or more units are required to submit a STUDENT COURSE REQUEST LIST at the time of Registration. Continuing students who were enrolled in 12 units have been notified that they need to schedule counseling appointments. New applicants who plan to enroll in 12 or more units will receive similar notification.

GENERAL BULLETIN: Complete information regarding Evening Division procedures, regulations, courses, degrees and certificates is contained in the General Bulletin.

VETERANS: A Veterans Service Center is adjacent to Building 9B. Information about veterans benefits, educational and others may be obtained at this office.

SCHEDULE CHANGES: This schedule represents intended course offerings and teacher assignments as of press date, November 5, 1975. The Evening Division reserves the right to cancel (q.v.) reschedule, equalize, or combine classes and to change instructors where such action is deemed necessary. Any changes will be distributed during registration.

REGISTRATION INFORMATION: Refer to Spring Calendar on this page.

SCAT PLACEMENT TESTS: Students enrolling in courses in which an entrance or placement test is required must appear at the places indicated and at the times stated in order to satisfy prerequisite(s) for such courses.

Placement Test Procedures for Business and English Departments: Students who wish to register for one of the classes listed below are advised that they must have School and College Ability Test (SCAT) scores or American College Test (ACT) or Scholastic Aptitude Test (SAT) scores on file in the Counseling Center prior to registration. Students who have taken the scat test at MSAC during the past two years, or since July, 1972, or who have submitted SCAT, ACT, or SAT scores during the same period, need not take an additional test for placement as these scores are still valid and will be available with the Test Clerk in the Counseling Center. Students who do not have scores on file must take the SCAT test on one of the following dates, prior to registration.

Placement Test Scores are required for the following courses:

0067 Business Math 11
0682 Fundamentals of Business Math 68
0696 Basic Bookkeeping Acct 72
0846 English 1A
0855 Remedial English 68
0856 Remedial English 67

SCAT Placement Test Schedule:

Date:	
Friday, January 16	6:30 p.m. Library
Friday, January 23	6:30 p.m. Library (use north entrance)

CREDIT/NO CREDIT CLASSES: Certain classes in this schedule are offered on a Credit/No Credit-Letter Grade Option basis. The students who choose the Credit/No Credit option will be graded "Credit" if he does passing work in the course, and "No Credit" if he does failing work. Units for which a "Credit" grade is received will count toward the Associate in Arts or Associate in Science Degree but units for which a "No Credit" grade is received will not. The Grade Point Average will not be affected. Courses taken on a Credit/No Credit basis may not be counted toward a certificate.

PREREQUISITES AND COREQUISITES: Students may enroll only in courses for which they have the prerequisites and have taken, or will be concurrently taking, the corequisites. Failure to observe this regulation will result in the student being dropped from those courses in which he is improperly enrolled. Questions regarding prerequisites and corequisites should be addressed to the counselor at the time of registration.

RESIDENCE REQUIREMENT: Residents of Mt. San Antonio College district or any high school district which does not maintain a community college are eligible to attend the college. Students who have legal residence in other community college districts may be admitted only if released by the district of residence. In general, students enrolled in six units or less work do not need a notice of release.

COLLEGE SERVICES CARD: A College Services Card fee of $5.00 will be collected during registration. This fee includes the mandatory $3.75 health fee and an additional $1.25 campus service fee. Campus services include cultural and athletic events, student financial aids and tutorial services. The Health Center provides evening medical and psychological services.

CALIFORNIA RESIDENCE CLASSIFICATION: In general a student attains residence classification after he has maintained his legal residence (domicile) in California for more than one year prior to the day before the semester which he intends to attend. For additional rules regarding residency please consult the Mt. San Antonio College General Bulletin or contact the Office of Admissions.

DIRECTORY INFORMATION: Mt. San Antonio College regards as public information each student's name, address, telephone listing, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most recent previous educational agency or institution attended by the student, unless the student notifies the Public Information Officer in writing within 15 days of the opening day of each semester or session that he or she does not want such information released.

NONRESIDENT TUITION: In accordance with state law, tuition in the amount of $35 per unit to a maximum of $525 per semester will be charged students who are not residents of the state of California. Tuition is payable prior to the completion of registration.

CLASSIFICATION OF COURSES: Each course in the schedule has been classified as to its transferability to baccalaureate degree granting institutions. Such classification is by a symbol following the course title and is in brackets [ ]. The classifications are as follows:

[U] Courses certified as transfer for baccalaureate degree credit.
[V] Occupational courses which are certified as transfer for baccalaureate degree credit.
[W] Courses which may be baccalaureate applicable for credit at specific four-year institutions at the discretion of such institutions.
[X] Courses designed for preparatory or remedial purposes.

MSAC PLACEMENT SERVICE

Mt. San Antonio College maintains a very active job placement service. The Occupational Placement Office is located in Building 9-B, Room 16; and its services are available to continuing education students during evening hours. Office hours are from 8:00 a.m. to 5:00 p.m. Monday through Friday and from 6:00 p.m. to 9:00 p.m. Monday through Thursday.

Any student attending Mt. San Antonio College is qualified to use the services of the Occupational Placement Office. In contact with some 4,000 employers each year, the office places qualified students into part-time, temporary, and career positions at no cost to the student.

AERONAUTICS AND TRANSPORTATION

(Also refer to Aircraft Technology ticket numbers 1027, 1044, 1056.)

AVIATION

BASIC GROUND SCHOOL 23 [V] 4 UNITS

Basic study of Federal Aviation Regulations, meteorology, navigation, theory of flight, use of radio and general service of aircraft. This course is designed to meet the ground school requirements of the F.A.A. Private Pilot Certificate.

0006–51	W	6:00–10:00	CROOKS, Janis E.	28B–107
0006–52	T	6:00–10:00	SMITH, Robert W.	28B–107
0006–53	TH	6:00–10:00	FALCONE, Rudoff	28B–107

ADV GROUND SCHOOL 25 [W] 3 UNITS

Prerequisite: Basic Ground School 23 or F.A.A. Private Pilot Certificate.

A study of the general areas of aeronautics necessary for commercial pilot's certification. Emphasis is placed on flight planning, enroute and terminal procedures. Radio navigation aids, computers, and attitude instrument flight conditions are taught. Stress is placed on safe operating procedures. Federal Air Regulations are reviewed constantly along with flight safety requirements.

0009–51	TH	7:00–10:00	THOMAS, Robert M.	28B–106

METEOROLOGY 26 [V] 3 UNITS

A basic study of weather elements, the atmosphere, weather mechanics, weather disturbances, weather analysis, and forecasts. This course meets requirements of F.A.A. approved advanced ground school curriculum.

0010–51	M	7:00–10:00	GALLOWAY, Wesley T.	28B–106
0010–52	T	7:00–10:00	FALCONE, Rudoff	28B–106

INSTR GROUND SCHOOL 30 [W] 3 UNITS

Prerequisites: Advanced Ground School 25 and Meteorology 26, or Private Pilot's Certificate and Meteorology 26. Meteorology 26 may be taken concurrently.

A study of the National Airways System, Air Traffic Control and Communications procedures, air navigation radio aids, instrument landing systems, flight instruments, aircraft performance, aeronautical publications, instrument flight rules, and instrument weather.

0014–51	TH	7:00–10:00	CHRISTIAN, Margaret D.	28B–108

FLIGHT INSTRUCTR GRND SCH 58 [W] 3 UNITS

Prerequisite: Successful completion (grade C or above) Advanced Ground School 25 and Instrument Ground School 30 or Commercial Pilot Certificate with an Instrument Rating, or approval of department chairperson.

The course will include the learning processes, the basic teaching principles, and the application of these principles in teaching the student. Also includes an analysis of flight maneuvers and instruments.

0059–51	T	7:00–10:00	THOMAS, Robert M.	28B–108

FLIGHT ENGNRS GRND SCHOOL 60 [W] 9 UNITS

Prerequisite: Federal Aviation Regulations 29, Meteorology 26, Aircraft and Engines 28, Advanced Ground School 25, and the instrument pilot written test passed; or an Airframe and Powerplant Certificate; or approval of department chairperson or course instructor.

The course will include Federal Air Regulations, Aerodynamics, Engine Familiarization, Normal and Emergency Operations as they pertain to a Flight Engineer's duties. This course is required by the F.A.A. in preparation for the Flight Engineer's Basic and Turbojet written examination.

0060–51	TWTH	7:00–10:00	ECKEL, Gary	28B–103

TRANSPORTATION

AIR TRANSPORTATION 17 [W] 3 UNITS

The survey study of airplanes and air transportation from the advent of the industry as a business to the present, with stress on the development of the airline system. The course includes the early airmail, the first airmail carriers, the formation and consolidation of the aircraft industries, emergence of the passenger trade, government subsidy, regulation, airline route development, reservations and ticketing, and the present day airline organization.

0077–51	T	7:00–10:00	KLINKER, Donald L.	28B–203

REGNL GEOG OF SO AMER 37 [V] 3 UNITS

The study of the topography, climate, cultural features, population, agricultural and animal industries, transportation, industries, products, foreign trade, and people of South America.

0080–51	W	7:00–10:00	SMITH, Robert W.	28B–203

INTRO TO TRANSPORTATION 40 [W] 3 UNITS

The history and development of all forms of transportation and their relationship to each other. The role transportation plays in the economy of the nation, the livelihood of its citizens and the American way of life. Recommended for students majoring in business, advertising, merchandising, or any student for elective credit.

0081–51	W	7:00–10:00	STAFF	28B–104

CAL MOTOR CARRIER RATES 50B [W] 3 UNITS

Prerequisite: California Motor Carrier Rates 50A is prerequisite to California Motor Carrier Rates 50B.

This is a basic course in the principles of surface transportation of property. The first semester includes the study of California transportation laws, rules and regulations, and motor freight classification. The second semester provides an understanding of the tariff rates, rules and regulations of California motor carriers, and the information necessary to select the applicable rates governing the traffic involved.

0084–51	M	7:00–10:00	BRAMAN, Joseph	28B–104
0084–52	TH	7:00–10:00	BRAMAN, Joseph	28B–104

TRAFFIC MANAGEMENT 51B [W] 3 UNITS

Prerequisite: Introduction to Transportation 40 or California Motor Carrier Rates 50A. Traffic Management 51A or equivalent experience in the transportation industry is prerequisite to 51B.

Instruction in all phases of traffic management, organization and function of individual traffic departments. Practical instruction in shipping, receiving, warehousing, claims; choice of carriers, accessorial services, traffic terminology, government regulation; procedure in making freight rates and publication of tariffs.

0086–51	T	7:00–10:00	VAIL, John H.	28B–207

INTERST COMM LAWS & REGS 52 [W] 3 UNITS

An analysis and application of federal and state regulations pertaining to carriers and shippers with respect to their liabilities to each other and to the public. Specific study of the Interstate Commerce Act, its control and implications of carriers by rail, motor, air, and water.

0087–51	TH	7:00–10:00	FRITZE, Carl	28B–203

TRAVEL AGENCY OPERATIONS

TRAVEL AGENCY OPERATION 61 [W] 3 UNITS

Prerequisite: Travel Agents Practices and Procedures 60 or experience in working in a travel agency or with a transportation company.

The history and development of travel agencies with emphasis on operation, tour conducting, and international travel.

0091–51	W	7:00–10:00	HARP, Kathleen	28B–106
0091–52	TH	7:00–10:00	JONES, Wesley W.	28B–207
0091–53	T	7:00–10:00	SOUTHWORTH, Gayle	28B–104

AIRCRAFT TECH & TRADE AND INDUSTRY

AIRCRAFT POWERPLANT & AIRFRAME MNT

AVIATION MAINT ELECTRCTY 70B [W] 3 UNITS

Prerequisite: Aviation Maintenance Electricity 70A.

Corequisite: Concurrent enrollment in Aircraft Powerplant Maintenance Technology 65B or Airframe Maintenance Technology 66B.

This course is a continuation of Aviation Maintenance Electricity 70A.

1027–51	M	6:00–10:00	MOTTER, Mercurio	28B–401
	W	6:30– 8:30	MOTTER, Mercurio	28B–401

W E AVIATION MAINT TECH 85 [W] 1 UNIT

(May be taken for Credit/No Credit only.)

(May be taken four times for credit.)

Prerequisite: Approval of Work Experience Coordinator. (See "Work Experience" in Section IV of the General Bulletin.)

This course is designed to combine actual job experience in aviation maintenance technology with related classroom instruction. Five (5) hours per week per semester of supervised employment is required for each unit of credit.

2001–51	T	6:00– 6:30	BARBER, Charles D.	28A–102
	TH	6:00– 6:30	BARBER, Charles D.	28A–102

W E AVIATION MAINT TECH 86 [W] 2 UNITS

(May be taken for Credit/No Credit only.)

(May be taken four times for credit.)

Prerequisite: Approval of Work Experience Coordinator. (See "Work Experience" in Section IV of the General Bulletin.)

This course is designed to combine actual job experience in aviation maintenance technology with related classroom instruction. Five (5) hours per week per semester of supervised employment is required for each unit of credit.

2002–51	T	6:00– 6:30	BARBER, Charles D.	28A–102
	TH	6:00– 6:30	BARBER, Charles D.	28A–102

W E AVIATION MAINT TECH 87 [W] 3 UNITS

(May be taken for Credit/No Credit only.)

(May be taken four times for credit.)

Prerequisite: Approval of Work Experience Coordinator. (See "Work Experience" in Section IV of the General Bulletin.)

This course is designed to combine actual job experience in aviation maintenance technology with related classroom instruction. Five (5) hours per week per semester of supervised employment is required for each unit of credit.

2003–51	T	6:00– 6:30	BARBER, Charles D.	28A–102
	TH	6:00– 6:30	BARBER, Charles D.	28A–102

W E AVIATION MAINT TECH 88 [W] 4 UNITS

(May be taken for Credit/No Credit only.)

(May be taken four times for credit.)

Prerequisite: Approval of Work Experience Coordinator. (See "Work Experience" in Section IV of the General Bulletin.)

This course is designed to combine actual job experience in aviation maintenance technology with related classroom instruction. Five (5) hours per week per semester of supervised employment is required for each unit of credit.

2004–51	T	6:00– 6:30	BARBER, Charles D.	28A–102
	TH	6:00– 6:30	BARBER, Charles D.	28A–102

AIRFRAME MAINTENANCE TECH 93A [W] 3 UNITS

This course is F.A.A. approved and is required of all air frame maintenance technology majors. It includes the "Airframe Structures" and "Airframe Systems and Components" sections.

1044–51	T	6:30– 9:30	BARBER, Charles D.	28B–201
	TH	6:30– 9:30	BARBER, Charles D.	28A–102

AIRCRAFT PWRPL MAINT TECH 98A [W] 3 UNITS

This F.A.A. approved course prepares a student in the written and practical skills required to enter the aviation industry as an F.A.A. certified powerplant mechanic. Training is given in the various power plant, electrical, ignition, lubrication, fuel metering, propeller, and fire detection systems utilized in modern aircraft.

1056–51	T	6:30– 9:30	HANSON, Russell I.	28B–209
	TH	6:30– 9:30	HANSON, Russell I.	28A–102

APPRENTICE TRAINING

WORK EXP FOR PLUMBERS 115 [W] 4 UNITS

See "Work Experience Education," Section IV of the General Bulletin.

A course for plumbers providing work experience in actual employment that relates to and reinforces the classroom presentation.

0431–51	ARRANGE HOURS	ELLIOTT, Robert T.	28A–101D

WORK EXP FOR MACHINISTS 115 [W] 4 UNITS

See "Work Experience Education," Section IV of the General Bulletin.

A course for machinists providing work experience in actual employment that relates to and reinforces the classroom presentation.

0432–51	M	6:00– 6:30	ELLIOTT, Robert T.	28A–101D

MACHINIST 124A [W] 3 UNITS

A four-year series of courses designed for indentured apprentices which presents related information consisting of theory and practice of basic machine shop, shop mathematics, shop drawing, blueprint reading, shop sketches, estimating, safety, and shop ethics.

0434–51	M	6:30– 9:30	HAGIN, James C.	15–13

MACHINIST 124B [W] 3 UNITS

A four-year series of courses designed for indentured apprentices which presents related information consisting of theory and practice of basic machine shop, shop mathematics, shop drawing, blueprint reading, shop sketches, estimating, safety, and shop ethics.

0435–51	M	6:30– 9:30	FRANK, Edward G.	28B–208

MACHINIST 125A [W] 3 UNITS

A four-year series of courses designed for indentured apprentices which presents related information consisting of theory and practice of basic machine shop, shop mathematics, shop drawing, blueprint reading, shop sketches, estimating, safety, and shop ethics.

0436–51	M	6:30– 9:30	STAFF	20– 1

MACHINIST 125B [W] 3 UNITS

A four-year series of courses designed for indentured apprentices which presents related information consisting of theory and practice of basic machine shop, shop mathematics, shop drawing, blueprint reading, shop sketches, estimating, safety, and shop ethics.

0437–51	T	6:30– 9:30	STAFF	20– 1

MACHINIST 126B [W] 3 UNITS

A four-year series of courses designed for indentured apprentices which presents related information consisting of theory and practice of basic machine shop, shop mathematics, shop drawing, blueprint reading, shop sketches, estimating, safety, and shop ethics.

0439–51	M	6:30– 9:30	MONZON, Lawrence	26D–307

MACHINIST 127B [W] 3 UNITS

A four-year series of courses designed for indentured apprentices which presents related information consisting of theory and practice of basic machine shop, shop mathematics, shop drawing, blueprint reading, shop sketches, estimating, safety, and shop ethics.

0441–51	T	6:30– 9:30	MONZON, Lawrence	4–223

MACHINIST TRAINING

BASIC MACHINIST & REVIEW 60B [W] 3 UNITS

This course presents the fundamental principles of machine tool operation, as well as supplemental instruction for those in the machinist trade. Shop theory, blueprint reading, shop mathematics and proper tool selection are included with practical shop applications.

0477–51	T	6:30– 9:30	SHEPHERD, John C.	28A–102
	TH	6:30– 9:30	SHEPHERD, John C.	28A–102

TOOL & DIE MAKING 61B [W] 3 UNITS

Prerequisites: Basic Machinist and Review 60A-60B; Machinist 127A-127B; Specialty Machining Theory 84; or equivalent.

This course presents an introduction to the basic concepts of tool and die machine work. Practice is offered in the construction of basic components of tools and dies with additional emphasis on making the components perform on live presses. The second semester, emphasis will be placed on such areas as die block construction, strippers, shedders, knock-outs, nests, stops, stock layout and scrap allowances.

0480–51	M	6:30– 9:30	LEMASTER, Wayne L.	28A–102
	W	6:30– 9:30	LEMASTER, Wayne L.	28A–102

PLASTICS TECHNOLOGY

INTRODUCTION TO PLASTICS 50B [W] 3 UNITS

Prerequisite: 50A is prerequisite to 50B.

This course includes a study of the fundamentals of the plastics industry as related to the work of technicians, machine operators, maintenance mechanics, and inspectors. Special emphasis is given to pressure, extrusion injection, and blow molding, as well as vacuum forming, and tool preparation.

0489–51	TH	7:00–10:00	MC GAUVRAN, Thomas G.	20– 1

INJECT MOLD & MACH MAINT 51B [W] 3 UNITS

Prerequisite: Introduction to Plastics 50A-50B or experience in the industry.

This course introduces the student to injection molding, taking into consideration types of machines, basic principles of injection molding, controls in the molding process, and the maintenance and trouble shooting of machines as related to hydraulic, pneumatic, and mechanical problems.

0491–51	T	7:00–10:00	MEYER, Elmer R.	26D–206

EXTRUSION MOLD PRACTICES 52 [W] 3 UNITS

The extrusion and molding of tube, sheet, and profile shapes. Includes machine set up, machine types, screw and cylinder construction, heater elements, and cooling procedure. Care and maintenance of machines, tools, and work areas are stressed.

1949–51	TH	7:00–10:00	KELLER, David E.	26D–205

PLASTIC TESTING METHODS 53 [W] 3 UNITS

This course is designed to develop understanding of types of tests, the reasons for and methods of testing plastic materials.

2088–51	W	7:00–10:00	KELLER, David E.	26D–205

W E PLASTICS TECHNOLOGY 91 [W] 1 UNIT

(May be taken for Credit/No Credit only.)

(May be taken four times for credit)

Prerequisite: Approval of Work Experience coordinator. (See "Work Experience" In Section IV of the General Bulletin.)

This course is designed to combine actual job experience in plastic technology with related classroom instruction. Five (5) hours per week per semester of supervised employment is required for each unit of credit.

2013–51	WTH	6:30– 7:00	KELLER, David E.	26D–205

W E PLASTICS TECHNOLOGY 92 [W] 2 UNITS

(May be taken for Credit/No Credit only.)

(May be taken four times for credit.)

Prerequisite: Approval of Work Experience coordinator. (See "Work Experience" In Section IV of the General Bulletin.)

This course is designed to combine actual job experience in plastic technology with related classroom instruction. Five (5) hours per week per semester of supervised employment is required for each unit of credit.

2014–51	WTH	6:30– 7:00	KELLER, David E.	26D–205

W E PLASTICS TECHNOLOGY 93 [W] 3 UNITS

(May be taken for Credit/No Credit only.)

(May be taken four times for credit.)

Prerequisite: Approval of Work Experience coordinator. (See "Work Experience" In Section IV of the General Bulletin.)

This course is designed to combine actual job experience in plastic technology with related classroom instruction. Five (5) hours per week per semester of supervised employment is required for each unit of credit.

2015–51	WTH	6:30– 7:00	KELLER, David E.	26D–205

W E PLASTICS TECHNOLOGY 94 [W] 4 UNITS

(May be taken for Credit/No Credit only.)

(May be taken four times for credit.)

Prerequisite: Approval of Work Experience coordinator. (See "Work Experience" In Section IV of the General Bulletin.)

This course is designed to combine actual job experience in plastic technology with related classroom instruction. Five (5) hours per week per semester of supervised employment is required for each unit of credit.

2016–51	WTH	6:30– 7:00	KELLER, David E.	26D–205

WELDING

WELDING METALLURGY 53B [W] 3 UNITS

Prerequisite: Welding Metallurgy 53A.

This is a continuing course in welding metallurgy and is intended for welders, designers, draftsmen, supervisors, and quality control personnel. Instruction will include metallurgical effects of preheating and postheating of welds; expansion, contraction, and properties of welds; as well as testing and inspection procedures.

0522–51	W	7:00–10:00	LOGAN, Dexter J.	26D–103

WELDING, OXYACETYLENE 70A [W] 2 UNITS

Instruction in the techniques and use of the oxyacetylene torch and its use as a welding, brazing, and cutting tool. Instruction in welding symbols and metal identification is included.

0524–51	M	7:00–10:00	TOYOTA, Walter	22– 3
	W	7:00–10:00	TOYOTA, Walter	21– 3
0524–52	T	7:00–10:00	SOWLE, William L.	22– 3
	TH	7:00–10:00	SOWLE, William L.	21– 3

WELDING, BASIC ARC 70B [W] 2 UNITS

Prerequisite: Welding, Oxyacetylene 70A.

This course provides instruction in the techniques of arc welding and familiarization with arc welding equipment. Instruction in welding symbols and rod identification is included.

0525–51	M	7:00–10:00	COSANELLA, Anthony J.	21– 3
	W	7:00–10:00	COSANELLA, Anthony J.	22– 2
0525–52	T	7:00–10:00	DANEAU, Edward J.	21– 5
	TH	7:00–10:00	DANEAU, Edward J.	22– 2

WELDING, ADV ARC 70C [W] 2 UNITS

Prerequisite: Welding, Basic Arc 70B.

Instruction in the advanced techniques of arc welding is provided. Included are alloys and alloy rods, blueprints, special rods, metallurgy, and new types of equipment for arc welding.

0526–51	M	7:00–10:00	COSANELLA, Anthony J.	21– 3
	W	7:00–10:00	COSANELLA, Anthony J.	22– 2
0526–52	T	7:00–10:00	DANEAU, Edward J.	21– 5
	TH	7:00–10:00	DANEAU, Edward J.	22– 2

WELDING, HELI –ARC 70D [W] 2 UNITS

Prerequisite: Welding, Advanced Arc 70C.

This course presents instruction in techniques and applications of inert gas-electric arc welding.

0527–51	M	7:00–10:00	COSANELLA, Anthony J.	21– 3
	W	7:00–10:00	COSANELLA, Anthony J.	22– 2
0527–52	T	7:00–10:00	DANEAU, Edward J.	21– 5
	TH	7:00–10:00	DANEAU, Edward J.	22– 2

WELD PROC & POWER SOURCES 73B [W] 3 UNITS

Prerequisite: 73A is prerequisite to 73B.

This course explores modern power sources and welding processes. It provides welders, technicians, supervisors, and engineers with the necessary knowledge for proper selection of power sources, the use of new exotic welding processes, and modern production development procedures.

1778–51	M	7:00–10:00	LOGAN, Dexter J.	16– 13

AGRICULTURAL SCIENCES

ANIMAL HUSBANDRY

ANIMAL NUTRITION AH11 [V] 3 UNITS

A study of the composition of feeds and their utilization by domestic animals. Course includes the selection of feeds and compiling of rations. The principal aspects of feeding domestic animals will be stressed.

0167–51	T	6:30– 9:30	BOSTER, Douglas A.	12– 13

INTRO LIGHT HORSE MANAGE AH81 [V] 3 UNITS

A course in the basic principles of nutrition, selection, care, management, and the physiology of reproduction of the light horse. The historical, anatomical, and economic importance of the light horse, and its utilization, will be included.

0187–51	W	7:00–10:00	STAFF	12– 13

LVST SANIT & DISEASE AH87 [V] 3 UNITS

A course in the sanitation and disease control practices on the farm. The course will stress the prevention and control of common types of livestock diseases and ailments.

0190–51	M	7:00–10:00	LESLIE, John J.	12– 13
0190–52	TH	7:00–10:00	LESLIE, John J.	12– 13

ORNAMENTAL HORTICULTURE/TURF GRASS

ADV TURF GRASS MNGMT OH61 [W] 3 UNITS

Prerequisite: Turf Grass Management OH60 or 2 years experience in turf grass management or closely related field.

An advanced course in the management of turf enterprises such as golf courses, parks, and cemeteries. Aeration, sprinkler systems, fertilization, diseases, insects, weeds, and renovation are presented. There is also a unit in program management.

0262–51	M	6:30– 9:30	ONTIVEROS, Roy C.	12– 15

NURSERY MANAGEMENT OH82 [W] 3 UNITS

This course includes a study of nursery management. Topics included in the course are personnel management, nursery layout, stock, reports, costs, advertising, and salesmanship.

0267–51	T	7:00–10:00	BREMER, John	12– 15

PLANT SCIENCE & FORESTRY

PEST IDENTIF & CONTRL II PS91 [W] 3 UNITS

Laws and regulations pertaining to use of insecticides and plant growth regulators. The course will include identification and control of the most important insects, the use of plant growth regulators, and will prepare individuals for the State of California Pest Control Advisors Examination.

2040–51	W	7:00–10:00	DONLEY, Robert G.	12– 15

SOIL SCIENCE

FERTILIZERS & PLANT NUTR SS82 [W] 3 UNITS

A study of chemical and organic fertilizers, fertilization, plant nutrition, and the chemical and physical properties of soils as they affect plant growth.

2067–51	TH	6:30– 9:30	MORGAN, Wayne C.	12– 15

ALLIED HEALTH TECHNOLOGIES

DACTYLOLOGY (SIGN LANGUAGE)

DACTYLOLOGY–SIGN LANGUAGE 80 [W] 3 UNITS

A complete course in manual communication, beginning with the alphabet and basic signs and gestures, progressing to more formal and advanced signs for a higher level of communication with the deaf.

0330–51	T	7:00–10:00	SCHMITZ, Joseph N.	26D–106
0330–52	TH	7:00–10:00	SCHMITZ, Joseph N.	26D–203

INTERMEDIATE DACTYLOLOGY 81 [W] 3 UNITS

Prerequisite: Dactylology 80 or basic dactylological skill.

The course includes a review of datcylology and continues the study of traditional signs, S.E.E. signs (Signing Exact English), and an introduction to interpreting.

0331–51	W	7:00–10:00	SCHMITZ, Joseph N.	26D–106

EMERGENCY MEDICAL TECHNICIAN 1

EMERG MEDIC TECHNICIAN 1 90 [W] 6 UNITS

Prerequisite: Employment in an emergency response service and approval of department chairperson.

Topics included are techniques of emergency medical care within the responsibilities of the E.M.T. Emphasizes the development of skill in recognition of symptoms of illnesses and injuries, and proper procedures of emergency care.

0309–51	MW	7:00– 9:30	(Lect.)	PENIDO, John Luis	4–134
	Arrange 6 Hours		(Lab.)		HOSP
0309–52	TTH	7:00– 9:30	(Lect.)	WILLIAMS, Stephen	4–134
	Arrange 6 Hours		(Lab.)		HOSP

NOTE: Six laboratory hours per week will be arranged for students in EMT 1 classes.

EM MED TECH I–REFRESHER 91 [W] 1.5 UNITS

Prerequisite: Completion of E.M.T. - 1 course as approved by the State of California Department of Health.

Review of techniques of emergency medical care. To include life-support measures, cardiopulmonary resuscitation, and practical application of life-support equipment as required by the State of California Department of Health. In addition, course will cover emergency childbirth, burns, water rescue, drug abuse, and fractures.

1992–51	W	7:00– 9:00	(Lect.)	STAFF	HOSP
	Arrange 10 Hours		(Lab.)	STAFF	HOSP

NOTE: This is a short term class, the last class meeting 4/1/76. (The class will meet @ Inter-Community Hospital, 275 W. College, Covina, CA.)

ANATOMY & PHYSIOLOGY 60 [W] 3 UNITS

This course presents a systematic approach to the anatomy and physiology of the human body, thereby broadening the student's understanding of the major disorders of the body.

0317–51	M	6:00– 9:00	ADAMS, Elizabeth	13– 13

PHYSICAL THERAPY AIDE

PHYSICAL THERAPY AIDE 50 [W] 4 UNITS

Prerequisite: High school graduation or equivalent.

This course will provide the physical therapy aide the training necessary to perform designated routine tasks for the operation of a physical therapy service.

0341–51	MW	7:00–10:00	EPHROSS, Leya E.	HOSP

NOTE: This class will meet @ Greater El Monte Comm. Hospital, 1701 Santa Anita, South El Monte, CA.

ACTIV LEADER FOR CONV FACIL 80 [W] 2 UNITS

Prerequisite: High school graduation or equivalent. Students with no prior experience as an Activity Therapist must complete 36 hours of volunteer work during the semester course.

Course is designed for persons presently employed in convalescant or skilled facilities as Activity Director/Coordinator and those who wish training and seek employment in the field. It provides an opportunity for the evaluation and development of social, avocational work, and recreation skills. Activity therapists focus not only on providing meaningful activities but on evaluating and enhancing the quality of interpersonal interactions.

2103–51	M	7:00– 9:00	LIVINGSTON, Francis	26D–206

RADIOLOGIC TECHNOLOGY–CERTIFICATE

MUSCULOSKELETAL POSITION 72 [W] 2 UNITS

Prerequisite: Anatomy and Physiology 60 and Principles of Radiography 70.

This course is designed to meet the State of California requirements for the Limited Permit classification in radiologic technology. The focus of study is directed to the radiographic positioning of the musculoskeletal anatomy including chest.

0366–51	MW	7:00– 9:00	CASTILLO, Jr. Henry	28B– 1

SPEC RADIOGRAPHY PROCS 80B [W] 2 UNITS

Prerequisite: Successful completion of 80A or consent of instructor.

A continuation of 80A and will include orthopedics, chest, obstetrics and gynecology, contrast agents, ultrasound, and nuclear medicine.

2105–51	T	7:00– 9:00	KIRCHMANN, Roseann	28B– 1

RESPIRATORY THERAPY – A.S. DEGREE

CARDIOVASCULAR TECHNOL 60 [W] 4 UNITS

Prerequisite: Graduate of a two-year respiratory therapy program, R.N., L.V.N., or technician with two-years experience in field of respiratory therapy.

This course will cover electrocardiography both running of EKG's and recognition of common arrhythmias. Performance of non-invasive cardiography such as jugular pulse pressures, apercardiography, phonocardiography, and carotid pulse tracings to include basic theory of cardiac catheterizations, pacemakers, and performance of vectorcardiograms.

1993–51	TTH	7:00–10:00	KEREKES, Julius C.	HOSP

NOTE: This class will meet at City of Hope Hospital, 1560 E. Duarte Road, Duarte, CA.

RESPIRATORY THERAPY–CERTIFICATE

RESPIRATORY THERAPY 66 [W] 4 UNITS

Prerequisite: High school graduate or approval of a counselor. Respiratory Therapy 65 is prerequisite to 66.

A course designed to give the student the theory and techniques of respiratory therapy. Student therapists will receive instruction in the selection, uses, and care of equipment pertinent to the field of respiratory therapy.

0395–51	MW	7:00–10:00	FENISON, Eddie	26D–306
0395–52	TTH	6:30– 9:30	KOON, Clifford	HOSP

NOTE: Section 52 will meet at Arcadia Methodist Hospital, 300 W. Huntington Drive, Arcadia, CA.

PULMONARY PHYSIOLOGY 90 [W] 4 UNITS

Prerequisite: Open only to graduates of two-year inhalation therapy programs, registered inhalation therapists, and others with approval of the instructor.

The course will include the theoretical aspects of pulmonary physiology as well as the laboratory measurement of lung function. Practical application of techniques learned will be accomplished by using the facilities of a modern pulmonary physiology laboratory.

0400–51	MW	7:00–10:00	MC CLELLAND, Kirk	HOSP

NOTE: This class will meet at City of Hope Medical Center, 1560 E. Duarte Road, Duarte, CA.

NEONATAL INTENSIVE CARE 91 [W] 3 UNITS

Prerequisite: Designed primarily for respiratory therapists and nurses.

A continuing education class in the new specialty of neonatal respiratory care. The course emphasizes neonatal pathophysiologies, etiologies, and ramifications. It encompasses the newest techniques in monitoring equipment used in the treatment and maintenance of the premature infant.

2109–51	TH	7:00–10:00	NELSON, Don	26D–304

RESP THERAPY–REGISTRY CERTIFICATION

ADV RESPIRATORY THERAPY 80B [W] 6 UNITS

Prerequisite: Completion of Advanced Respiratory Therapy 80A with a grade of "C" or better.

This course is a continuation of the Advanced Respiratory Therapy 80A.

1813–51	TTH	6:00– 9:00	PRINCE, John R.	26D–306

AUXILIARY SUBJECTS

MICROBIOLOGY 57 [W] 2 UNITS

Prerequisite: Enrollment in Respiratory Therapy Certificate Program.

Fundamental concepts of microbiology are discussed. Bacteria, fungi, and viruses are studied along with methods of controlling their growth and eradication.

0406–51	T	5:00– 7:00	WARD, Betty A.	13– 1
0406–52	W	5:00– 7:00	WARD, Betty A.	13– 1

HOSPITAL DEPTMENTAL MGMT 60 [W] 3 UNITS

Prerequisite: Graduate of a two-year health occupation program, hospital department head or supervisor.

Designed for heads of department or supervisors in a hospital or clinical setting. Course will cover supervisory training, organizational planning, development, and implementation. To include forecasting and budgeting, measuring productivity, and costs.

1994–51	M	7:00–10:00	BADGER, Kent H.	6–124

ART

INTRO ART APPRECIATION 1 [U] 3 UNITS

This course provides an introduction to art for non-art majors with emphasis upon the fundamentals of visual art forms and their development in the major periods of art history. The course is designed as a general humanities elective.

0537–51	M	7:00–10:00	ARMSTRONG, Sally Ann	15– 1

HISTORY OF ART 5B [U] 3 UNITS

A survey of art demonstrating the relationship of painting, sculpture, and architecture to each other and to the historical period in which they were produced. Fall Semester: Prehistoric through late Gothic; Spring Semester: Early Renaissance through Modern. This course is generally required for transfer art majors.

0540–51	W	7:00–10:00	ARMSTRONG, Sally Ann	15– 1

HISTORY OF BLACK ART 7 [U] 3 UNITS

This course is a study in depth of the movements, influences, and individual artists who have formed the traditions in the art of Africa and black America.

0543–51	M	7:00–10:00	DANIEL, Marlene	1A– 2

HISTORY OF MEXICAN ART 8 [U] 3 UNITS

This course is a study in depth of the movements, influences, and individual artists who have formed the tradition in the art of Mexico and of the Mexican American.

0544–51	W	7:00–10:00	VILLEGAS, Martha H.	1A– 2

BEGINNING DRAWING 15A [U] 2 UNITS

This course is an introduction to basic drawing methods. Emphasis is placed on fundamental drawing skills, graphic structure, composition, exploration of drawing media, and creative expression.

0549–51	W	6:00–10:00	RYERSON, Dwight R.	1B– 2

BEGINNING DRAWING 15B [U] 2 UNITS

This course is an introduction to basic drawing methods. Emphasis is placed on fundamental drawing skills, graphic structure, composition, exploration of drawing media, and creative expression.

0550–51	W	6:00–10:00	RYERSON, Dwight R.	1B– 2

LIFE DRAWING 17A [U] 3 UNITS

This course presents the fundamentals of figure drawing, emphasizing the structure of the human form and the expressive and creative use of drawing media.

0552–51	TTH	7:00–10:00	MC COWAN, Roy	1B– 3

LIFE DRAWING 17B [U] 3 UNITS

This course presents the fundamentals of figure drawing, emphasizing the structure of the human form and the expressive and creative use of drawing media.

0554–51	TTH	7:00–10:00	MC COWAN,Roy	1B– 3

TWO–DIMENSIONAL DESIGN 20 [V] 3 UNITS

This course is an intensive study of the elements, principles, and relationships of two-dimensional organization. Experience with various media is provided.

0562–51	MW	7:00–10:00	PROCTOR, James R.	1A– 4

BEGINNING PAINTING 25A [U] 3 UNITS

This course places emphasis on painting fundamentals as they relate to compositional and technical problems. The student is provided opportunity for exploration of painting media and for expression of individual creativity.

0572–51	MW	7:00–10:00	KNITIG, Carl L.	1B– 4
0572–52	TTH	7:00–10:00	HUETER, James W.	1B– 4

BEGINNING PAINTING 25B [U] 3 UNITS

This course places emphasis on painting fundamentals as they relate to compositional and technical problems. The student is provided opportunity for exploration of painting media and for expression of individual creativity.

0574–51	TTH	7:00–10:00	HUETER, James W.	1B– 4

INTERMEDIATE PAINTING 26A [U] 3 UNITS

Prerequisite: Beginning Painting 25A-25B.

This course emphasizes a working knowledge of painting media. Painting problems are studied in order to broaden the student's knowledge of painting organization.

0575–51	TTH	7:00–10:00	HUETER, James W.	1B– 4

INTERMEDIATE PAINTING 26B [U] 3 UNITS

Prerequisite: Beginning Painting 26A.

This course emphasizes a working knowledge of painting media. Painting problems are studied in order to broaden the student's knowledge of painting organization.

0576–51	TTH	7:00–10:00	HUETER, James W.	1B– 4

BEGINNING CERAMICS 30A [U] 3 UNITS

This course introduces clay materials and techniques of the potter's wheel. The study of form, glazing, firing, and surface enrichment of ceramic objects is included.

0577–51	MW	7:00–10:00	OWEN, Carol Thompson	1A– 10
0577–52	TTH	7:00–10:00	BLOUGH, Jr. John H.	1A– 10

BEGINNING CERAMICS 30B [U] 3 UNITS

Prerequisite: Beginning Ceramics 31A.

This course introduces clay materials and techniques of the potter's wheel. The study of form, glazing, firing, and surface enrichment of ceramic objects is included.

0578–51	MW	7:00–10:00	OWEN, Carol Thompson	1A– 10
0578–52	TTH	7:00–10:00	BLOUGH, Jr. John H.	1A– 10

INTERMEDIATE CERAMICS 31A [U] 3 UNITS

Prerequisite: Beginning Ceramics 30A-30B.

This course examines the problems of aesthetically integrating materials and design by means of advanced problems in the technique of clay construction, glazing, and firing.

0579–51	TTH	7:00–10:00	BLOUGH, Jr. John H.	1A– 10

INTERMEDIATE CERAMICS 31B [U] 3 UNITS

Prerequisite: Beginning Ceramics 31A.

This course examines the problems of aesthetically integrating materials and design by means of advanced problems in the technique of clay construction, glazing, and firing.

0580–51	TTH	7:00–10:00	BLOUGH, Jr. John H.	1A– 10

BIOLOGICAL SCIENCES

ANATOMY AND PHYSIOLOGY

ANATOMY & PHYSIOLOGY 10B [V] 4 UNITS

Prerequisite: Admission to the respiratory therapy or radiological technology program. The course 10A is prerequisite to 10B.

This course presents an integrated systematic study to the structure and function of the human body. Emphasis is placed on the respiratory, skeletal, circulatory, and nervous systems. Abnormalities of the human and comparative anatomy and physiology are incorporated where they elucidate important structural and physiological concepts.

0402–51	M	7:00–10:00 (Lect)	LA GIER, Walter H.	13– 3
	W	7:00–10:00 (Lab)	REINHARD, Ray C.	13– 3

BIOLOGY

GENERAL BIOLOGY 1 [U] 4 UNITS

An introduction to the major principles and concepts of biology, including cellular biology, energy relationships, biological systems, heredity, evolution and ecology.

0623–51	M	6:30– 9:30 (Lect)	THOMAS, J. Robert	13– 7
	W	6:30– 9:30 (Lab)	THOMAS, J. Robert	13– 7
0623–52	M	7:00–10:00 (Lect)	HAWKINS, William R.	14– 9
	W	7:00–10:00 (Lab)	HAWKINS, William R.	14– 11
0623–53	T	7:00–10:00 (Lect)	SCHWAB, Fred	13– 7
	TH	7:00–10:00 (Lab)	DOUTHIT, Jr. John W.	13– 7

HEALTH SCIENCE 1 [U] 2 UNITS

(May be taken for option of letter grade or Credit/No Credit.)

This course presents general health values and concepts underlying the physical, mental, and social well-being of the individual and society. It will include a unit on the use of tobacco, and the physiological and sociological effects of abuse of alcohol, narcotics, and other drugs. This course also fulfills the Health Education Requirement for a teaching credential with the State of California.

0627–51	T	7:00– 9:00	WARD, Betty A.	13– 13
0627–52	W	7:00– 9:00	WINDSOR, James K.	13– 13
0627–53	TH	7:00– 9:00	SANTORUFO, Anthony J.	13– 13

MAN AND THE ENVIRONMENT 6 [U] 3 UNITS

Consideration of ecological concepts which will help in understanding our environmental crisis and which will aid in determining courses of action to correct the problem. Emphasis will be placed on specific problems of population, air and water pollution, preservation of wildlife, wilderness, and open space. An historical appraisal will be made of man's attitudes toward the land and of the necessity of developing a new land ethic.

0655–51	M	6:30– (;30	ABERLE, Kenneth J.	14– 1
0655–52	T	6:30– 9:30	ABERLE, Kenneth J.	13– 3
0655–53	W	7:00–10:00	ADAMS, Elizabeth	14– 1
0655–54	TH	6:30– 9:30	DANCER, John D.	13– 3

HUMAN SEXUALITY 15 [U] 2 UNITS

(May be taken for option of letter grade or Credit/No Credit.)

A survey of the biological, behavioral, and ethical aspects of human sexuality.

0642–51	T	7:00– 9:00	SHAINBERG, Louis W.	14– 7
0642–52	TH	6:00– 8:00	BYER, Curtis	14– 7
0642–53	TH	8:00–10:00	BYER, Curtis	14– 7

ASPIRIN & OTHER MED DRUGS 63 [W] 2 UNITS

(May be taken for option of letter grade or Credit/No Credit.)

The study of current therapeutic drugs with emphasis on drugs that are commonly used to sustain or improve the quality of living. Significant information regarding the therapeutic intent of the various drug groups will be explored. This course will be of special interest to persons working in health-care facilities or to anyone wishing to become an informed member of his own health-care team.

1936–51	M	7:00– 9:00	GRAY, B. Jacquel	14– 7

BUSINESS ADMINISTRATION

ACCOUNTING

PRIN OF ACCOUNTING 6A [V] 4 UNITS

Prerequisite: Business Mathematics 11, or Mathematics of Finance 2, or Mathematical Analysis 15A, or Mathematics 1 or Elementary Statistics 13 with a grade of "C" or better.

This course is an introduction to fundamental accounting theory and procedures for Business Administration and Accounting Majors. It includes the basic structure of accounting; the accounting cycle for a sole proprietorship; notes, prepayments, and accruals; accounting controls; preparation and interpretation of financial statements.

0690–51	M	7:00–10:00	MANAHAN, Peter T.	18– 1
	W	7:00– 9:00	MANAHAN, Peter T.	18– 1
0690–52	T	7:00–10:00	BENSON, Frank D.	18– 13
	TH	7:00– 9:00	BENSON, Frank D.	18– 13

PRIN OF ACCOUNTING 6B [V] 4 UNITS

Prerequisite: Principles of Accounting 6A with a grade of "C" or better.

A study of partnership and corporation accounting, departmental accounting, job process cost accounting, budgets and budgeting, and analysis and interpretation of financial statements.

0691–51	T	6:30– 9:30	PURKHISER, Earl P.	18– 11
	TH	6:30– 8:30	PURKHISER, Earl P.	18– 11
0691–52	M	7:00–10:00	SMITH, George L.	18– 11
	W	7:00– 9:00	SMITH, George L.	18– 11
0691–53	T	7:00– 9:30	DE MIRJYN, Ted Alan	18– 17
	TH	7:00– 9:30	DE MIRJYN, Ted Alan	18– 17

FEDERAL INCOME TAX LAW 58 [W] 3 UNITS

Prerequisite: Accounting 6A-6B, or equivalent experience.

A comprehensive study of the federal and state income tax laws as related to individuals, partnership and corporation taxation including interpretations of recent changes. Emphasis is placed on individual income taxes and related problems in research through the use of a federal tax reporting service.

0693–51	TH	7:00–10:00	COUCH, David W.	26A–112

BASIC BOOKKEEP–ACCOUNT 72 [V] 4 UNITS

Prerequisite: Fundamental Mathematics 68 with a grade of "C" or better; or satisfactory score on the School and College Ability Test or its equivalent, or satisfactory score on the Business Mathematics Test.

This is a fundamentals course designed primarily for two-year business occupational majors, other than Accounting. The bookkeeping cycle for trading or service single proprietorship businesses is included. Completion of a practice set is required. May not be taken for credit if Principles of Accounting 6A has been completed.

0696–51	M	6:30– 9:30	BOYD, Richard E.	18– 17
	W	6:30– 8:30	BOYD, Richard E.	18– 17
0696–52	T	7:00–10:00	CARIN, Oscar O.	14– 11
	TH	7:00– 9:00	CARIN, Oscar O.	14– 11

ECONOMICS

PRIN OF ECONOMICS 1A [U] 3 UNITS

Prerequisite: Sophomore standing. Economics 1A is a prerequisite to Economics 1B.

General characteristics of the economics system of the United States, structural and functional description of basic economic institutions, elementary economic theory, economic problems of present day society and related public policy.

0702–51	T	7:00–10:00	GUYNES, Luther	18– 15
0702–52	TH	7:00–10:00	ROLLO, Robert S.	18– 15

PRIN OF ECONOMICS 1B 3 UNITS

Prerequisite: Sophomore standing. Economics 1A is a prerequisite to Economics 1B.

General characteristics of the economics system of the United States, structural and functional description of basic economic institutions, elementary economic theory, economic problems of present day society and related public policy.

0703–51	M	7:00–10:00	FITZHUGH, Bruce W.	18– 13
0703–52	W	6:30– 9:30	RILEY, Stephen T.	14– 7
0703–53	TH	6:30– 9:30	FORD, James P.	12– 1

GENERAL BUSINESS

BUSINESS MATH 11 [W] 3 UNITS

Prerequisite: Fundamental Business Mathematics 68 with a grade of "C" or better, or satisfactory score on the School and College Ability Test or its equivalent.

This course covers practical applications of percentage, interest, bank discounts, partial payments, installment buying, trade and cash discounts, retail pricing, taxes, and aliquot parts.

0667–51	M	7:00–10:00	RIVERS, Daniel K.	16– 11
0667–52	T	7:00–10:00	LINCOLN, John L.	16– 11
0667–53	T	6:30– 9:30	JEPSEN, Ronald L.	13– 9
0667–54	W	6:30– 9:30	VARNES, Jr. Oliver C.	16– 11
0667–55	TH	7:00–10:00	PHILLIPSEN, James K.	16– 11

NOTE: See Entrance and Placement test dates, page 2 of schedule.

BUSINESS LAW 18 [V] 3 UNITS

Prerequisite: Sophomore standing.

This is a principles course in business law designed primarily for business administration majors. It is an introduction to the legal setting of business, including nature and background of the law, courts and court procedure, contracts, agency, commercial paper, personal property, bailments, and sales.

This basic course is designed for students preparing to enter the field of retail merchandising. It includes a study of current trends and practices, fashion merchandising, merchandise control, selling methods, data processing applications, job opportunities, and other related topics.

0712–51	T	7:00–10:00	SEGROVES, Eddie J.	15– 1
0712–52	W	7:00–10:00	SEGROVES, Eddie J.	26D–102

MARKETING 59 [W] 3 UNITS

This course is a study of the distribution of industrial and consumer goods from the producer to the consumer. It includes channels of distribution, market analysis, buying and selling, pricing, transportation, and other related topics.

1808–51	T	7:00–10:00	GOODBALLET, Robert F.	26D–308
1808–52	TH	7:00–10:00	GOODBALLET, Robert F.	26D–309

SALESMANSHIP 60 [W] 3 UNITS

This course is a study of selling techniques. Use is made of audio-visual aids and actual sales presentations by professional salesmen. A planned sales presentation and sales manual are developed by each student during his course.

0717–51	M	7:00–10:00	HOWARD, Lawrence F.	4–127
0717–52	T	7:00–10:00	GABRIEL, Reuben E.	4–138
0717–53	TH	7:00–10:00	CATHERS, David J.	26D–204

ADV SALESMANSHIP 61 [W] 3 UNITS

Prerequisite: Salesmanship 60 or equivalent course or one year of sales experience.

This course emphasizes the development of professional aspects of selling. Advanced problems and techniques involved in salesmanship are analyzed. Each student gains experience by developing and offering complete sales presentations in the various fields of selling.

0718–51	M	7:00–10:00	CATHERS, David J.	26D–204

SALES MANAGEMENT 62 [W] 3 UNITS

Prerequisite: Salesmanship 60 or one year of full time sales experience.

This course presents a study of sales strategy from the managerial viewpoint. Includes merchandising and distribution policies, forecasting and planning, sales method and campaigns, pricing, sales department organization, management of the sales force, and budgetary control of sales.

0719–51	TH	7:00–10:00	GABRIEL, Reuben E.	4–127

CHECKSTAND OPERATIONS 75 [W] 1 UNIT

This introductory course provides the fundamental skills necessary for a supermarket checker, clerk's helper, or first apprentice. The development of speed and accuracy on the cash register and weighing scales is stressed. Emphasis is placed on preparation for employment in regard to personal qualities, knowledge of store arithmetic, and information and terminology related to supermarket operation.

0725–51	T	7:00–10:00	EHLERS, Patricia L.	16– 13
0725–52	W	7:00–10:00	EHLERS, Patricia L.	16– 13

REAL ESTATE

REAL ESTATE PRINCIPLES 50 [W] 3 UNITS

This introductory course provides fundamental and estate information and assists in preparation for the original State salesman's and broker's license examinations. Included are units in the history of California real estate, real estate licensing and state regulation, property, contracts, agency, listings, real estate financing, deeds, liens and encumbrances, escrows and title insurance and land descriptions.

0743–51	T	7:00–10:00	WILLIAMS, Roger E.	26D–110
0743–52	W	7:00–10:00	DI GREGORIO, Franklin W.	26D–110
0743–53	TH	7:00–10:00	LEVICK, Raymond	26D–110
0743–54	TH	7:00–10:00	WILLIAMS, Roger E.	26D–108
0743–55	S	9:00–12:00	LEVICK, Raymond	26D–112

NOTE: Section 55 meets from 9–12 a.m. on Saturday

LEGAL ASPECTS OF RE 51 [W] 3 UNITS

Prerequisite: Real Estate Principles 50 or employment in the real estate field as a licensee.

A practical study of real estate law designed to help salesmen or brokers become acquainted with legal aspects involving estates, contracts, escrows, liens, community property, deeds, foreclosures, wills, trusts, homesteads, special assessments, and title acquisitions.

0744–51	T	7:00–10:00	REDMON, Daniel W.	12– 1
0744–52	S	9:00–12:00	STEWARD, Robert C.	26D–111

NOTE: Section 52 meets from 9–12 a.m. on Saturday.

REAL ESTATE PRACTICE 52 [W] 3 UNITS

Prerequisite: Real Estate Principles 50 or employment in the real estate field as a licensee.

This course covers office procedures and practices in listings, advertising, prospecting, financing, exchanges, property management, salesmanship, land utilization, and public relations.

0745–51	W	7:00–10:00	BEJARANO, Dario T.	SAN–GABR
0745–52	TH	7:00–10:00	KASPER, Arthur F.	26A–102

REAL ESTATE FINANCE 53 [W] 3 UNITS

Prerequisite: Real Estate Principles 50 or employment in the real estate field as a licensee.

This course is an applied analysis of money markets, interest rates, and real estate financing. Consideration of lending problems and policies, and rules involved in financing real property, including residential, multi-family, commercial, and special purpose properties.

0746–51	W	7:00–10:00	VAGT, Henry E.	26A–109
0746–52	TH	7:00–10:00	GARMAN, Robert	14– 47

REAL EST APPRAISAL 54 [W] 3 UNITS

Prerequisite: Real Estate Principles 50 or employment in the real estate field as a licensee.

A beginning course in real estate appraisal confined largely to residential property with an introduction to investment property valuation.

0747–51	T	7:00–10:00	DUNSIRE, Kenneth J.	15– 13
0747–52	TH	7:00–10:00	DUNSIRE, Kenneth J.	15– 13

RE ECONOMICS 55 [W] 3 UNITS

Prerequisite: Real Estate Principles 50 or employment in the real estate field as a licensee.

This course presents a practical study of international, national, and local conditions and actions that affect the value or determine the price of real estate.

0748–51	W	7:00–10:00	JONES, C. Paul	14– 37
0748–52	TH	7:00–10:00	JONES, C. Paul	14– 33

RE PROPERTY MANAGEMENT 59 [W] 3 UNITS

Prerequisite: Legal Aspects of Real Estate 51.

Designed for property managers and owners interested in the management of income property. This course is a practical approach to the problems of leasing, collections, rent schedules, tenant selection, neighborhood analysis, budget, purchasing, evictions, preventive maintenance, depreciation, record keeping, and economics of income property. Emphasis shall be on residential income and commercial property.

0752–51	M	7:00–10:00	KLEINBACH, Howard W.	26D–110

R E INVEST PLANNING 60 [W] 3 UNITS

Prerequisite: Real Estate Principles 50 or employment in the real estate field as a licensee.

A comprehensive analysis is made of various investment strategies, techniques, systems, and theories involving all forms of real estate. Particular emphasis will be placed on the research methods needed for successful investing.

0753-51	M	7:00–10:00	MAYERFELD, Martin	11– 8

ADV LEGAL ASPECTS OF R E 63 [W] 3 UNITS

Prerequisite: Completion of Legal Aspects of Real Estate 51.

A practical applied study of California real estate law as it relates to specific areas of law beyond the coverage of the basic course.

0756–51	M	7:00–10:00	REDMON, Daniel W.	12– 1

APARTMENT MANAGEMENT 64 [W] 3 UNITS

Successful techniques and practices in the management of residential income property from acquisition to disposal. It includes a study of neighborhood analysis, setting rent schedules, renting, credit, collections, evictions, maintenance and rehabilitation, insurance, tax considerations, depreciation, schedules, pitfalls in the purchase of income property, and other related topics.

0759–51	W	7:00–10:00	KLEINBACH, Howard W.	28D–112

ESCROW

ESCROW PROCEDURE BASIC 76 [W] 3 UNITS

Prerequisite: A minimum grade of "C" in Mathematics 68 and Real Estate Principles 50 or comparable experience.

A case method study of escrow procedure including actual processing of sale escrow both with and without new trust deed financing; familarization with vocabulary of the business; drawing of documents; and other processing details pertinent to handling of escrows from inception to closing. Emphasis is placed on the accounting and mathematics of the escrow.

0761–51	W	7:00–10:00	LEONARD, Gwendolyn T.	26D–202

BUSINESS OFFICE OCCUPATIONS

SECRETARIAL SCIENCE

TYPING BEGINNING 52A [W] 1 UNIT

This course is designed for beginning typewriting students. Aims to develop the basic techniques necessary for the effective use of the typewriter. Included in this course are units in skill development and improvement, correspondence, business forms and reports, manuscripts, and tabulations.

0782–51	T	7:00–10:00	HARRIS, Eleonore D.	17– 13
0782–52	W	7:00–10:00	DE PLEDGE, Donald G.	17– 13
0782–53	TH	7:00–10:00	SIMON, Paul P.	17– 13

TYPING INTERMEDIATE 52B [W] 1 UNIT

Prerequisite: Beginning Typing 52A or equivalent.

A review course in typewriting with emphasis on the further development of speed and accuracy. Production work in the business office is emphasized including letters and carbon copies, preparation of stencils, tables, reports, documents, and business forms.

0783–51	W	6:30– 9:30	LONERGAN, Carmen F.	17– 5

TYPING ADVANCED 52C [W] 1 UNIT

Prerequisite: Typing, Intermediate 52B.

An advanced course in production techniques needed for the output of business letters, manuscripts, tabulations, reports, itineraries, rough drafts, billing, legal and other documents. Prepares students for accuracy standards required by a business office.

0784–51	M	6:30– 9:30	LONERGAN, Carmen F.	17– 5

SHORTHAND BEGINNING 53 [W] 3 UNITS

Prerequisite: Ability to type.

A course in Gregg Diamond Jubilee theory for those who have had no previous shorthand. Development of speed and accuracy at the rate of 60 to 80 words per minute.

0785–51	MW	7:00– 9:30	WAGNER, Judy H.	18– 5
0785–52	MW	7:00– 9:30	JOHNSON, Elizabeth L.	18– 7

SHORTHAND REVIEW 54 [W] 2 UNITS

(May be taken for option of letter grade or Credit/No Credit.)

Prerequisite: Beginning Shorthand 53 or equivalent and ability to type.

An intensive review and skill-building course for the student who has had some shorthand but whose skills are not presently adequate for intermediate shorthand.

0788–51	T	6:30– 9:30	SCHMOLDT, Joy R.	18– 5
0788–52	TH	7:00–10:00	STUBBE, Connie C.	18– 5

SHORTHAND INTERMEDIATE 55 [W] 3 UNITS

Prerequisite: Beginning Shorthand 53 or equivalent with a grade of "C" or better and ability to type.

A course in Diamond Jubilee or Gregg Simplified designed to improve basic shorthand vocabulary and develop speed and accuracy. Upon completion of the course a student should be able to take dictation at speeds in excess of 80 words per minute on new material. Emphasis is placed on the ability to spell, to use English principles correctly, to punctuate accurately and to maintain other acceptable standards as required of secretarial work.

0789–51	TTH	7:00– 9:30	HOLMES, Marie L.	18– 7

LEGAL SECR PROCEDURES 60 [W] 3 UNITS

Prerequisite: Ability to type; Business Law 18 or 57 or may be taken concurrently.

A comprehensive introductory course for prospective legal secretaries with emphasis on legal terminology; legal secretarial ethics; law office procedures followed in the preparation and handling of pleadings and forms in civil actions, family law, landlord and tenant, corporations, and probate proceedings; library arrangement and use; and general procedures for calendaring, handling clients, and recording progress of cases.

1950–51	W	7:00–10:00	COOPER, Mary E,	18– 13

CHEMISTRY

CHEMISTRY 1B [U] 5 UNITS

Prerequisites: (1) One year of high school chemistry with a minimum grade of "C" in each semester; (2) Satisfactory score in the Chemistry Placement Examination; (3) Grade of "C" or better in second-year algebra (may not be taken concurrently with Chemistry 1A). A grade of "C" or better in Chemistry 53 will satisfy prerequisites (1) and (2). Prerequisite for Chemistry 1B is a passing grade in Chemistry 1A.

An intensive course in general chemistry stressing the theory and applications of the fundamental laws and principles of chemistry. Chemical calculations are emphasized. Laboratory techniques are applied to basic fundamentals and laws of chemistry. Second semester laboratory work emphasizes the qualitative scheme of analysis.

0802–51	M	6:00–10:30	PENDLETON, Lynn	11– 7
	W	6:00–10:30	PENDLETON, Lynn	11– 7

CHEMISTRY 53 [V] 4 UNITS

Prerequisite: One year of high school algebra with a minimum grade of "C" in each semester, or Mathematics 51 with a minimum grade of "C."

A beginning course in the fundamentals of general chemistry emphasizing the basic concepts of matter, atomic structure, formula and equation writing, properties of gases, solutions and an introduction to the quantitative aspects of chemistry. This course is specifically designated as a preparation course for students whose curriculum will require Chemistry 1A-1B or who are deficient in high school science.

0812–51	T	7:00–10:00 (Lect)	COOPER, Grant S.	11– 6
	TH	7:00–10:00 (Lab)	COOPER, Grant S.	11– 1
0812–52	T	7:00–10:00 (Lect)	DEV, Barbara	11– 8
	TH	7:00–10:00 (Lab)	DEV, Barbara	11– 10

COMPUTER SCIENCES
DATA PROCESSING

DATA PROCESSING 10A [V] 3 UNITS

Corequisite: Concurrent enrollment in Data Processing Laboratory 70. (Hours may be arranged.)

This is a first semester course in the principles and application of electronic data processing. It is designed for both data processing and non-data processing majors. The student will acquire a basic knowledge of computer elements and their functions; experience in computer program development and testing, including "hands-on" operation of modern on-site computers; and an understanding of the role of the computer in business and society.

0813–51	M	7:00–10:00	CHRISTIANSEN, Sheridith	26D– 6
Corequisite: 2028–51				
0813–52	T	7:00–10:00	TABACK, Leonard	26D–101
Corequisite: 2028–52				
0813–53	W	7:00–10:00	MC CULLOUGH, T. Michael	26D– 2
Corequisite: 2028–53				
0813–54	W	7:00–10:00	COHEN, Sharon	26D–105
Corequisite: 2028–54				
0813–55	TH	7:00–10:00	BARTOLF, Carl A.	26D–112
Corequisite: 2028–55				

DATA PROCESSING 10B [V] 3 UNITS

Prerequisite: Data Processing 10A with a grade of "C" or better or equivalent experience.

This is a second semester course in the principles and application of electronic data processing. This course is designed principally for data processing and computer technology majors. The student will increase his knowledge of computer elements and their functions. Through the study of modern computers and their operating systems, the student will acquire knowledge necessary for the understanding and application of advanced programming languages.

0815–51	M	7:00–10:00	HURBAN, William P.	26D– 4
0815–52	TH	7:00–10:00	PORRETTA, Philip P.	26D– 4

INTRO TO SYSTEMS ANALYSIS 20 [V] 3 UNITS

Prerequisite: Data Processing 10A or equivalent experience. Data Processing 10A may be taken concurrently.

This is a basic course in systems analysis. It is designed for both data processing and non-data processing majors. The student will acquire skills related to creating, controlling, and coping with computer-based information systems. He will gain practical experience ranging from problem definition and evaluation of alternative solutions to system design, development, and operation.

0814–51	T	7:00–10:00	CRAWFORD, John B.	26D– 1
0814–52	W	7:00–10:00	ALTMAN, Robert G.	26D– 4

FORTRAN IV 24 [V] 3 UNITS

Prerequisite: Data Processing 10A with a grade of "C" or better or equivalent experience.

Corequisite: Concurrent enrollment in one unit of Programming Laboratory 71. (Hours may be arranged.)

This is a basic course in programming digital computers using FORTRAN IV as the programming language. The student will acquire skills in program logic, flowcharting, program writing, debugging and documentation. The student will gain practical, hands-on experience using a modern, on-site computer.

0816–51	W	7:00–10:00	LUCAS, Robert A.	26D– 1
Corequisite: 2029–51				

COBOL 26 [V] 3 UNITS

Prerequisite: Data Processing 10A with a grade of "C" or better or equivalent experience.

Corequisite: Concurrent enrollment in one unit of Programming Laboratory 71. (Hours may be arranged.)

This is a basic course in programming digital computers for business applications using ANS COBOL (Common Business Oriented Language). The student will acquire skills in problem definition, flowcharting, output report design, and in fundamental programming techniques. The student will gain practical experience using a modern, on-site computer.

0817–51	T	7:00–10:00	BARTOLF, Carl A.	26D– 2
Corequisite: 2030–51				

RPG II PROGRAMMING 34 [V] 3 UNITS

Prerequisite: Data Processing 10A with a grade of "C" or better or equivalent experience.

Corequisite: Concurrent enrollment in one unit of Programming Laboratory 71. (Hours may be arranged.)

This is a basic course in programming digital computers for business applications using RPG II (Report Program Generator) as the programming language. The student will acquire skills in problem definition, logic, printer spacing chart organization, and multifile processing. The student will gain practical, hands-on experience using a modern, on-site computer.

0819–51	M	7:00–10:00	MC CULLOUGH, T. Michael	26D– 2
Corequisite: 2032–51				

ADVANCED COBOL 36 [V] 3 UNITS

Prerequisite: COBOL 26 and Data Processing 10B each with a grade of "C" or better.

Corequisite: Concurrent enrollment in one unit of Programming Laboratory 71. (Hours may be arranged.)

This course develops the advanced concepts required to be an effective ANS COBOL programmer using magnetic tape and direct access devices. The student will develop and use sequential and indexed files in writing typical business application programs. The student will use a modern, on-site computer.

0821–51	TH	7:00–10:00	CRAWFORD, John B.	26D– 1
Corequisite: 2033–51				

ADV RPG II PROGRAMMING 44 [V] 3 UNITS

Prerequisite: RPG II Programming 34 and Data Processing 10B both with a grade of "C" or better.

Corequisite: Concurrent enrollment in one unit of Programming Laboratory 71. (Hours may be arranged.)

This course develops Advanced RPG II Programming concepts, emphasizing direct access devices. The student will acquire skills in the use of sequential and indexed files, subroutines, chaining of files and table processing. The student will use a modern, on-site computer.

0822–51	TH	7:00–10:00	SPILKER, Robert B.	26D– 2
Corequisite: 2034–51				

DATA PROCESSING LAB 70 [W] .5 UNITS

Corequisite: Concurrent enrollment in Data Processing 10A.

This course is part of a Coordinated Instructional System (CIS). It is designed to complement the lecture material presented in Data Processing 10A.

2028–51	ARRANGE HOURS	CHRISTIANSEN, Sheridith	26D– 5
2028–52	ARRANGE HOURS	TABACK, Leonard	26D– 5
2028–53	ARRANGE HOURS	MC CULLOUGH, T. Michael	26D– 5
2028–54	ARRANGE HOURS	COHEN, Sharon	26D– 5
2028–55	ARRANGE HOURS	BARTOLF, Carl A.	26D– 5

PROGRAMMING LABORATORY 71 [W] 1 UNIT

(May be taken for option of letter grade or Credit/No Credit.)

Corequisite: Concurrent enrollment in one or more programming language courses. One unit of programming laboratory must be taken for each three units of programming coursework.

This course is part of a Coordinated Instructional System (CIS). It is designed to complement the lecture materials presented in programming language coursework.

2029–51	ARRANGE HOURS	LUCAS, Robert A.	26D– 5

PROGRAMMING LABORATORY 71 [W] 1 UNIT

(May be taken for option of letter grade or Credit/No Credit.)

Corequisite: Concurrent enrollment in one or more programming language courses. One unit of programming laboratory must be taken for each three units of programming coursework.

This course is part of a Coordinated Instructional System (CIS). It is designed to complement the lecture materials presented in programming language coursework.

2030–51	ARRANGE HOURS	BARTOLF, Carl A.	26D– 5

PROGRAMMING LABORATORY 71 [W] 1 UNIT

(May be taken for option of letter grade or Credit/No Credit.)

Corequisite: Concurrent enrollment in one or more programming language courses. One unit of programming laboratory must be taken for each three units of programming coursework.

This course is part of a Coordinated Instructional System (CIS). It is designed to complement the lecture materials presented in programming language coursework.

2032–51	ARRANGE HOURS	MC CULLOUGH, T. Michael	26D– 5

PROGRAMMING LABORATORY 71 [W] 1 UNIT

(May be taken for option of letter grade or Credit/No Credit.)

Corequisite: Concurrent enrollment in one or more programming language courses. One unit of programming laboratory must be taken for each three units of programming coursework.

This course is part of a Coordinated Instructional System (CIS). It is designed to complement the lecture materials presented in programming language coursework.

2034–51	ARRANGE HOURS	SPILKER, Robert B.	26D– 5

PROGRAMMING LABORATORY 71 [W] 1 UNIT

(May be taken for option of letter grade or Credit/No Credit.)

Corequisite: Concurrent enrollment in one or more programming language courses. One unit of programming laboratory must be taken for each three units of programming coursework.

This course is part of a Coordinated Instructional System (CIS). It is designed to complement the lecture materials presented in programming language coursework.

2033–51	ARRANGE HOURS	CRAWFORD, John B.	26D– 5

MGMT AND THE COMPUTER 80 [W] 3 UNITS

(May be taken for option of letter grade or Credit/No Credit.)

Prerequisite: A management position in business or industry.

A course for managers who do not have a data processing background. Participants will enhance their ability to cope with the computer and to communicate with computing department personnel. They will develop managerial skills essential to increasing the effectiveness of business applications of computers. Opportunities will be provided for hands-on experience using a modern computer.

1872–51	T	7:00–10:00	GORE, Marvin R.	26D– 4

COMPUTER TECHNOLOGY

INTRO TO COMPUTER LOGIC 80 [W] 3 UNITS

Corequisite: Concurrent enrollment in one unit of Programming Laboratory 71. (Hours may be arranged.)

The basic logic circuit elements used in constructing all modern digital computers are studied. The characteristics of the individual elements and the basic principles of the design and operation of larger portions of computer systems are discussed. The student will acquire knowledge of both combinational and sequential circuits. He also will perform laboratory assignments using a computer simulation system.

1932–51	M	7:00–10:00	LE VIER, Paul W.	26D– 1

PROGRAMMING LAB 71 [W] 1 UNIT

(May be taken for option of letter grade or Credit/No Credit.)

Corequisite: Concurrent enrollment in one or more programming language courses. One unit of programming laboratory must be taken for each three units of programming coursework.

This course is part of a Coordinated Instructional System (CIS). It is designed to complement the lecture materials presented in programming language coursework.

2062–51	ARRANGE HOURS	LE VIER, Paul W.	26D– 5

CONTINUING NURSING EDUCATION

PSYCHIATRIC NURSING CONCEPTS 1 50 [W] **3 UNITS**

Prerequisite: Recommended: RN, LVN, NA

This course will focus on current psychiatric nursing concepts and will provide a basis upon which to implement appropriate nursing care. The course will combine psychological, pharmacological, physiological, psychiatric as well as social factors and how each relates to the development and control of human behavior.

2107–51 M 4:00– 7:00 VAN SLAMBROOK, M. ICHS

NOTE: This class will meet in classroom B, Inter-Community Hospital, 275 W. College, Covina, CA.

INTENSIVE CARE NURSING 1 54 [W] **1.5 UNITS**

Prerequisite: RN or LVN

Basic concepts of nursing care in the Intensive Care Unit. The pathology of various conditions will be presented as well as specific associated nursing techniques.

2144–51 T 12:00– 3:00 VAN SLAMBROOK, M. ICHS

NOTE: This is a short term course. Last class meeting will be March 30, 1976. Class will meet at Inter-Community Hospital, 275 W. College, Covina, CA.

PEDIATRIC INTENSIVE CARE NURSING 56 [W] **1.5 UNITS**

Prerequisite: RN, LVN

The care of the child in an Intensive Care Unit. The pathology of various conditions will be presented as well as specific nursing techniques.

2145–51 T 12:00– 3:00 VAN SLAMBROOK, M. ICHS

NOTE: This is a short term course; starts April 6, 1976, last class meeting June 1, 1976. Class will meet at Inter-Community Hospital, 275 W. College, Covina, CA.

DRAFTING & INDUSTRIAL TECHNOLOGY

DRAFTING AND DESIGN

INTRO TO TECH DRAWING 20 [V] **3 UNITS**

Develops basic drafting skills and the principles involved in technical drawing. Includes lettering, sketching, geometric construction, multiview projection, sectioning, primary auxiliary views, and secondary auxiliary views.

1058–51 TTH 6:30– 9:30 BUSHONG, Herman 28B–310

TECHNICAL DRAWING 21A [V] **2 UNITS**

Prerequisite: One or two years of recent high school drafting or related industrial experience.(Students without previous experience should take Introduction to Technical Drawing 20.)

This course provides basic drafting techniques for industrial technicians and technical drafting and design majors. It includes instrument drawing, geometric construction, sketching, multi-view sectioning, and auxiliary projection.

1059–51 M 6:00–10:00 NIMMO, Loudon 28B–305

TECHNICAL DRAWING 21B [V] **3 UNITS**

Prerequisites: Technical Drawing 21A or Introduction to Technical Drawing 20 or equivalent recent training or industrial experience.

Corequisite: None required. Machinist course and/or Technical Mathematics recommended.

The course is a study of size description as applied to working drawings for shop use. Also all requirements for complete sets of drawings, dimensioning, tolerancing, use of fasteners (screws, pins, etc.) are involved. Types of pictorial drawings are also studied.

1060–51 TTH 6:30– 9:30 RUFF, Olin 28B–301

ARCHITECTURAL DRAFTING 55B [V] **3 UNITS**

Prerequisite: One year of mechanical drafting in high school or one semester in college. 55A is prerequisite to 55B.

A study of architectural nomenclature as applied to the layout and design of buildings. Projects will consist of construction details, floor plans, framing details, elevations, plot plans, and perspective renderings.

1067–51 TTH 7:00–10:00 SPERA, Edmond A. 28B–308

BLPRT READ & SHOP MATH 58 [W] **3 UNITS**

A study of standard drafting room practices as applied to industrial drawings with emphasis on orthographic and auxiliary projection as well as isometric sketching. Group discussions on shop drawings will include projections, the meaning and interpretation of shop symbols, and the application of simple calculations for unknown dimensions.

1070–51 T 7:00–10:00 MAEDA, George 28B–208
1070–52 W 6:30– 9:30 ROHM, Robert F. 28B–208

TECHNICAL ILLUSTRATION 63B [U] **2 UNITS**

Prerequisite: Technical Drawing 21A; or equivalent educational or industrial experience. Technical Illustration 63A is prerequisite to 63B.

This course consists of laboratory and lectures on modern industrial technical illustration. Topics included will be isometric, dimetric, oblique, and perspective drawing. Emphasis on production illustration as it pertains to manufacturing, engineering, interior sketches, and architectural renderings. Techniques in the use of ink, charcoal, pencil, watercolor, and airbrush are included as well as reproduction and visual aids.

1079–51 W 6:00–10:00 GUSTAFSON, Wayne 28B–308

TECHNICAL DESCRIPTIVE GEOMETRY 70 [W] **2 UNITS**

Prerequisite: Technical Drawing 21A or equivalent.

This is a basic course in descriptive geometry which applies the principles of orthographic projection to point, line, plane, auxiliary views, intersection, and development problems encountered in various fields of drafting and design.

1881–51 M 6:00–10:00 MUNDAY, George 28B–301

INTRODUCTION TO DRAFTING AND SKETCHING 90 [V] **1 UNIT**

This course includes freehand sketching and the following subjects: lettering; use of scales; projection; multi-views; oblique, isometric, and perspective sketching; sectional views; auxiliary views; symbols and conventions; revolution.

1089–51 M 7:00–10:00 REUKEMA, John 28B–308

SPECS & UNIF BLDG CODES 82 [W] **3 UNITS**

Prerequisite: Architectural Drafting 55A or equivalent experience.

A study of the form and content of specifications used in architecture and code requirements pertaining to construction and basic knowledge and understanding of building codes.

1984–51 W 7:00–10:00 STAFF 28B–301

CONSTRUCTION INSPECTION & ESTIMATING

INTRO TO CONSTRUCTION 70 [W] **3 UNITS**

This course presents the fundamentals of construction processes, terminology, and procedures. It provides a valuable overview of the construction industry to both men and women who may wish to be employed in a construction office or in a related limited phase of the construction industry.

2111–51 TH 7:00–10:00 WEINBERG, Herb 28B–305

FUND CONSTRUCT INSPECT 87B [W] **3 UNITS**

Prerequisite: Employed as a construction inspector, specification writer, or working in a design office as an associate architect or an engineer in training; or five years in a supervisorial capacity on a static structure project.

This course presents those aspects of construction inspection which are concerned with wooden structures. Included are stress grade lumber, timber, and various codes pertaining to this type of building. The second semester covers those aspects of construction inspection which are concerned with metal structures. Included are topics in stress analysis, metallurgy, welding, and structural steel standards of construction.

0451–51 T 7:00–10:00 BEMMER, Albert J. 26D–107

ENGINEERING TECHNIQUES

MECH DESIGN BY SHORTCUTS 60C [W] **3 UNITS**

Functions of typical system components, comparisons, basic calculations, design precautions, pressure characteristics. Cylinders, pumps, valves, reservoirs, filters, gages, shock surges, accumulators, cavitation, troubles and remedies, schematic operation cost comparisons. Liquid and gas flow calculations, pressure drop, line sizes, seals, O-Ring dimensioning.

1137–51 M 7:00–10:00 PRINCE, Warren V. 28B–204

MECH DESIGN BY SHORTCUTS 60D [W] **3 UNITS**

Gear fundamentals, selection of types. Backlash, load calculations, load thrust, speed limitations, lubrication, material selection, "change-gears," calculating for exact ratios. V-Belts,"Timing Belts," sprockets, chains. Tapers, surface finish, establishing fits and tolerances. Selection of metals and heat treatments, cracking, warping, welding.

1138–51 W 7:00–10:00 PRINCE, Warren V. 28B–204

INDUSTRIAL SUPERVISION

W E INDUSTRIAL SUPERVISN 95 [W] **1 UNIT**

(May be taken for Credit/No Credit only.)

(May be taken four times for credit.)

Prerequisite: Approval of Work Experience coordinator. (See "Work Experience" in Section IV of the General Bulletin.)

This course is designed to combine actual job experience in industrial supervision with related classroom instruction. Five (5) hours per week per semester of supervised employment is required for each unit of credit.

2005–51 MTWTH 6:00– 6:30 BULL, Thomas W. 28A–101B

W E INDUSTRIAL SUPERVISN 96 [W] **2 UNITS**

(May be taken for Credit/No Credit only.)

(May be taken four times for credit.)

Prerequisite: Approval of Work Experience coordinator. (See "Work Experience" in Section IV of the General Bulletin.)

This course is designed to combine actual job experience in industrial supervision with related classroom instruction. Five (5) hours per week per semester of supervised employment is required for each unit of credit.

2006–51 MTWTH 6:00– 6:30 BULL, Thomas W. 28A–101B

W E INDUSTRIAL SUPERVISN 97 [W] **3 UNITS**

(May be taken for Credit/No Credit only.)

(May be taken four times for credit.)

Prerequisite: Approval of Work Experience coordinator. (See "Work Experience" in Section IV of the General Bulletin.)

This course is designed to combine actual job experience in industrial supervision with related classroom instruction. Five (5) hours per week per semester of supervised employment is required for each unit of credit.

2007–51 MTWTH 6:00– 6:30 BULL, Thomas W. 28A–101B

W E INDUSTRIAL SUPERVISN 98 [W] 4 UNITS

(May be taken for Credit/No Credit only.)

(May be taken four times for credit.)

Prerequisite: Approval of Work Experience coordinator. (See "Work Experience" in Section IV of the General Bulletin.)

This course is designed to combine actual job experience in industrial supervision with related classroom instruction. Five (5) hours per week per semester of supervised employment is required for each unit of credit.

2008–51	MTWTH	6:00– 6:30	BULL, Thomas W.	28A–101B

ELEMENTS OF SUPEVISN 100 [W] 3 UNITS

This course is designed to train men and women for industrial and business leadership; to develop techniques in meeting administrative, organizational, labor and human relations problems; to assist students to understand basic human attitudes; and to profit from the experience of others in the elements of supervising.

1151–51	T	7:00–10:00	MAZOUCH, Robert J.	26D–307
1151–52	W	7:00–10:00	RAYCE, Robert P.	12– 1
1151–53	W	7:00–10:00	CECCHI, Louis F.	4–127
1151–54	TH	7:00–10:00	KENNEDY, Charles A.	26D–103
1151–55	M	7:00–10:00	FROST, Richard H.	26D–304

BASIC PSY FOR SUPERV 101 [W] 3 UNITS

This course is designed to give a basic concept of human engineering with emphasis on the application of current principles and practices in industrial psychology. It will include a study of necessary liaison between line and staff supervisors. This course meets our graduation requirements for psychology.

1152–51	T	7:00–10:00	PICELLA, Mark V.	28B–210
1152–52	W	7:00–10:00	PICELLA, Mark V.	28B–210
1152–53	TH	7:00–10:00	HOUSEHOLDER, Jack V.	28B–210
1152–54	M	7:00–10:00	HOUSEHOLDER, Jack V.	28B–210

HUMAN RELA FOR SUPERV 102 [W] 3 UNITS

To show how to improve supervision by the use of basic psychology in building better employer-employee relationships through human relation techniques.

1153–51	W	7:00–10:00	LEACH, Franklin	11– 8
1153–52	TH	7:00–10:00	GAUTREAU, Edgar	11– 8

SUPV RESP FOR PRS MGMT 103 [W] 3 UNITS

This course is designed to develop an understanding of personnel techniques for which the supervisor is responsible; included are recruitment selection, placement, testing, orientation, job training, counseling, merit rating, promotion, transfer, and training for responsibility.

1154–51	W	7:00–10:00	GUTHREY, Delparde R.	28B–201

ORG & MGMT FOR SUPERV 104 [W] 3 UNITS

Prerequisite: Elements of Supervision 100 recommended.

This course is designed to improve the supervisor's ability to plan, organize, direct, control and coordinate. It emphasizes these basic functions of an organization and its responsibility in carrying out these objectives in accordance with the organization's plans. Establishing lines of authority, functions of departments or units, duties and responsibilities, policies and procedures, and rules and regulations.

1155–51	M	6:30– 9:30	CLINE, Dean W.	11– 6
1155–52	W	7:00–10:00	LOVELESS, William L.	11– 6

LABOR MGMT RELATIONS 105 [W] 3 UNITS

Prerequisite: Elements of Supervision 100 recommended.

Labor union history, public policy, significant labor laws and enforcement structures, preparation for and basic issues in collective bargaining, arbitration of labor disputes, and day to day administration of a labor contract.

1156–51	TH	7:00–10:00	JENSEN, Milo D.	11– 6

WORK SIMPLIFICATION 107 [W] 3 UNITS

Analysis and review of the basic principles of work simplification. Application of the techniques to the solution of everyday problems in discarding or replacing outmoded systems, eliminating unnecessary work or detail, and in simplifying essential records and reports. Motion economy through use of process analysis, flow diagram, space layout, methods, engineering and work measurement studies.

1157–51	W	7:00–10:00	GEBHARDT, John W.	16– 9

ORAL COMM FOR SUPERV 108 [W] 3 UNITS

The course covers various methods of communication. It stresses effective speaking and listening. Instruction and practice in conference leading of supervisors will be stressed.

1158–51	M	7:00–10:00	NESBIT, Richard A.	4–138

WRIT COMM FOR SUPERV 109 [W] 3 UNITS

The course covers the review of writing mechanics including grammar, sentence structure, and paragraph structure. Instruction is given in the principles of business letter writing including planning and dictating letters. The course also covers planning and executing of reports, bulletins, memos, and manuals. Covers format, content, and structure.

1159–51	W	7:00–10:00	URBAN, William T.	26D–109
1159–52	TH	7:00–10:00	URBAN, William T.	26D–109

PRODUCTION CONTROL 114 [W] 3 UNITS

Organization of production control and its relationship to the other departments, the company and the product, production planning, scheduling, cost control, order release and control, dispatching, stores and stock control, tool control and other associated services as it applies to different types of business and products.

1161–51	T	7:00–10:00	BRADLEY, Robert G.	4–127

INDUSTRIAL PURCHASING117 [W] 3 UNITS

A study of purchasing organization, practices and procedures and their adaption to various types of sizes of business. Case studies of typical purchasing problems. Purchasing as a function of "Material Management" and its relationship to other departmental functions and to company management. Purchasing as a "Profit Making Function."

1163–51	M	7:00–10:00	CARRAS, Denos J.	26D–109

TECH OF REPORT WRITING 119 [W] 3 UNITS

This course is designed to help those in business and industry who have reporting jobs to do. It stresses the need for clear, concise communication in all reports and covers various ways of achieving this goal. A practical approach to writing is presented that will give more effective reports in less time.

1164–51	TH	7:00–10:00	MAZOUCH, Robert J.	4–223

SUPER OF MINORITY WORKERS 120 [W] 3 UNITS

A study of problems relating to the hiring and supervision of minority group employees. Included is a background of the legislative acts involved in the development of Equal Employment Opportunities for minority groups.

1165–51	W	6:30– 9:30	BONILLAS, Edmund T.	26D–310
1165–52	T	6:30– 9:30	BONILLAS, Edmund T.	14– 1

METALLURGY

BASIC METALLURGY 51 [W] 3 UNITS

Prerequisite: A high school or college course in chemistry or related industrial experience.

This course provides a background of basic metallurgical information for engineering technicians, laboratory technicians, and personnel involved in quality control, welding, and metal working. Metallurgical principles and practices will be applied during lecture demonstration periods.

1195–51	W	7:00–10:00	CONTI, Ronald J.	15– 13

METRIC SYSTEM

THE METRIC SYSTEM 60 [W] 2 UNITS

(May be taken for option of letter grade or Credit/No Credit.)

Introduction and familiarization with the international Metric System (SI). Background of measuring systems and conventions, both ancient and modern. Legal status of metric system today. Application of metrics to engineering, building trades, consumer items, home economics, clothing, the office, home and factory.

1959–51	W	7:00– 9:00	WOOD, George W.	26D–307

OCCUPATIONAL SAFETY

INTRO OCCUP SAFETY HEALTH 50 [W] 3 UNITS

An introduction to the principles of occupational safety and health. A survey course covering the basic principles and techniques. Required for occupational safety and health majors and suitable for management and supervisory certificate students.

0483–51	M	7:00–10:00	COOK, Gilbert L.	26D–104

SAFETY HEALTH STANDARDS 51 [W] 3 UNITS

Prerequisite: Introduction to Occupational Safety and Health 50. May be taken concurrently.

A review of the important occupational safety and health standards and codes with particular emphasis on application of these codes to typical work situations.

0484–51	TH	7:00–10:00	RIPPLE, John E.	16– 7

PHYSICAL HAZARD CONTROL 52B [W] 3 UNITS

Prerequisite: Physical Hazards Control 52A.

Continuation of Physical Hazards Control 52A. An examination of the control of physical hazards in the work environment.

0486–51	W	7:00–10:00	RIPPLE, John E.	16– 7

ELEM INDUSTRIAL HYGIENE 53 [W] 3 UNITS

A basic introduction to the field of industrial hygiene. A survey of the effects of toxic agents on the body and general methods of control.

0487–51	M	7:00–10:00	LATTA, Carl B.	16– 1

WORKERS COMPENSATION LAW 65 [W] 3 UNITS

A presentation of the basic elements of Worker's Compensation Law in California, including landmark cases and the operation of the Worker's Compensation Appeals Board.

1809–51	TH	7:00–10:00	COOK, Gilbert L.	26D–104

W E OCCUPATIONAL SAFETY 95 [W] 1 UNIT

(May be taken for Credit/No Credit only.)

(May be taken four times for credit.)

Prerequisite: Approval of Work Experience coordinator. (See "Work Experience" in Section IV of the General Bulletin.)

This course is designed to combine actual job experience in occupational safety with related classroom instruction. Five (5) hours per week per semester of supervised employment is required for each unit of credit.

2096–51	MTWTH	6:00– 6:30	BULL, Thomas W.	28A–101B

W E OCCUPATIONAL SAFETY 96 [W] 2 UNITS

(May be taken for Credit/No Credit only.)

(May be taken four times for credit.)

Prerequisite: Approval of Work Experience coordinator. (See "Work Experience" in Section IV of the General Bulletin.)

This course is designed to combine actual job experience in occupational safety with related classroom instruction. Five (5) hours per week per semester of supervised employment is required for each unit of credit.

2097–51	MTWTH	6:00– 6:30	BULL, Thomas W.	28A–101B

W E OCCUPATIONAL SAFETY 97 [W] 3 UNITS

(May be taken for Credit/No Credit only.)

(May be taken four times for credit.)

Prerequisite: Approval of Work Experience coordinator. (See "Work Experience" in Section IV of the General Bulletin.)

This course is designed to combine actual job experience in occupational safety with related classroom instruction. Five (5) hours per week per semester of supervised employment is required for each unit of credit.

2098–51 MTWTH 6:00– 6:30 BULL, Thomas W. 28A–101B

W E OCCUPATIONAL SAFETY 98 [W] 4 UNITS

(May be taken for Credit/No Credit only.)

(May be taken four times for credit.)

Prerequisite: Approval of Work Experience coordinator. (See "Work Experience" in Section IV of the General Bulletin.)

This course is designed to combine actual job experience in occupational safety with related classroom instruction. Five (5) hours per week per semester of supervised employment is required for each unit of credit.

2099–51 MTWTH 6:00– 6:30 BULL, Thomas W. 28A–101B

QUALITY CONTROL

ELEM OF QUALITY CNTRL 50 [W] 3 UNITS

This survey course is designed to present the function of quality control in industry. Modern concepts and techniques will be studied in relation to manufacturing requirements and current technological developments.

1201–51 M 7:00–10:00 CONNOR, Dale R. 28B–209

QC INSPECTION & TEST 51 [W] 3 UNITS

A comprehensive study of inspection and testing concepts and methods. Topics include inspection and test requirements, records, mechanical measuring equipment, test equipment, use of sampling plans, and inspection techniques used in various manufacturing processes.

1202–51 W 7:00–10:00 CONNOR, Dale R. 28B–209

QUAL CONTROL PLANNING 52 [W] 3 UNITS

This course presents the various aspects of planning for quality. Topics include documentation review, supplier quality requirements, evaluation and control of manufacturing processes, inspection equipment, classification of characteristics and defects and preparation of procurement, manufacturing, and shipping inspection planning.

1203–51 T 7:00–10:00 DYNES, George A. 26D–310

PRINCS OF RELIABILITY 54 [W] 3 UNITS

This course presents the fundamental concepts of modern reliability theory and their application to quality control. Topics included are basic probability, important statistical distributions, the relationship of reliability to maintainability and availability, principles of reliability design, analysis of reliability data, and reliability specifications.

1205–51 TH 7:00–10:00 REED, George A. 28B–208

FUND OF NONDESTRUCT TEST 55 [W] 3 UNITS

This course presents principles, practices, and demonstrations of the most useful techniques used in non-destructive testing. The course includes familiarization with liquid penetrant, magnetic particle, ultrasonic, eddy-current, and radiographic testing methods.

1206–51 M 7:00–10:00 PETERSON, Robert M. 28B–203

W E IN QUALITY CONTROL 95 [W] 1 UNIT

(May be taken for Credit/No Credit only.)

(May be taken four times for credit.)

Prerequisite: Approval of Work Experience coordinator. (See "Work Experience" in Section IV of the General Bulletin.)

This course is designed to combine actual job experience in quality control with related classroom instruction. Five (5) hours per week per semester of supervised employment is required for each unit of credit.

2009–51 MTWTH 6:00– 6:30 BULL, Thomas W. 28A–101B

W E IN QUALITY CONTROL 96 [W] 2 UNITS

(May be taken for Credit/No Credit only.)

(May be taken four times for credit.)

Prerequisite: Approval of Work Experience coordinator. (See "Work Experience" in Section IV of the General Bulletin.)

This course is designed to combine actual job experience in quality control with related classroom instruction. Five (5) hours per week per semester of supervised employment is required for each unit of credit.

2010–51 MTWTH 6:00– 6:30 BULL, Thomas W. 28A–101B

W E IN QUALITY CONTROL 97 [W] 3 UNITS

(May be taken for Credit/No Credit only.)

(May be taken four times for credit.)

Prerequisite: Approval of Work Experience coordinator. (See "Work Experience" in Section IV of the General Bulletin.)

This course is designed to combine actual job experience in quality control with related classroom instruction. Five (5) hours per week per semester of supervised employment is required for each unit of credit.

2011–51 MTWTH 6:00– 6:30 BULL, Thomas W. 28A–101B

W E IN QUALITY CONTROL 98 [W] 4 UNITS

(May be taken for Credit/No Credit only.)

(May be taken four times for credit.)

Prerequisite: Approval of Work Experience coordinator. (See "Work Experience" in Section IV of the General Bulletin.)

This course is designed to combine actual job experience in quality control with related classroom instruction. Five (5) hours per week per semester of supervised employment is required for each unit of credit.

2012–51 MTWTH 6:00– 6:30 BULL, Thomas W. 28A–101B

RELATED TECHNICAL SUBJECTS

TECHNICAL MATHEMATICS 70B [W] 3 UNITS

Prerequisite: 70A is prerequisite to 70B.

A study of the application of mathematical principles designed for students preparing for various fields of technology. The course is directed specificially to the goal of providing a mathematical background which will be of the greatest value in technical studies. The five major sections are arithmetic, geometry, algebra, logarithms and trigonometry. Stress will be placed on graphical presentations of problems.

1189–51 T 7:00–10:00 LOWRANCE, Jr. William E. 28B–204
1189–52 TH 7:00–10:00 LOWRANCE, Jr. William E. 28B–204

SURVEYING

SURVEYING 50B [W] 3 UNITS

Prerequisite: The courses are sequentially prerequisite or equivalent experience.

A three-year course designed to prepare the student to become a chief of surveying party. To this end it also includes training for qualification as rodman, chainman, instrument man, and grade checker.

0501–51 TH 6:00–10:00 MARTENS, Gordon P. 4–138

WATER TECHNOLOGY

WATER SUP HYD INTER 51 [W] 3 UNITS

Prerequisite: Water Supply and Treatment (Basic) 50.

A course in practical water supply hydraulics with emphasis on type, location, construction, maintenance, operation, and testing of various water distribution systems.

0509–51 M 7:00–10:00 POPICHAK, Michael 16– 9

BASIC FUNDA HYD & PNEU 53B [W] 3 UNITS

Prerequisite: Basic Fundamentals of Hydraulics and Pneumatics 53A.

This course presents basic information required for system design, component selection, component installation, and operation. Includes the application of physics to fluid power technology.

0513–51 TH 7:00–10:00 POPICHAK, Michael 16– 9

WATER DISTRIBUTION 57 [W] 3 UNITS

A basic course in water supply and distribution including water sources, valves, pipes, meters, hydrants, the operation of pumps and motors, and water system installations. Prepares the student for the Grades I and II A.W.W.A. California Section Water Distribution Certification.

0518–51 W 7:00–10:00 ROGERS, Duane S. 20– 7

INDUST WATER POLLUTION 58 [W] 3 UNITS

A study of water borne waste arising from industrial discharge of waste effluent into the sanitary sewer and storm drain systems. Emphasis will be placed on effluent detection and treatment, maintenance of industrial waste facilities, plant operation, and the effect of effluents on human and marine life.

0519–51 TH 7:00–10:00 LISAK, Paul 26D–102

W E IN WATER TECHNOLOGY 98 [W] 4 UNITS

(May be taken for Credit/No Credit only.)

(May be taken four times for credit.)

Prerequisite: Approval of Work Experience coordinator. (See "Work Experience" in Section IV of the General Bulletin.)

This course is designed to combine actual job experience in water technology with related classroom instruction. Five (5) hours per week per semester of supervised employment is required for each unit of credit.

2095–51 MTWTH 6:00– 6:30 BULL, Thomas W. 28A–101B

ELECTRONICS & ELECTRO–MECHANIC

AIR CONDITIONING, HEATING & REFRIG

HEAT & AIR COND THEORY 51 [W] 3 UNITS

Prerequisite: Heating and Air Conditioning Theory 50. Heating and Air Conditioning Laboratory 50L.

Corequisite: Heating and Air Conditioning Laboratory 51L.

A study of the basic operations of air conditioning cooling systems, installation and charging with refrigerants, electric air conditioning, components, safety controls, heat load calculations and psychrometrics.

1141–51 M 7:00–10:00 FRANKLIN, Harry 28B–207

HEAT & AIR COND LAB 51L [W] 2 UNITS

Corequisite: Heating and Air Conditioning Theory 51.

Experiments in the testing of air conditioning and refrigeration systems, evacuating, drying, and charging of systems. Assembly and soldering of a refrigerant piping. Hot water and chilled water piping installation. Boilers and oil burners.

1142–51	TTH	7:00–10:00	SMITH, Francis D.	28B– 2

PRINC OF HEAT & AIR DISTR 53 [W] 3 UNITS

Corequisite: Heating and Air Conditioning 50.

This course covers the basic design and application of heat distribution including duct sizing for warm air systems, blower performances, heating and cooling coils, heating boilers, radiators and convectors, and steam, condensate, and hot water piping.

1144–51	TH	7:00–10:00	LEE, Johnnie B.	28B–206

HEAT AIR COND ELECTRIC TH 54 [W] 3 UNITS

A study of current limiting devices, motor controller, wiring methods, motors and power distribution as applied to refrigeration and air conditioning.

1145–51	W	7:00–10:00	STAFF	28B–206

REFRIGERATION THEORY 61 [W] 2 UNITS

Corequisite: Refrigeration Laboratory 61L.

The theory of the construction, maintenance, and service of refrigeration equipment in relation to refrigerants, refrigerant oils, piping, installation procedures, multiple systems, and trouble shooting.

1941–51	T	7:00– 9:00	BORMANN, Jay Paul	26A–107

REFRIGERATION LABORATORY 61L [W] 1 UNIT

Corequisite: Refrigeration Theory 61.

Practice in construction, maintenance, and service of refrigeration equipment.

1942–51	M	6:00–10:00	BORMANN, Jay Paul	28B– 2

REFRIGERATION CONTROLS 62 [W] 2 UNITS

Corequisite: Refrigeration Theory 60 and Refrigeration Laboratory 60L.

A comprehensive study of control devices commonly associated with refrigeration.

1943–51	W	7:00–10:00	STAFF	28B– 2

HEAT & AIR COND WATER TR 63 [W] 3 UNITS

Basic concepts of testing, evaluating, and categorizing the different types of waters as used in air conditioning and heating. The operation, installation, and maintenance of pumps, feeders, automated water chemists, and start-up of water treatment equipment and systems. Analyzing water by use of Langelier Saturation Index Chart.

2102–51	W	7:00–10:00	FRANKLIN, Harry	28B–207

HEATING AIR CONDITION 81B [W] 3 UNITS

Prerequisite: Experience in the trade. 81A is prerequisite to 81B.

A study of thermodynamic processes, equipment and associated controls in reference to an air conditioning system. Usage and functional characteristics of heat, heat transfer, heat loads, psychrometric chart, refrigeration cycle, flow of fluids, air and refrigerant handling equipment and selection of components to develop a balanced refrigeration and air distribution system.

0468–51	M	7:00–10:00	DE KREEK, Gerrit	28B–201

REFRIG & AIR CONDITION 82B [W] 3 UNITS

Prerequisite: Experience in the trade. 82A is prerequisite to 82B.

This course is offered for journeymen and refrigeration mechanics who desire additional technical information concerning refrigeration systems. Instruction is given in refrigerant properties, refrigeration cycle controls, evaporation, condensors, pumps, compressors, piping, fittings, air handling, installation, motors, and safety.

0470–51	TH	7:00–10:00	LAUSHKIN, Nikolai	28B–209

AUTO CONTROLS, AIR CONDIT 83B [W] 3 UNITS

Prerequisite: Heating and Air Conditioning 81A-81B or Refrigeration and Air Conditioning 82A-82B or one year's experience in the trade.

This course present the fundamental principles of automatic air conditioning control systems. It includes the study of the construction, design, operation, service, and repair of electric and pneumatic controls. The theory and operation of zone control systems are also included.

0472–51	TH	7:00–10:00	DU BREUIL, Billy M.	28B–404

W E AIRCOND HEAT REFRIG 97 [W] 3 UNITS

(May be taken for Credit/No Credit only.)

(May be taken four times for credit.)

Prerequisite: Approval of Work Experience coordinator. (See "Work Experience" in Section IV of the General Bulletin.)

This course is designed to combine actual job experience in air conditioning, heating, and refrigeration operations with related classroom instruction. Five (5) hours per week per semester of supervised employment is required for each unit of credit.

1999–51	MTWTH	6:00– 6:30	BULL, Thomas W.	28A–101B

W E AIRCOND HEAT REFRIG 98 [W] 4 UNITS

(May be taken for Credit/No Credit only.)

(May be taken four times for credit.)

Prerequisite: Approval of Work Experience coordinator. (See "Work Experience" in Section IV of the General Bulletin.)

This course is designed to combine actual job experience in air conditioning, heating, and refrigeration operations with related classroom instruction. Five (5) hours per week per semester of supervised employment is required for each unit of credit.

2000–51	MTWTH	6:00– 6:30	BULL, Thomas W.	28A–101B

BASIC ELECTRONICS 50B [V] 3 UNITS

Prerequisite: Basic Electronics 50A, 50AL, and Electronics Math 65A or consent of the instructor. Concurrent enrollment in Basic Electronics Laboratory 50BL and Electronics Math 65B.

This course emphasizes alternating current theory. Inductance, capacitance, impedance, filters, resonance, and their use in passive networks are also stressed.

1098–51	T	7:00–10:00	EWBANK, Edward K.	28B–212
1098–52	TH	7:00–10:00	EWBANK, Edward K.	28B–212

BASIC ELECTRONICS LAB 50BL [V] 1 UNIT

Prerequisite: Concurrent enrollment in Basic Electronics 50B and Electronics Mathematics 65B.

Included in this course are laboratory experiments in inductance, capacitance, and resonance. The use of the oscilloscope, vacuum tube voltmeter, volt-ohm meter, and radio frequency generators is stressed.

1099–51	M	6:30– 9:30	ELLIS, Jr. Haynes	28B–405
1099–52	T	6:30– 9:30	DEVALL, Charles F.	28B–405
1099–53	W	6:30– 9:30	ELLIS, Jr. Haynes	28B–405
1099–54	TH	6:30– 9:30	DEVALL, Charles F.	28B–405

TRANS CIRC ANALYSIS 52 [V] 3 UNITS

Prerequisite: Basic Electronics 50, 50L and Mathematics of Electronics 71A. Concurrent enrollment in 52L and Mathematics of Electronics 71B. Computer electronics majors are not required to take Mathematics of Electronics 71B.

Emphasis is placed on transistor and semi-conductor theory as it relates to practical circuit applications of power supplies, amplifiers, oscillators, modulators, and special circuits. Circuit parameters peculiar to transistors are covered.

1102–51	W	7:00–10:00	BRANIGAN, John T.	28B–404

TRANS CIRC ANAL LAB 52L [V] 1 UNIT

Prerequisite: Concurrent enrollment in Transistor Circuits 52.

Laboratory experiments are conducted to prove transistor theory and to familiarize the technician with special techniques of measurements and operation related to transistor circuits. Trouble-shooting techniques are introduced.

1103–51	T	6:30– 9:30	DYER, Walter E.	28B–401
1103–52	TH	6:30– 9:30	DYER, Walter E.	28B–401

MICROWAVE THEORY 55 [V] 3 UNITS

Prerequisite: Electronics 53 and 53L. Concurrent enrollment in 55L.

This course is a study of microwave, transmission lines, antennas, cavity resonators, wave guides, pulse circuit networks, duplexers, loran, radar, and other electronic navigational devices.

1108–51	T	7:00–10:00	VELEY, Victor	28B–404

MICROWAVE LAB 55L [V] 1 UNIT

Prerequisite: Concurrent enrollment in Microwave Theory 55.

Laboratory experiments consist of microwave measurements, calibration of loran equipment, use of special test equipment. Smith Charts, and antenna field strength measurements using industrial type microwave systems.

1109–51	TH	6:30– 9:30	VELEY, Victor	28B–410

SEMI–CONDUCTORS 62B [W] 3 UNITS

Prerequisite: Knowledge of A.C. and D.C. circuitry theory and vacuum tube circuits. Semi-Conductors 62A is prerequisite to 62B.

This course covers semi-conductor materials and processes, diodes and PN junction, junction transistors, small signal equivalent circuits, small signal amplifiers, and bias stabilization.

The second semester covers transistor and diode application in switching and wave-forming circuitry.

1117–51	T	7:00–10:00	WALTHER, Henry J.	28B–206

INTEGRATED CIRCUITS 65B [W] 3 UNITS

Prerequisite: Integrated Circuits 65A or equivalent experience.

Included in this course are integrated circuits commonly found in computers. Areas included are A/D and D/A converters and operational amplifiers.

1121–51	TH	7:00–10:00	BRANIGAN, John T.	28B–201

W E ELECTRONICS 70 [W] 1 UNIT

(May be taken for Credit/No Credit only.)

(May be taken four times for credit.)

Prerequisite: Approval of Work Experience supervisor and compliance with Work Experience regulations as designated in Section IV of the General Bulletin.

This course is designed to combine actual job experience in electronics with related classroom instruction. This work experience may be during a regular semester or during a summer session on the Alternate Semester Plan. Ninety clock hours of supervised work is required for each one unit of credit.

1122–51	ARRANGE HOURS		STAFF	28B–406

W E ELECTRONICS 71 [W] 2 UNITS

(May be taken for Credit/No Credit only.)

(May be taken four times for credit.)

Prerequisite: Approval of Work Experience supervisor and compliance with Work Experience regulations as designated in section IV of the General Bulletin.

This course is designed to combine actual job experience in electronics with related classroom instruction. This work experience may be during a regular semester or during a summer session on the Alternate Semester Plan. Ninety clock hours of supervised work is required for each one unit of credit.

1123–51	ARRANGE HOURS		STAFF	28B–406

W E ELECTRONICS 72 [W] 3 UNITS

(May be taken for Credit/No Credit only.)

(May be taken four times for credit.)

Prerequisite: Approval of Work Experience supervisor and compliance with Work Experience regulations as designated in Section IV of the General Bulletin.

This course is designed to combine actual job experience in electronics with related classroom instruction. This work experience may be during a regular semester or during a summer session on the Alternate Semester Plan. Ninety clock hours of supervised work is required for each one unit of credit.

1124–51		ARRANGE HOURS	STAFF	28B–406

W E ELECTRONICS 73 [W] 4 UNITS

(May be taken for Credit/No Credit only.)

(May be taken four times for credit.)

Prerequisite: Approval of Work Experience supervisor and compliance with Work Experience regulations as designated in Section IV of the General Bulletin.

This course is designed to combine actual job experience in electronics with related classroom instruction. This work experience may be during a regular semester or during a summer session on the Alternate Semester Plan. Ninety clock hours of supervised work is required for each one unit of credit.

1125–51		ARRANGE HOURS	STAFF	28B–406

ELECTRONICS MATHEMATICS

ELECTRONICS MATHEMATICS 65B [W] 2 UNITS

Prerequisite: Electronics Mathematics 65A or equivalent. Concurrent enrollment in Basic Electronics 50B.

The mathematics of alternating current circuits is presented. Topics included are alternating current fundamentals, inductance, capacitance, resonance, filters and alternating current circuit analysis.

1187–51	M	7:00– 9:00	UNCK, Warren	28B–212
1187–52	W	7:00– 9:00	UNCK, Warren	28B–212

ELECTRONIC SERVICE TECHNOLOGY

SURVEY OF ELECTRONICS 90 [W] 3 UNITS

This course is a basic orientation of the general field of electronics as used throughout industry. Basic electricity, magnetism, D.C. and A.C., transistors, transmitters and receivers, and television are studied.

1134–51	M	7:00–10:00	STAFF	28B–404

COMMUNICATIONS, TELEPHONIC

TELE AUTO TOLL TICKETING 66B [W] 3 UNITS

Prerequisite: Telephone and Electrical Communications 60A-60B or one year's experience with automatic switching equipment.

This course includes the study of schematic circuitry and its related functions pertaining to automatic ticketed calls.

0460–51	T	7:00–10:00	DENEEN, Jack V.	26A–108

ELECTRONIC TELE SWITCHING 67B [W] 3 UNITS

Prerequisite: Previous telephone or electrical communication experience. 67A is prerequisite to 67B.

This course presents an introduction to the theory and concept of electronic switching devices in central and private branch exchanges. The concepts and devices explored consist of switching algebra postulates, transistorized electronic gates, core memory switching and scanning, counting, connecting circuits and systems.

0462–51	TH	7:00–10:00	DENEEN, Jack V.	26D–107

ELECTRICAL POWER DISTRIBUTION

ELECTRICAL POWER DISTR 50B [W] 3 UNITS

Prerequisite: Electrical Power Generation & Distribution 50A.

A study of electrical utility systems with emphasis on the operation of electrical equipment; transformers, capacitors, fuses, breakers, and related malfunctions.

0464–51	M	6:30– 9:30	ADAMSON, Robert L.	28B–206

ELECTRICAL POWER DISTRIBU 52B [W] 3 UNITS

Prerequisite: Electrical Power Generation & Distribution 50A or equivalent experience. 52A is prerequisite to 52B.

Study of General Order 128 State of California Underground Rules and Title 24 New Safety Orders.

1916–51	T	6:30– 9:30	ROGERS, Prettis W.	26D–108

ENGLISH, LITERATURE, & JOURNALISM

(All courses in this department with the exception of English 1A may be taken for the option of letter grade or Credit/No Credit.)

ENGLISH

ENGLISH 1A [U] 3 UNITS

Prerequisite: Passing of the English Placement Test.

This is a course in expository writing designed to help the student write effectively and correctly in his college work. The course includes instruction in writing the research paper, in the principles of rhetoric, and in writing the following modes of exposition: definition, classification, analysis (causal, structural, and functional), illustration, and comparison and contrast. It also includes the writing of compositions and the reading of material related to writing assignments.

0846–51	M	7:00–10:00	BLANK, Betty G.	14– 45
0846–52	M	7:00–10:00	ROBINSON, Larry K.	14– 43
0846–53	T	7:00–10:00	HUGHES, Barbara L.	14– 43
0846–54	T	7:00–10:00	WILLIAMSON, Shirley E.	14– 41
0846–55	W	7:00–10:00	SCHROEDER, Joan	14– 47
0846–56	W	7:00–10:00	GURNEY, Ronald L.	14– 35
0846–57	TH	7:00–10:00	HUSAR, Albert J.	14– 41
0846–58	TH	7:00–10:00	DUNBRIDGE, Bruce A.	14– 43

NOTE: See Entrance Placement test dates, page 2 of this schedule.

ENGLISH 1B [U] 3 UNITS

Prerequiste: Pass SCAT Test or equivalent and English 1A.

This course surveys the major literary genre: short story, poetry, drama, novel, and film. It covers basic techniques and methods exemplified in each genre as well as a brief summary of the historical background and development of each genre. Critical evaluation, analysis, and interpretation are stressed. It is intended to develop a foundation for pleasure reading and cultural growth.

0847–51	M	6:30– 9:30	ROGERS, Colleen	14– 49
0847–52	T	7:00–10:00	HENKINS, Katherine	14– 35
0847–53	TH	7:00–10:00	BUGG, Lee E.	14– 37

CREATIVE WRITING 3 [U] 3 UNITS

Prerequisite: English 1A

An intensive course emphasizing the creative expression of original ideas in written form. The student reads critically and writes extensively and may specialize in fiction, poetry, script (including the staging of original works) or non-fiction writing, as well as specializing in areas such as bicultural and bilingual (e.g. Spanish-English) writing or topics related especially to minority (e.g. women) and ethnic (e.g. Chicano) groups.

CREATIVE WRITING – FICTION 3

0848–51	W	7:00–10:00	PEARLMAN, Lanore I.	14– 33

CREATIVE WRITING – POETRY 3

1810–51	M	6:30– 9:30	LYNCH, Annette P.	14– 47

CREATIVE WRITING – NONFICTION 3

1824–51	T	7:00–10:00	NAGEY, Robert S.	14– 47

GEN COMMUNICATIONS 54 [W] 3 UNITS

The focus of this course is on the basic skills of four major means of communication: listening, speaking, reading, writing. The student investigates mass media, studies persuasive techniques, and applies critical thinking to the four areas of communication.

0852–51	T	7:00–10:00	CUMMINGS, Jr. John	14– 49

ENG AS SECOND LANGUAGE 60 [W] 3 UNITS

This course is designed to effect immediate improvement in the communication ability of non-English-speaking and limited-English-speaking people.

0853–51	W	7:00–10:00	ROBINSON, Larry K.	14– 45

GRAMMAR REVIEW 65 [X] 1 UNIT

A review of the fundamentals of English for the student who feels the need of a practical course in the disciplines of writing, including usage and grammar. The course includes a brief background to grammar and problems of usage, such as case, agreement, verbs, verbals, fragments, shifts in construction, dangling modifiers, diction, parallelism, comma-splice, spelling, and punctuation.

0854–51	TH	6:00– 7:00	BUGG, Lee E.	14– 37

ENGLISH 67 [X] 3 UNITS

Prerequisite: For students ineligible for English 1A as indicated by appropriate test scores.

This course is designed to assist the student to improve his reading and study skills. It emphasizes methods that will enable the student to improve his vocabulary-building and reading skills and techniques. In order for the student to evaluate his progress, diagnostic reading tests, paragraph comprehension quizzes, examinations for reading comprehension, and various vocabulary tests are given. The course is organized as a lecture-laboratory type course so that the instructor may work with the student on an individual basis.

0856–51	T	6:30– 9:30	STORRER, Richard H.	14– 31
0856–52	W	7:00–10:00	JOHNSON, Henry	14– 31

NOTE: See Entrance Placement test dates, page 2 of the schedule.

ENGLISH 68 [X] 3 UNITS

Prerequisite: For students ineligible for English 1A as indicated by appropriate test scores.

This course is designed to help the student who wishes to learn to write effectively. It stresses the skills and techniques necessary for writing effective paragraphs and short themes. It includes the writing of sentences, paragraphs, and short themes. Special attention is given to the problems of usage, spelling, and punctuation.

0855–51	M	6:30– 9:30	ASHWORTH, Ann	14– 33
0855–52	T	7:00–10:00	COMPTON, Marion	14– 45
0855–53	W	7:00–10:00	CUMMINGS, Jr. John	14– 49
0855–54	W	7:00–10:00	OWEN, James E.	14– 39
0855–55	TH	7:00–10:00	DUNLAP, Lila F.	14– 35

NOTE: See Entrance Placement test dates, page 2 of the schedule.

READING SKILLS DEVEL 70 [W] 3 UNITS

This course is designed for the student needing specialized, individual help in developing his reading and study skills. The usual remedial or developmental approach to reading does not fulfill this need. The lecture-laboratory program provides drills for better word pronunciation and basic techniques for vocabulary development. The simple paragraph is studied for structure and understanding.

0859–51	M	7:00–10:00	BLIX, Kathryn L.	14– 31
0859–52	TH	7:00–10:00	POLITE, II Frank J.	14– 31

VOCABULARY BLDG 75 [W] 3 UNITS

This beginning course includes a study of the history and philosophy of language; the elements which comprise useful language; laws of word formation; basic derivations from Latin, Greek, and Anglo-Saxon; affixes and roots; and the history, problems, and use of dictionaries. The goal is to increase effective ability to understand and use words.

0860–51	M	6:30– 9:30	GARCIA, Anthony	14– 35
0860–52	W	6:30– 9:30	SKRABA, Judy	14– 43
0860–53	TH	6:30– 9:30	HYMANSON, Mary C.	14– 45

LITERATURE

MODERN AMER LIT 2 [U] 3 UNITS

Prerequisite: English 1A

This course is designed to give the student an appreciation of the important works of major American writers of this century. Authors dealt with include Hemingway, Faulkner, O'Neill, Fitzgerald, Arthur Miller, E. E. Cummings, Edward Albee, John Updike, Philip Roth, etc. It deals with American themes and ideas in the twentieth century. The Literature 2 may be taken without the student's having taken Literature 1.

0862–51	T	6:30– 9:30	WEIKEL, Keith L.	14– 39

WORLD LITERATURE 11B [U] 3 UNITS

Prerequisite: English 1A

The focus of this course is on Continental European literature from the 17th to the 20th century, with special attention given to the major authors of each period, such as Voltaire, Goethe, Dostoevsky, Kafka, Sartre, and Camus.

0869–51	W	6:30– 9:30	ACUNA, Frank A.	26D–303

CONTEMP MEXICAN–AMER LIT 25 [U] 3 UNITS

Prerequisite: English 1A or consent of instructor.

This course is a study of the oral and written literature of the Mexican American/Chicano experience. The course covers work and ideas which date from the Olmec through the twentieth century. Intensive discussions involve the essence of Chicano culture in contrast to contemporary negative stereotypes of Mexican Americans which are traced back through Anglo literary works. The course also deals with the migratory experience of La Raza and contemporary protest literature.

0873–51	T	7:00–10:00	MADRID, Gwen L.	14– 37

CHILDRENS LITERATURE 40 [W] 3 UNITS

This course is designed to give the student a knowledge and an appreciation of children's books, both fiction and non-fiction. Special emphasis is given to suitability to age group, quality of writing and illustration, and to the Newberry and Caldecott Award winning books.

1812–51	M	6:30– 9:30	CORBALLY, John	14– 37

JOURNALISM

JOURNALISM 20B [U] 3 UNITS

Prerequisite: Passing of English Placement Test and ability to typewrite recommended.

Study of basic techniques in journalistic writing through analysis of and practice in the construction of leads, news stories, features, editorials, reviews and criticisms.Emphasis is placed on copy editing skills and rewriting.

0883–51	W	7:00–10:00	NAGEY, Robert S.	14– 41

INTRO TO MASS MEDIA 30 [U] 3 UNITS

Students develop proficiency in recognizing the communications devices and stimuli surrounding them, explore in depth how the media require an understanding of respective symbology. Students learn the nature of each medium, its requirements in preparation for a career within it, the outline of its technology. Students analyze communication through newspapers, magazines, television, radio, billboards, motion pictures, tape and disc recordings, cable T.V., cassette and videotape programming.

0850–51	TH	7:00–10:00	CASLER, Conrad C.	14– 49

HISTORY, POLITICAL SCIENCE, & GEOGRAPHY

GEOGRAPHY

(Also refer to ticket number 0080)

GEOGRAPHY PHYSICAL 1 [U] 3 UNITS

An introductory study of the physical environment considering such factors as location, land forms, water bodies, coastlines, soils, and minerals, with special stress upon climate and map studies. Strongly recommended for those working for the elementary teaching credential.

0895–51	T	4:00– 7:00	BAILEY, David P.	26D–206

GEOGRAPHY OF CALIFORNIA 30 [U] 3 UNITS

A study of successive patterns of population, settlement, economic activity, transportation routes and trade as applied to California's physiographic regions and their resources.

0901–51	TH	6:30– 9:30	FELSCH, Fred	26D–206

HISTORY

HISTORY OF U S 1 [U] 3 UNITS

This course is a survey of the history of the United States from Colonial times to the present, and is designed for transfer students who need a one-semester course in United States history to meet general education requirements. May not be taken for credit if History 7A has been completed. (Social Science majors should take History 7A-7B.)

0902–51	M	4:00– 7:00	BAKER, Leo C.	26D–102
0902–52	M	6:30– 9:30	MARTIN, Maureen	26D–101
0902–53	M	6:30– 9:30	FERRARO, Mathew J.	26D–201
0902–54	M	7:00–10:00	ZAHAREK, James L.	26D–106
0902–55	T	6:30– 9:30	SPAULDING, Ralph A.	26D–309
0902–56	T	7:00–10:00	MOORE, John	26D–201
0902–58	W	6:30– 9:30	SPAULDING, Ralph A.	26D–309
0902–60	W	4:00– 7:00	SHORR, Howard J.	26D–104
0902–61	TH	6:30– 9:30	WRIGHT, Craig	26D–202
0902–62	TH	7:00–10:00	MARKHAM, Andrew J.	26D–106
0902–64	S	9:00–12:00	GREENWOOD, Ralph	26D–307

HIST OF WESTN CIV 4B [U] 3 UNITS

(May be taken for option of letter grade of Credit/No Credit.)

The rise and development of Western Civilization from the Stone Age to the present. The course seeks to increase the student's appreciation of his cultural heritage and his understanding of man and society. Required for history majors; strongly recommended for all majors in the social sciences.

0904–51	TH	6:30– 9:30	MILLER, Wayne V.	26D–201

HIST OF U S 7A [U] 3 UNITS

This is a survey of American civilization from colonial times to the present, designed for history, social science, or humanities majors, or for transfer students who need a year course in United States history to meet general education requirements. The course satisfies United States history requirements. 7A satisfies the Constitution requirement and 7B satisfies the State and local government requirements.

0907–51	M	7:00–10:00	MARKHAM, Andrew J.	26D–205
0907–52	T	6:30– 9:30	ZUNINO, Gerald J.	26D–109
0907–53	W	7:00–10:00	SHAFFER, Ralph E.	26D–201

HIST OF U S 7B [U] 3 UNITS

This is a survey of American civilization from colonial times to the present, designed for history, social science, or humanities majors, or for transfer students who need a year course in United States history to meet general education requirements. The course satisfies United States history requirements. 7A satisfies the Constitution requirement and 7B satisfies the State and local government requirements.

0908–51	M	6:30– 9:30	MORTENSEN, Daniel	26D–112
0908–52	T	7:00–10:00	WRIGHT, Craig	26D–202

HISTORY OF ASIA 10B [U] 3 UNITS

(May be taken for option of letter grade of Credit/No Credit.)

The course presents a broad survey of the history and culture of China, Japan, and Southeast Asia. The first semester traces the traditional patterns of life and concludes with the early colonization attempts by the West. The second semester concentrates on the 19th and 20th centuries with an emphasis on the economic, social, and political changes resulting from the impact of Western ideas and civil wars.

0912–51	T	6:30– 9:30	KING, William F.	26D–104

HISTORY OF BLACK AMERICAN 30B [U] 3 UNITS

Survey of the history and culture of black Americans since 1619. First semester will deal with the impact of American historical development on the black minority from 1619 to the Civil War. In the second semester special attention will be given to the quest for equality in the last century and to black contributions to the American way of life. This course satisfies the requirement for a course in American history, including the study of American institutions and ideals, the Constitution of the United States, and the principles of State and local government, as required by Title 5 of the California Administrative Code.

0923–51	M	7:00–10:00	LETT, Charles L.	26D–202

CALIF HISTORY 39 [U] 3 UNITS

(May be taken for option of letter grade or Credit/No Credit.)

The social, intellectual, economic, and political development of California from earliest times to the present, against the background of Latin America, the Pacific, and the United States.

0925–51	M	6:30– 9:30	PFLUEGER, Donald	26D–102
0925–52	T	6:30– 9:30	PFLUEGER, Donald	26D–205
0925–53	W	4:00– 7:00	HOYT, Franklyn	26D–204

HIST OF MEXICAN–AMERICAN 40 [U] 3 UNITS

A general survey of United States history with a special focus on the history and culture of Mexican Americans and their contributions to the American way of life. Emphasis will be placed on the impact American historical development has had on this minority, especially in the twentieth century. This course satisfies the American history requirement including the study of American institutions and ideals, as required by Title 5 of the California Administrative Code.

0926–51	M	7:00–10:00	TOLEDO, James A.	26D–308

TWENTIETH CENTURY AMERICA 50 [W] 3 UNITS

(May be taken for option of letter grade or Credit/No Credit.)

This course deals with the major problems facing the United States in the twentieth century and their historical origins. Topics selected for study will be those which seem more relevant, but may include minority groups, poverty, women's liberation, changing attitudes toward sex and religion, prison reform, foreign policy, and the arts.

0930–51	M	7:00–10:00	KOVAR, Michael H.	26D–303

POLITICAL SCIENCE

POLITICAL SCIENCE 1 [U] 3 UNITS

(May be taken for option of letter grade or Credit/No Credit.)

An introduction to the principles and problems of government with particular emphasis on national government in the United States. This course meets the Constitution, State and local government requirements as required by Title 5 of the California Administrative Code.

0931–51	M	4:00– 7:00	FREEMAN, David A.	26D–103
0931–52	M	6:30– 9:30	JACKSON, Jr. Richard K.	26D–309
0931–53	M	7:00–10:00	CHISHOLM, James E.	26D–105
0931–54	T	4:00– 7:00	SHIPMAN, Leonard L.	26D–111
0931–55	T	6:30– 9:30	HARRELL, Frank L.	26D–103
0931–56	T	7:00–10:00	JEFFERSON, Chas. J.	26D–102
0931–57	W	4:00– 7:00	SHAH, Abdul	26D–110
0931–59	W	7:00–10:00	SHIPMAN, Leonard L	26D–111
0931–60	TH	4:00– 7:00	HARRELL, Frank L.	26D–101
0931–61	TH	6:30– 9:30	ALLEN, Jerry B.	26D–307

POLITICAL SCIENCE 2 [U] 3 UNITS

Prerequisite: Political Science 1 or permission of instructor.

A comparative study of constitutional principles, governmental institutions, and political problems of selected governments. Countries selected include England, France, Germany, and the Soviet Union. Study of the nature of comparative politics is emphasized.

0932–51	T	6:30– 9:30	FINDLEY, James C.	26D-203

POLITICAL SCIENCE THEORY 5 [U] 3 UNITS

Prerequisite: Political Science 1 with grade of "C" or better.

This course emphasizes political science concepts and theories; institutions; political change and dynamics. This course is designed to prepare students majoring in political science for further study in the discipline by adequate background preparation in the overall study of politics.

0933–51	W	6:30– 9:30	ALLEN, Jerry B.	26D–107

INTR TO INTERNATL RELS 9 [U] 3 UNITS

Acquaints students with the historical and political background of international relations. Attention is given to world politics, international organization, and America's place in world affairs.

0934–51	T	6:30– 9:30	SHAH, Abdul	26D–204

CONTEMP POLITICAL PROBS 50 [W] 3 UNITS

(May be taken for option of letter grade or Credit/No Credit.)

This course is designed to utilize student interest and concern for contemporary political problems as a foundation for greater understanding of those problems. Students will study social, economic, and political problems such as poverty, health care, taxation, war and peace, welfare, civil rights and civil liberties, and the role of the citizen and the government in attempting to resolve those problems.

0940–51	T	6:30– 9:30	GODFREY, Kenneth R.	26D–105

HOME ECONOMICS

CLOTHING AND TEXTILES

APPAREL ANALYSIS 15 [U] 3 UNITS

An investigation of individuality in clothing selection, personal appearance, and consumer buying. The psychological and sociological significance of clothing is included in the analysis.

0947–51	W	7:00–10:00	COOPER, Beth A.	20– 5

TEXTILES 17 [V] 3 UNITS

The study of textile fibers, yarns, fabric construction, finishes and dyes as a basis for determining suitability for end use. The course includes recent laws, developments and innovations in the textile field with special emphasis on man-made fibers, their manufacture, properties and use.

0948–51	M	6:30– 9:30	CHITWOOD, Marjorie L.	19B– 9

MODERN NEEDLECRAFT 55 [W] 2 UNITS

This course is designed to develop creativity through needlecraft.

It includes laboratory experience in new and old craft techniques, such as creative stitchery, crocheting, knitting, macrame, latch hook rugs, smocking, punch needle rugs, weaving, quilting, and needlepoint. Student projects and samplers will be completed.

0951–51	M	6:00–10:00	STAFF	20– 9

FOODS AND NUTRITION

ESSENTIALS OF NUTRITION 25 [U] 3 UNITS

A presentation of the modern knowledge of the chemistry of foods and the relationship of nutrition to health. The nutritional requirements during the various stages of physiological development.

0965–51	TH	7:00–10:00	BEEZY, Kara F.	19B– 7

BASIC PRINC OF NUTRITION 63 [V] 2 UNITS

This course presents a study of the varying nutritional needs of individuals. The basic principles of human nutrition and their relationship to optimum health and weight control is emphasized. Information on the proper selection of food for preschoolers in day care programs is included.

0972–51	TH	7:00– 9:00	STEPHENS, Yvonne M.	19B– 9

HOME MANAGEMENT

CONSUMER BUYING 80 [W] 3 UNITS

This course enables one to become a wise consumer in today's marketplace. Consumer buying topics cover such areas as provision of food, clothing, shelter, household equipment, and transportation; management of family earnings; and the understanding of devices used by business such as advertising and credit to influence consumer choice.

0977–51	T	7:00–10:00	SANDERS, Patricia	19B– 9

HOUSING

HOME FURNISHINGS 35 [U] 3 UNITS

Application of art principles and color theory to the selection of materials and furnishings for the home, furniture arrangements, and total design of the home. Analysis of consumer and socio-economic aspects to help an individual create an individual home environment. Consideration is also given to historical decorative arts to include consumer aspect.

0983–51	W	7:00–10:00	MORAN, Christina	20– 9

NURSERY SCHOOL TRAINING

HOME CHILD & COMM REL 1 [V] 3 UNITS

This course presents a study of home, child, and community relationships as they pertain to nursery school training. Includes use of community resources to meet special needs of children. Child development is presented as a joint responsibility of home and community.

0987–51	T	6:30– 9:30	GOOD, Dorothy	26D–112
0987–52	TH	6:30– 9:30	CLARK, Marie W.	20– 5

PRINC & PRACT IN NURS SCH 5B [V] 3 UNITS

Prerequisite: Prerequisite 5A is prerequisite to 5B.

This course offers an introduction to the various kinds of schools for young children, their histories, philosophies and program emphases. Program planning and curriculum areas are covered, along with the organization of materials and resources. Teaching techniques based upon understanding the young child as an active learner are examined.

0989–51	M	6:30– 9:30	LERNER, Marie W.	14– 39
0989–52	TH	1:00– 4:00	CLARK, Marie W.	26D–102
0989–53	TH	6:30– 9:30	LERNER, Marie W.	14– 39

CHILD GROWTH & DEVELOP 10 [V] 3 UNITS

The developmental approach to the study of the child showing dynamic forces affecting growth processes and individual differences as child achieves selfhood. A course for students in the nursery program, psychiatric technicians, and parents, with observations of normal children in community nursery schools required.

0990–51	M	7:00–10:00	DE LADURANTEY, Laura	19B– 7
0990–52	W	7:00–10:00	DE LADURANTEY, Laura	19B– 7

NURS SCH LANG ARTS 60 [W] 2 UNITS

This course presents a language arts program for the nursery school including story telling, literature, speech development, and visual aids.

0996–51	T	6:30– 9:30	BEHRENDT, Roselin K.	20– 5

NURS SCH ART MEDIA 61 [W] 2 UNITS

This course stresses the development of creative potential. Theory and practice in the use of art media such as painting, clay, collage, and construction are presented.

0997–51	T	7:00–10:00	STONE, Miriam	20– 7
0997–52	TH	6:30– 9:30	BEHRENDT, Roselin K.	20– 7

NURS SCH MUSIC & RTHM 62 [W] 2 UNITS

This course introduces musical experiences for the nursery school program through the use of records, autoharp, instruments, singing, creative dance, and rhythm.

0998–51	M	6:30– 9:30	MONTGOMERY, Maria S.	20– 7

NURS SCH SCIENCE 63 [W] 2 UNITS

This course presents methods of enriching the child's exposure to his physical world. Basic science equipment and reference materials for the school and teacher are included.

0999–51	W	6:30– 9:30	JOHNSON, Frances A.	20– 7

NURS SCH HEALTH & SAFETY 64 [W] 3 UNITS

This course emphasizes the special needs of preschool children in nutrition, health, safety, and sanitation. Complies with requirements for Red Cross Standard First Aid Course. Each student receives a standard First Aid Red Cross card.

1001–51	TH	7:00–10:00	ROBBERT, Lois	20– 9

CHILD WITH SPECIAL NEEDS 68 [W] 3 UNITS

Prerequisite: Child Growth and Development 10.

This course emphasizes teaching techniques in the nursery school program. It is concerned with children who are neurologically handicapped, blind, deaf, crippled, emotionally handicapped, or mentally retarded.

1004–51	T	6:30– 9:30	TAYLOR, Elizabeth S.	19B– 7

NURS SCH ADMINISTRATION 71 [W] 3 UNITS

Prerequisite: Home, Child and Community Relations 1, Principles and Practices in Nursery School Education 5A-5B, Child Growth and Development 10, or have experience as a director of a nursery school.

History of nursery education, laws governing nursery schools in California, and goals of nursery education. The administrator's job description, budget, personnel selection and standards, records and reports, and staff policies are included.

1007–51	T	6:30– 9:30	ROBBERT, Lois	20– 9

SCHOOL FOOD MANAGEMENT

BASIC FOODS FOR SCHOOL SERVICE PERSONNEL 54 [W] **2 UNITS**

Prerequisites: Principles of School Food Service 51, School Menu Planning 71.

Basic principles of food preparation in the field of food services, including the evaluation of food products and the use of some equipment with management principles in mind.

2115–51	W	6:30– 8:30	SWAIN, Marietta	19B– 5

LANGUAGES, MODERN

FRENCH

FRENCH 2 [U] **4 UNITS**

(May be taken for option of letter grade or Credit/No Credit.)

Prerequisite: French 1 or two years of high school French.

This course augments and supplements the skills and knowledge acquired in French 1.

1222–51	T	6:30– 9:30	GAUTREAU, Hervey J.	15– 5
	TH	6:30– 8:30	GAUTREAU, Hervey J.	15– 5

GERMAN

GERMAN 2 [U] **4 UNITS**

(May be taken for option of letter grade or Credit/No Credit.)

Prerequisite: German 1 or two years of high school German.

This course augments and supplements the skills and knowledge acquired in German 1.

1232–51	T	6:30– 9:30	MABEE, Barbara	15– 9
	TH	6:30– 8:30	MABEE, Barbara	15– 9

SPANISH

SPANISH 2 [U] **4 UNITS**

(May be taken for option of letter grade or Credit/No Credit.)

Prerequisite: Spanish 1 or two years of high school Spanish.

This course augments and supplements the skills and knowledge acquired in Spanish 1.

1248–51	M	6:30– 9:30	AGUILERA, Joe M.	15– 5
	W	6:30– 8:30	AGUILERA, Joe M.	15– 5
1248–52	T	6:30– 9:30	CATERINICCHIO, Maria	15– 3
	TH	6:30– 8:30	CATERINICCHIO, Maria	15– 3

SPANISH 4 [U] **4 UNITS**

(May be taken for option of letter grade or Credit/No Credit.)

Prerequisite: Spanish 3 or four years of high school Spanish.

This course augments and supplements the skills and knowledge acquired in Spanish 3.

1252–51	M	6:30– 9:30	BAUGUS, Leo D.	15– 3A
	W	6:30– 8:30	BAUGUS, Leo D.	15– 3A

INTRO TO SPANISH LITER 26 [U] **3 UNITS**

(May be taken for option of letter grade or Credit/No Credit.)

(May be taken twice for credit.)

Prerequisite: Spanish 3 or four years of high school Spanish.

This course provides an introduction to literary types (verse, short story, drama, etc.) in the literatures of Mexico, other Spanish-American countries, and Spain. All readings and lectures are in Spanish.

1256–51	W	6:30– 9:30	MOOLICK, Charles J.	15– 3

CONVERS SPANISH 51 [W] **3 UNITS**

(May be taken for option of letter grade or Credit/No Credit.)

A practical course for beginners that develops, from the first lesson, the ability to converse on real-life topics. Unusual opportunities for achieving conversational proficiency are available in language laboratory providing audio-visual aids such as recordings, Spanish-language films, readings, and songs.

1258–51	T	6:30– 9:30	STAFF	15– 7
1258–52	M	6:30– 9:30	NEWMAN, Livia M.	26D–111
1258–53	W	6:30– 9:30	MILLER, Marjorie	15– 9

CONVERS SPANISH 52 [W] **3 UNITS**

(May be taken for option of letter grade or Credit/No Credit.)

Prerequisite: Spanish 51.

Continuation of Spanish 51.

1260–51	M	6:30– 9:30	STAFF	15– 9
1260–52	T	7:00–10:00	NEWMAN, Livia M.	26D–111
1260–53	W	6:30– 9:30	ROMERO, Tomas	15– 7
1260–54	TH	6:30– 9:30	MARANO, Damiano A.	15– 1

CONVERS SPANISH 54 [W] **3 UNITS**

(May be taken for option of letter grade or Credit/No Credit.)

Prerequisite: Spanish 53.

Continuation and completion of Spanish 53. Further development of the Spanish language skills.

1263–51	M	6:30– 9:30	ROMERO, Tomas	15– 7

LICENSED VOCATIONAL NURSING

MED–SURGICAL NURSING 90B [W] **4 UNITS**

Prerequisite: Fulfillment of admission requirements of Dept. of Vocational Nursing. Fulfillment of requirements of Article 4, Section 2530 of the Vocational Nursing Practice Act.

Theory of the care of adults, children, and aged patients including experience in medical and surgical conditions involving each of the body systems. The fourth semester includes theory in the care of mothers and newborn infants. Upon satisfactory completion of the four semester courses, a certificate will be awarded by the College and the student will be qualified to take the California State Board Examination for licensure.

1284–51	MW	6:30– 9:30	THOMPSON, Myrtle J.	14– 3

MED–SURGICAL NURSING 90D [W] **4 UNITS**

Prerequisite: Fulfillment of admission requirements of Dept. of Vocational Nursing. Fulfillment of requirements of Article 4, Section 2530 of the Vocational Nursing Practice Act.

Theory of the care of adults, children, and aged patients including experience in medical and surgical conditions involving each of the body systems. The fourth semester includes theory in the care of mothers and newborn infants. Upon satisfactory completion of the four semester courses, a certificate will be awarded by the College and the student will be qualified to take the California State Board Examination for licensure.

1286–51	TTH	6:30– 9:30	BOUCHER, Elda L.	14– 3

MATH HEALTH OCCUPATIONS 93 [W] **1 UNIT**

(May be taken for option of letter grade or Credit/No Credit.)

A review of mathematical skills used in the medical occupations. The course includes fractions, decimals, percentage, ratio and proportion, and the metric, apothecary and household systems of measurement. The use of formulas, using the metric and apothecary measuring systems as known factors, will also be reviewed.

1287–51	W	7:00– 9:00	UTT, Lester L.	13– 9

NOTE: Class meets for 9 weeks, last class meeting March 31, 1976.

DRUGS & SOLUTIONS 94 [W] **3 UNITS**

Prerequisite: Occupational experience in a nursing health field, or presently enrolled in a course of study in a nursing or allied health curriculum; competence in arithmetic operations or concurrent or previous enrollment in Mathematics Review for Health Occupations 93.

This course includes the study of physical and chemical properties, physiological actions, and the therapeutic uses of drugs. This course also includes the study of current therapeutic agents and methods of computation of drug dosage.

1288–51	T	6:30– 9:30	GILBERT, James L. BROOK, Donald E.	14– 5

GERIATRIC HEALTH AIDE

GERIATRIC HEALTH AIDE II 52 [W] **4 UNITS**

Prerequisite: Geriatric Health Aide I or equivalent experience.

This course includes the care of the patient with specific conditions or illness that usually occur in the elderly. Emphasis will be placed upon the usual care and rehabilitative care of patients with nervous deterioration, mental confusion, malignancies, circulatory impairments, diabetes mellitus and orthopedic conditions.

2090–51	MW	6:30– 9:30	LORTHRIDGE, Barbara B.	14– 5

MATHEMATICS AND ASTRONOMY

ASTRONOMY

ELEMENTARY ASTRONOMY 5 [U] **3 UNITS**

Prerequisite: Elementary algebra and plane geometry recommended.

This is a general course in the principles and fundamental facts of astronomy. Designed primarily for liberal arts students.

1290–51	TH	6:30– 9:30	BURNS, John W.	26D– 6

MATHEMATICS

COLLEGE ALGEBRA–ST 1 [U] **3 UNITS**

Prerequisite: Mathematics C with grade of "C" or better; or high school trigonometry with grade of "B" or better.

A study of real numbers and sets, algebraic functions and relations, radicals and exponents, linear and quadratic equalities and inequalities, exponential and logarithmic functions, systems of linear and quadratic equations, complex numbers, theory of equations, mathematical induction, and binomial formula.

1946–51	TTH	6:30– 9:30	HERBST, Albert F.	7–236

NOTE: This class meets for 12 weeks. Last class meeting will be held on April 29, 1976.

COL ALGEBRA & AN TRIG 1–C [U] **5 UNITS**

Prerequisite: High school trigometry with grade of "C" or better. Students who have had college trigonometry with a grade of "C" or better should take College Algebra 1. Students with credit in college trigonometry will receive only three units of credit for Mathematics 1-C.

A combined course in college algebra and analytic trigonometry. The topics covered are essentially those of Mathematics 1 and C. The course is designed for those students not qualifying for Mathematics 33A.

1300–51	TTH	6:30– 9:30	HERBST, Albert F.	7–236

ELEMENTARY STATISTICS 13 [U] 3 UNITS

Prerequisite: Mathematics D with a minimum grade of "C" or four semesters of high school algebra with grade of "B" or better in the last two semesters.

Emphasis is placed on the understanding of statistical methods. Topics included are: properties describing distributions, treatment of grouped sample data, discrete probability distributions, normal distribution, sampling theory, estimation theory, tests of hypotheses, regression and correlation.

1304–51	TTH	6:30– 8:30	TISCARENO, Froylan	7–226

CALC & ANALYTIC GEOM 33B [U] 3 UNITS

Prerequisite: Mathematics 33A with minimum grade of "C."

The differentiation and integration of logarithmic, exponential and trigonometric function. Techniques of integration, approximate integration, polar coordinates and the conic sections.

1309–51	MW	6:30– 8:30	BURNS, John W.	7–228

ELEMENTARY ALGEBRA 51 [X] 3 UNITS

A beginning course in algebra for those students who have never had high school algebra or have deficiencies in first year high school algebra, or who do not qualify for Mathematics D. The course content includes formulas; addition, subtraction, multiplication and division of signed numbers and algebraic expressions; equations of first degree; special products and factoring; algebraic fractions; graphs; systems of linear equations; ratio, proportion and variation; radicals and exponents; and quadratic equations.

1316–51	W	6:00–10:00	HAYMAN, Larry H.	7–226
1316–52	MW	7:00– 9:00	MC DERMOTT, H. Leland	7–232
1316–53	TTH	7:00– 9:00	JONES, Everett D.	7–230
1316–54	TTH	7:00– 9:00	HATTAR, Michael M.	7–232

PLANE GEOMETRY 52 [X] 3 UNITS

Prerequisite: Mathematics 51 or two semesters of high school algebra with grades of "C" or better.

A study of points, lines, polygons, and circles; their relationship to each other on plane surfaces. The student is introduced to reasoning by induction, deduction, analogy, and indirect methods. Stress is placed on accuracy of statement as a background for analytical and scientific reasoning.

1317–51	MW	7:00– 9:00	WHITNEY, Edward	7–230

FUNDAMENTAL MATHEMATICS 55 [X] 3 UNITS

A study of the fundamental principles of arithmetic designed to develop a proficiency in applying them and thus prepare a base for algebra and other courses.

1970–51	T	6:30– 8:30 ARRANGED LAB	HENDRIX, Homer L.	7–234
1970–52	TH	6:30– 8:30 ARRANGED LAB	CROW, Nicholas D.	7–234

NOTE: Students must schedule two hours of lab per week.

TRIGONOMETRY C [U] 3 UNITS

Prerequisite: Four semesters of high school algebra with "C" or better grades in each semester of second year and two semesters of high school plane geometry with grade of "C" or better in each semester; or Mathematics D and 52 with grades of "C" or better.

The study of the trigonometry functions and their use in the solution of right and oblique triangles, logarithms, fundamental identities, graphical representation of the trigonometric functions, inverse trigonometric functions, and solution of trigonometric equations.

1319–51	MW	6:30– 8:30	BASS, Paul E.	7–236

NOTE: Two additional hours per week to be arranged.

INTERMED ALGEBRA D [U] 4 UNITS

Prerequisite: Two semesters of high school algebra with grade of "B" or better in each semester or three semesters of high school algebra with minimum grade of "C" in each semester; or Mathematics 51 with minimum grade of "C." Plane Geometry recommended.

This second course in algebra is for those students planning majors in mathematics, engineering, science, social science, or business administration. The course content includes properties of real numbers, products and factoring, fractions; exponents and radicals; first degree equations and inequalities; second degree equations and inequalities; relations, functions and graphs; sequences, progressions and sigma notation; exponential and logarithmic functions.

1321–51	MW	6:30– 8:30	PETER, Gerald A.	7–234
1321–52	TTH	6:30– 8:30	ADCOX, Nancy	7–228

MUSIC

FUNDAMENTALS OF MUSIC 7 [U] 3 UNITS

(May be taken for option of letter grade or Credit/No Credit.)

This is a course for the prospective elementary school teacher and the non-music major dealing with basic elements of notation, melody, rhythm, harmony, and classroom techniques. Ear training and conducting will be emphasized along with written exercises utilizing the techniques of melody, rhythm, and harmony.

1341–51	M	7:00–10:00	TANCREDI, Ralph A.	2– 11

INTRO TO MUSIC APPRECIAT 13 [U] 3 UNITS

(May be taken for option of letter grade or Credit/No Credit.)

(Not open to students who have credit for Music 11A-11B.)

This course offers an introduction to music for non-music majors with particular emphasis on the materials of music and the major periods of composition. Reading and library listening are required.

1356–51	T	6:30– 9:30	GURNEE, Robert	2– 19
1356–52	W	6:30– 9:30	GURNEE, Robert	2– 19

ELEMENTARY PIANO 17A [U] 1 UNIT

Prerequisite: Elementary Piano 17A is prerequisite to 17B.

This is a basic course in the reading and performance of piano literature. No prior musical experience is required. Scales, chord progressions, improvisation, and transposition will be emphasized. This course is required for the kindergarten and primary credential and for music majors during the first year or enrollment in Intermediate Piano 18.

1359–51	M	6:00– 8:00	TERRELL, Grace	2– 1
1359–52	M	8:00–10:00	TERRELL, Grace	2– 1
1359–53	T	6:00– 8:00	TERRELL, Grace	2– 1
1359–54	T	8:00–10:00	TERRELL, Grace	2– 1

ELEMENTARY ORGAN 19 [U] 1 UNIT

(May be taken four times for credit.)

Prerequisite: Elementary Piano 17A-17B or equivalent.

Group and individual instruction in registration, pedal technique, and interpretation of standard organ literature will be given in this course. Special projects will be given for prospective church organists.

2091–51	S	10:00–12:00	TOOPS, Gary C.	2– 17

ELEMENTARY GUITAR 23A [U] 1 UNIT

This is a basic course in the technique of acoustic guitar playing. The fundamentals of reading music on all strings in the first position and basic chords will be studied. Each student must furnish his own acoustic guitar.

1924–51	M	6:00– 8:00	MAGULA, George	2– 17
1924–52	M	8:00–10:00	MAGULA, George	2– 17
1924–53	T	6:00– 8:00	MAGULA, George	2– 17
1924–54	T	8:00–10:00	MAGULA, George	2– 17

ELEMENTARY GUITAR 23B [U] 1 UNIT

Prerequisite: Elementary Guitar 23A.

This is a basic course in the technique of acoustic guitar playing. Reading music in higher positions and ensemble playing will be studied. Chord studies will be continued as needed for the performance of popular and classical music.

1925–51	W	6:00– 8:00	CHARLTON, Katherine	2– 17

INTERMEDIATE GUITAR 24 [U] 1 UNIT

(May be taken four times for credit.)

Prerequisite: 23B Elementary Guitar or instructor approval.

The style, technique, and interpretation of guitar music of the 18th and 19th centuries will be studied and performed. Sight reading and ensemble playing will be emphasized. Each student must furnish his own acoustic guitar.

2048–51	W	8:00–10:00	CHARLTON, Katherine	2– 17

PHYSICAL EDUCATION

PHYSICAL EDUCATION THEORY

STAN FIRST AID–PERS SAF 3 [U] 2 UNITS

Complies with requirements as set forth by the American National Red Cross for Standard First Aid and Personal Safety. Students will receive the Standard First Aid and Personal Safety Card.

1929–51	M	6:30– 8:30	RUH, Donald L.	3– 4
1929–52	TH	6:30– 8:30	SCHROCK, Lawrence E.	3– 4

ADV FIRST AID–EMERG CARE 5 [U] 3 UNITS

May not be taken concurrently with Standard First Aid and Personal Safety 3.

Complies with the current certificate requirements of the American Red Cross course in Advanced First Aid Training and Emergency Care. The course provides the essential information for developing the functional first aid capabilities required by policemen, firemen, rescue squad members, and ambulance attendants. Recommended for coaches, physical education teachers, and recreation leaders as well.

1403–51	T	6:30– 9:30	LA COMB, E. Suzanne	3– 4

INTRO TO PHYS ED 20 [U] 2 UNITS

A coeducational course designed to provide an interpretation of the field of physical education and to give prospective majors an understanding of the profession. This is a required course for physical education majors.

1421–51	T	6:30– 8:30	NORTON, John T.	6–124

WILDERNESS SKILLS 25 [U] 2 UNITS

Techniques and experiences in setting up a camp, orienteering, backpacking, and safety. Information on wilderness areas and conservation of natural resources.

1422–51	W	7:00– 9:00	ENGER, Elizabeth A.	6–124

LEADERSHIP, FIT & FIGURE 36 [U] 2 UNITS

Prerequisite: Successful completion of Fitness & Figure Control 2-2A.

Corequisite: Fitness & Figure Control for Leadership Assistants 2-2 L.

This course offers selected students from fitness and figure control classes the opportunity to explore a specific area in depth while receiving skill training of an advanced nature and training in leadership techniques.

1978–51	MW	7:00– 8:00	BLACK, Zane L.	27C

CARE/PREVENT ATHLETIC INJ 42 [V] 2 UNITS

A course designed to provide the student with a basic knowledge of athletic injuries, their prevention and treatment.

1428–51	M	7:00– 9:00	HARMON, Buford	50G

PHYSICAL ED ACTIVITIES – MEN

BODY BUILDING 1–2A [U] .5 UNITS

(May be taken for option of letter grade or Credit/No Credit.)

Body Building offers opportunity for individuals to build and gain body strength. Includes use of free exercise, weight lifting and isometric exercises.

1439–51	MW	7:00– 8:00	SCHROCK, Lawrence E.	50G
1439–52	MW	8:00– 9:00	CRAIG, Ralph E.	50G

BODY BUILDING 1–2B [U] 1 UNIT

(May be taken for option of letter grade or Credit/No Credit.)

This course offers an opportunity for individuals to build and gain body strength through free exercise, weight lifting, and isometric exercises in individual or group activities. Previous experience in weight lifting is required.

1440–51	TTH	7:00– 8:00	GREELEY, Donald E.	50G
1440–52	TTH	8:00– 9:00	GREELEY, Donald E.	50G

PHYSICAL ED ACTIVITIES – WOMEN

FITNESS & FIGURE CONTROL 2–2A [U] 1 UNIT

(May be taken for option of letter grade or Credit/No Credit.)

This course is designed to meet the needs of the adult woman as these relate to physical fitness, figure control, and general body conditioning. An overview of basic health concepts as they relate to the above is included. Special emphasis will be placed upon the principles of movement efficiency, exercise, and diet and their relationship to optimum health and figure control. Practice in the application of the above principles is included.

1453–51	MW	6:00– 7:00	BLACK, Zane L.	27C

FITNESS & FIGURE CONTROL 2–2B [U] 1 UNIT

(May be taken for option of letter grade or Credit/No Credit.)

Prerequisite: Fitness and Figure Control 2-2A

A continuation of Fitness and Figure Control 2-2A with special emphasis on individual programming, and application of abilities, skills, and attitudes acquired in previous course.

1454–51	MW	8:00– 9:00	BLACK, Zane L.	27C

FIT & FIGURE LEADER ASST 2–2L [U] 1 UNIT

(May be taken for option of letter grade or Credit/No Credit.)

(May be taken five times for credit.)

Prerequisite: Fitness and Figure Control 2-2A.

Corequisite: Leadership in Fitness and Figure Control 36.

A fitness and figure control class designed for the student who is enrolled in Leadership in Fitness and Figure Control 36. Exercise techniques will be presented to complement the above course.

1976–51	MW	5:00– 6:00	BLACK, Zane L.	27C

WEIGHT CONTROL 2–23 [U] 2 UNITS

(May be taken for option of letter grade or Credit/No Credit.)

(May be taken six times for credit.)

A course for the women trying to lose weight. Topics will include attitude, behavior, lifestyle, exercise, diet and nutrition. Activity will be geared towards weight loss.

2050–51	TTH	6:00– 8:00	ANDERSON, S.	27C

PHYSICAL ED ACTIVITIES – COED

MODERN DANCE 3–6A [U] 1 UNIT

(May be taken for option of letter grade or Credit/No Credit.)

This course is designed to develop a vocabulary of movement enabling the student to experience creative satisfaction in dance.

1506–51	M	7:00– 9:00	EVANS, Wanda L.	21– 7

MODERN JAZZ DANCE–BEGIN 3–7A [U] 1 UNIT

(May be taken for option of letter grade or Credit/No Credit.)

Prerequisite: None. Previous dance experience helpful.

Introduces basic jazz movement fundamentals; provides opportunity for learning of simple jazz movement combinations and routines.

1923–51	M	5:00– 7:00	EVANS, Wanda L.	21– 7

BEGINNING BALLET 3–20 [U] 1 UNIT

(May be taken for option of letter grade or Credit/No Credit.)

This course is designed to develop a ballet movement vocabulary and to improve skills in ballet technique.

1489–51	W	7:00– 9:00	EVANS, Wanda L.	21– 7

JOGGING 3–23 [U] 1 UNIT

(May be taken for option of letter grade or Credit/No Credit.)

This course is designed to teach students the effective use of jogging as a way to maintain health and develop physical fitness.

1492–51	MTWTH	5:30– 6:30	WILKE, Warren	50G

SKIING SKILLS 3–26 [U] 1 UNIT

(May be taken for option of letter grade or Credit/No Credit.)

Prerequisite: Provide own equipment (or deposit), fees and transportation.

A course designed to develop the student's skills in basic skiing. The purchase, care, and use of equipment is covered, as well as conditioning procedures and use of ski tows.

1494–51	T	6:30– 8:30 Arrange 2 hrs/week	EATON, Malcolm W.	50 G

NOTE: This class meets for 9 weeks. Last class meeting April 1, 1976.

PHYSICAL SCIENCES, ENGINEERING & GRAPHICS

ENVIRONMENTAL GEOLOGY 9 [U] 3 UNITS

(May be taken for option of letter grade or Credit/No Credit.)

A course for non-science majors, dealing with the most relevant aspects of geologic environment and the problems caused by modern man as he uses the earth and its resources. Geologic hazards (earthquakes, volcanos, landslides, floods, subsidence) are studied. Geological viewpoints concerning waste disposal, pollution, geothermal energy, fossil fuels, and mining are emphasized. Geologic practices related to sound land management, conservation of resources, and protection of the environment are analyzed.

1556–51	M	6:30– 9:30	POHOPIEN, Kazimierz	7–227

GEOLOGY

GEOLOGY OF CALIFORNIA 7 [U] 3 UNITS

(May be taken for option of letter grade or Credit/No Credit.)

Survey of the physical and historical geology of the twelve natural divisions (Geomorphic Provinces) of the State of California.

1563–51	TH	6:30– 9:30	REDINGER, Larry L.	7–139

MINERALOGY 53A [W] 1 UNIT

(May be taken for option of letter grade or Credit/No Credit.)

This course is designed to cover briefly the systems, forms, and occurrence of rock forming, strategic, and gem minerals, with emphasis on practical identification, uses, locations, cutting and polishing. Field trips are included as an integral part of the course.

1570–51	T	7:00–10:00	STAFF	7–227

MINERALOGY 53B [W] 1 UNIT

(May be taken for option of letter grade or Credit/No Credit.)

A continuation of Mineralogy 53A. Further study is designed to cover briefly the systems, forms, and occurrence of rock forming, strategic and gem minerals, with emphasis on practical identification, uses, locations, cutting and polishing. Field trips are a required part of the course.

1571–51	T	7:00–10:00	STAFF	7–227

METEOROLOGY

WEATHER–ATMOSPHER ENVIRON 3 [U] 3 UNITS

(May be taken for option of letter grade or Credit/No Credit.)

An introduction to weather and climate, solar and terrestrial radiation, storms, the ionosphere, and the auroras. Topics such as air pollution, cloud seeding, weather satellites, and weather forecasting are studied. Environmental effects, both man-made and natural, are evaluated.

1911–51	T	7:00–10:00	HULETT, Richard	7–130

METRIC SYSTEM

METRICS FOR AMERICANS 11 [U] 2 UNITS

(May be taken for option of letter grade or Credit/No Credit.)

This course is a brief, practical survey of the metric system (SI). Application of this system to basic consumer needs, marketing usage, and home measurements of length, mass, weight, volume, area, etc. will be learned and practiced. Conversion of English to metric systems will be studied.

2055–51	T	7:00– 9:00	WOOD, George W.	7–132

OCEANOGRAPHY

GENERAL OCEANOGRAPHY 1 [U] 3 UNITS

(May be taken for option of letter grade or Credit/No Credit.)

Three hours lecture.

An introductory course designed for students without a science background. This course presents a survey of the chemical and physical phenomena of the ocean, the geological processes that affect the open ocean and its coastal margins, and the adaptation of marine organisms to this physical environment. The course includes an opportunity for one day of work-study aboard a research vessel.

1573–51	T	6:30– 9:30	THURMAN, Harold V.	7–139
1573–52	W	6:30– 9:30	POHOPIEN, Kazimierz	7–237
1573–53	M	7:00–10:00	SANDERS, David E.	7–139

PHOTOGRAPHY

BASIC PHOTOGRAPHY 10A [V] 3 UNITS

This course presents the basic mechanical, optical, and chemical principles of photography. Laboratory experiences involve problems related to camera and darkroom techniques. Field trips provide additional experience.

1575–51	M	7:00– 9:00	NOWLIN, Douglas	7–133
	T	7:00–10:00	NOWLIN, Douglas	7–133
1575–52	W	7:00–10:00	WORRELL, James	7–133
	TH	7:00– 9:00	WORRELL, James	7–133

BASIC PHOTOGRAPHY 10B [V] 3 UNITS

Prerequisite: Basic Photography 10A.

An experimental approach to photographic techniques. Topics included are solarization, tone separation, retouching, image intensification and reduction, and infrared.

1576–51	M	7:00–10:00	DAY, Damon P.	7–132
	TH	7:00– 9:00	DAY, Damon P.	7–127

COLOR PHOTOGRAPHY 20B [V] 3 UNITS

Prerequisite: Basic Photography 10A-10B, Basic Color Photography 20A.

The experimental development of color image derivations through the control of film exposure and emulsion processing.

2057–51	M	7:00–10:00	BARNES, William H.	7–130
	TH	7:00– 9:00	BARNES, William H.	7–130

COMMERCIAL & INDUST PHOTO 30 [W] 3 UNITS

Prerequisite: Photography 10A.

The application of photographic principles to the field of commercial and industrial photography. The course will include practical experience in portraiture, commercial products, studio lighting, industrial and architectural design, and retail problems.

1798–51	W	7:00– 9:00	BALMOT, Brad M.	7–132
	TH	7:00–10:00	BALMOT, Brad M.	7–132

PHYSICAL SCIENCE

INTRO TO PHYSICS & CHEM 55 [W] 2 UNITS

Prerequisite: Enrollment in the Certificate Programs in Inhalation Therapy Technology.

This course introduces those fundamental concepts and principles of physics and chemistry that pertain to the field of inhalation therapy. Gas laws, diffusion, characteristics of therapeutic and toxic gases, biochemistry and biophysics of respiration are studied on an elementary level.

1583–51	W	6:00– 8:00	CERWIN, Don H.	7–130

PHYSICS

INTRO TO PHYSICS 1 [U] 4 UNITS

(May be taken for option of letter grade or Credit/No Credit.)

Prerequisite: Elementary algebra and plane geometry, or equivalent course.

A survey of the fundamental principles of physics designed for non-majors. A generally comprehensive treatment of all areas of the subject. This course may be taken to satisfy the prerequisite for Physics 4A.

1586–51	T	6:30– 9:30	KALAR, Philip B.	7–136
	TH	6:30– 9:30	KALAR, Philip B.	7–136

PSYCHOLOGY, SOCIOLOGY, & PHILOSOPHY

ANTHROPOLOGY

PHYSICAL ANTHROPOLOGY 1 [U] 3 UNITS

This introductory course is concerned with the evolution of man and his place in nature. Emphasis will be placed on the processes of evolution, the record of man's evolution, the genetic mechanisms underlying evolution and the concept of "race" as applied to modern human groups.

1595–51	T	7:00–10:00	MARTINEZ, Richard P.	26A–201

PRINC OF CULTURAL ANTHRO 5 [U] 3 UNITS

The character of culture and the nature of social behavior as developed through anthropological study of contemporary peoples. A technical presentation is stressed and is designed for social science majors. (Credit will not be given for both Anthropology 5 and 22.)

1599–51	M	7:00–10:00	MC EACHERN, Maryann	26A–201

GENERAL CULTURAL ANTHRO 22 [U] 3 UNITS

(May be taken for option of letter grade or Credit/No Credit.)

An introduction to the cultural understanding of human behavior. Stress is placed on those concepts and theories that are applicable to everyday life and professional activities in the modern world. Examples of institutions and individual behavior of modern America are counterpointed against studies of primitive life. (Credit will not be given for both Anthropology 5 and 22.)

1601–51	W	7:00–10:00	HONER, Stanley M.	26A–201

EDUCATION

EDUCATIONAL AIDE TECHS 53 [W] 3 UNITS

Prerequisite: Introduction to Educational Aide Program 52.

This course provides techniques for presenting manuscript and cursive writing, basic reading, basic mathematics, preparation and duplication of instructional materials, and the care and use of instructional equipment.

1777–51	W	3:00– 6:00	HAINES, Harriott	26A–108

PHILOSOPHY

LOGIC IN PRACTICE 3 [U] 3 UNITS

(May be taken for option of letter grade or Credit/No Credit.)

The analysis of language as an instrument of sound thinking in morals, politics, and everyday life. The course is designed to assist students to analyze an argument, avoid faulty conclusions in reasoning, understand levels of meaning and kinds of arguments, avoid verbal pitfalls, understand the steps of scientific methods, and identify value assumptions.

1612–51	T	7:00–10:00	CALABRO, Christina	26B–302

INTRO TO PHILOSOPHY 5A [U] 3 UNITS

Prerequisite: Sophomore standing or eligibility for English 1A.

An exploration of basic issues in ethics, social philosophy, metaphysics, theories of knowledge, and contemporary philosophies of life.

1614–51	M	7:00–10:00	WOLFE, Tony Kester	26A–310
1614–52	T	7:00–10:00	WOLFE, Tony Kester	26A–310
1614–53	W	7:00–10:00	DORSE, Linda Diane	26A–310
1614–54	TH	7:00–10:00	CALABRO, Christina	26B–302

INTRO TO PHILOSOPHY 5B [U] 3 UNITS

Prerequisite: Philosophy 5A

A continuation of Philosophy 5A with special emphasis on social philosophy and social ethics.

1615–51	M	7:00–10:00	DIANTONIO, Susan D.	26A–102

MAJOR WORLD RELIGIONS 15 [U] 3 UNITS

(May be taken for option of letter grade or Credit/No Credit.)

Prerequisite: Recommended, English 1A.

Not open to students who have credit for Major World Religions 55.

An examination of the salient features of the world's major and enduring religions. Religion is approached as the expression of man's ultimate concern as a means of understanding the historic and ideological foundations and aspirations of the peoples of the world. The following religions are presented and examined both appreciatively and critically: Hinduism, Buddhism, Taoism, Confucianism, Shinto, Judaism, Christianity, Islam.

1616–51	T	7:00–10:00	HUEBNER, Elroy O.	26A–110
1616–52	W	7:00–10:00	HUEBNER, Elroy O.	26A–110

INTRO CONTEMPORARY VALUES 22 [U] 3 UNITS

(May be taken for option of letter grade or Credit/No Credit.)

The moral implication of social issues will be considered. The course will demonstrate the practical use of philosophy in one's life. Such values as life, love, happiness, and beauty will be analyzed. The course will utilize such things as music, poetry, literature, and other art forms in the examination of values.

1957–51	TH	7:00–10:00	DORSE, Linda Diane	26A–310

ISSUES CONTEMP RELIGION 25 [U] 3 UNITS

(May be taken for option of letter grade or Credit/No Credit.)

A consideration of the nature and grounds of religious experience, including a systematic examination of some issues posed by religious traditions, and arguments regarding the knowledge of God, evil, miracles, the sacred, death and immortality, religious experience, atheism, religion and morals, faith and reason.

1958–51	T	7:00–10:00	JOHNSON, Kendall D.	26A–307

PSYCHOLOGY

PSYCHOLOGY 1A [U] 3 UNITS

An introductory course designed to develop an understanding of the basic principles underlying human behavior. The subject matter, methods, and techniques of scientific psychology are presented. Emphasis is placed on heredity, environment, capacities and abilities, learning and remembering, perception, observation, thinking, motivation, emotions, and the basis of personality formation and development.

1619–51	M	6:30– 9:30	FEARN, Clarence H.	26A–101
1619–52	M	7:00–10:00	ANDERSON, Kathy R.	26A–206
1619–53	M	6:30– 9:30	DICKSON, Jr. Charles E.	26A–109
1619–54	T	6:30– 9:30	HAMILTON, Stephen H.	26A–101
1619–55	T	6:30– 9:30	HEINZ, Katherine K.	26A–111
1619–56	T	7:00–10:00	FEARN, Clarence H.	26A–102
1619–57	W	6:30– 9:30	HAMILTON, Stephen H.	26A–101
1619–58	W	7:00–10:00	ACKERLAND, Valerie L.	26A–203
1619–59	W	6:30– 9:30	WIGGENHORN, Allan H.	26A–102
1619–60	TH	6:30– 9:30	SCHENCK, Herbert U.	26A–103
1619–61	TH	7:00–10:00	STAFF	26A–101
1619–62	TH	3:00– 6:00	ALLEN, Benton E.	26A–104

PHYS PSYCHOLOGY 1B [U] 3 UNITS

Prerequisite: Psychology 1A or 4.

A study of the anatomical and physiological bases of behavior. Examination of the neural, mechanical, and chemical integrating systems. Emphasis is placed on the development of both a conceptual framework for the data presented and an awareness of the scientific method in its application to the study of behavior.

1621–51	M	6:30– 9:30	ACKERLAND, Valerie L.	26A–203
1621–52	TH	6:00– 9:00	ALLEN, Benton E.	26A–203

PSYCHOLOGY OF INTIMACY, SEX, AND LOVE 26 [U] 3 UNITS

(May be taken for Option of Letter Grade or Credit/No Credit.)

Prerequisite: None, but General Psychology 1A, Psychology of Human Relations 50, Sociology 1, or Human Sexuality 15 (Biology) are strongly recommended.

The course is to introduce the student to the psychological factors (personality, motivating, learning, etc.) and the sociocultural factors involved in intimate relating, sexuality, and loving. Different personality patterns may be explored with reference to their relationship to these experiences, including problems and problem-solving experiences (marriage counseling, etc.) that are involved.

2082–51	M	4:00– 7:00	BRENNECKE, John H.	26A–103

PSY OF PERS & SOC ADJ 33 [U] 3 UNITS

Prerequisite: Psychology 1A or 4.

A study of the dynamics of normal personality development and the principles of mental hygiene. Stresses the practical application of psychological principles to problems and circumstances encountered in everyday living. Includes an analysis of the factors involved in social adjustment and self-realization. Considers the basis and forms of personality deviation and the psychotherapeutic methods and techniques employed to deal with them.

1627–51	M	7:00–10:00	GARDNER, John C.	26A–111
1627–52	W	7:00–10:00	WALKER, Phillip R.	26A–111

PSY OF HUMAN RELATIONS 50 [W] 3 UNITS

This course is designed to develop a student's understanding of himself and his social relationships. Emphasis is placed on the following: self-evaluation, experience in small groups, becoming sensitive to one's own feelings and to the feelings of others, and the contributions of the behavioral sciences as resources for effective living.

1629–51	M	6:30– 9:30	SCHENCK, Herbert U.	26A–103
1629–52	T	6:30– 9:30	MARTIN, Jr. George T.	26A–206
1629–53	W	6:30– 9:30	MARTIN, Jr. George T.	26A–206
1629–54	TH	7:00–10:00	BOWEN, Gordon A.	26A–110

PARENT & CHILD IN MOD SOC 60 [W] 3 UNITS

This course emphasizes the development of parental awareness and involvement in the young child's growth in motor and intellectual abilities, and the role of the school in relation to this growth. Special attention is given to children's behavioral characteristics and to the school and professional services available to deal with children's problems.

1630–51	M	7:00–10:00	PHILLIPS, John H.	26A–105

SOCIOLOGY

SOCIOLOGY 1 [U] 3 UNITS

An introduction to the systematic study of human relations and social structures which emphasizes the interaction between personality, culture, and society. Special consideration is given to an understanding of group behavior, personality formation, social organization, and social change.

1631–51	M	7:00–10:00	ROBERTS, Frank E.	26A–110
1631–52	T	7:00–10:00	WILLIAMS, John Q	26A–112
1631–53	W	7:00–10:00	ROBERTS, Frank E.	26A–104
1631–54	TH	7:00–10:00	BLUCKER, John	26A–104

SOCIOLOGY 2 [U] 3 UNITS

Prerequisite: Sociology 1.

The application of basic sociological principles and concepts to the study and understanding of social problems. Special emphasis will be placed on the analysis of social values, social organization, role, status and stress, and on the study of controversial public issues that arise in contemporary American society. Students will be encouraged to evaluate and discuss both the theoretical and practical approaches to social problems. Individual student projects will be undertaken.

1632–51	W	7:00–10:00	ERICKSON, Myron F.	26A–112

MARRIAGE & THE FAMILY 14 [U] 3 UNITS

Analyzes the nature, problems, and satisfactions of contemporary marriage and family life. The course deals in a practical way with preparation for marriage and the economic, legal, psychological, social and biological aspects of family living, and is designed to give students the opportunity to acquire information and develop attitudes that may assist them to function more effectively as marriage partners and parents. This is an interdisciplinary course recommended for majors in psychology and sociology.

1635–51	T	7:00–10:00	MARTINEZ, Vera M.	26A–109
1635–52	TH	7:00–10:00	CLARK, Wilbur W.	26A–111

CHILD DEVELOPMENT 15 [U] 3 UNITS

A survey of modern ideas about child growth and development including a habit formation, mental and personality development, discipline, and social adjustment. The course requires actual observation of a child.

This is an interdisciplinary course recommended as an elective for majors in psychology and sociology.

1636–51	M	7:00–10:00	STAFF	26A–202
1636–52	W	7:00–10:00	PRICE, Norman	26A–202

INTRO SOC ETHNIC RELATION 20 [U] 3 UNITS

This course is a study of the social and socio-psychological problems and consequences of ethnic and minority group membership in the contemporary American society, with emphasis on prejudicial attitudes, discriminatory behavior, and a review of attempts at resolving intergroup conflicts.

1638–51	M	7:00–10:00	GRANADOS, Roger	26A–104

SOCIOL OF CHICANA WOMAN 31 [U] 3 UNITS

Sociology of the Chicana Woman will provide exposure to the sociological and psychological issues, and identification of the forces behind the issues which affect Chicanas in the Mexican American community and in the society as a whole.

2083–51	M	7:00–10:00	MADRID, Gwen L.	26A–106

PUBLIC SAFETY & SERVICES

ADMIN OF JUSTICE – CORE CURRICULUM

INTRO ADMIN OF JUSTICE 1 [V] 3 UNITS

A course designed to present the philosophy and history of law enforcement; the student will receive an overview of crime and police problems and will study the organization and jurisdiction of local, state, and federal law enforcement agencies. A survey of police career opportunities and qualifications is required.

1683–51	T	7:00–10:00	OGLESBY, Edgar W.	26A–301
1683–52	W	9:00–12:00	OGLESBY, Edgar W.	26A–301
or	W	7:00–10:00	OGLESBY, Edgar W.	26A–301

PRINC PROCED JUSTICE SYST 2 [V] 3 UNITS

A course designed to give a working knowledge of court systems. It presents principles of constitutional, federal, state and civil laws as they apply to and affect law enforcement. Criminal procedures from apprehension through trial to final disposition will be covered.

1680–51	M	9:00–12:00	STUCKEY, Gilbert B.	26A–302
or	M	7:00–10:00	STUCKEY, Gilbert B.	26A–302
1680–52	T	7:00–10:00	PIPKIN, George W.	26B–306

CONCEPTS OF CRIMINAL LAW 3 [V] 3 UNITS

A study is made of the elements of crimes against persons, property, and the state as they are recognized in the Penal Code and General Laws of California, including parties in crime, culpability, and incomplete offenses. This is particularly presented from point of view of an officer.

1674–51	M	9:00–12:00	THOMAS, Chester A.	26A–306
or	M	7:00–10:00	THOMAS, Chester A.	26A–306
1674–52	T	9:00–12:00	INGRAM, Eugene	26A–306
or	T	7:00–10:00	INGRAM, Eugene	26A–306
1674–53	TH	9:00–12:00	HUDSON, David L.	26A–306
or	TH	7:00–10:00	HUDSON, David L.	26A–306

LEGAL ASPECTS OF EVIDENCE 4 [V] 3 UNITS

This course presents kinds of evidence, rules on admissibility, competency of witnesses, principles of privileged communications, hearsay rule and its exceptions, and the general procedure to be followed in the collection and preservation of evidence.

1678–51	W	9:00–12:00	STUCKEY, Gilbert B.	26A–302
or	W	7:00–10:00	STUCKEY, Gilbert B.	26A–302

COMMUNITY RELATIONS 5 [V] 3 UNITS

This course is designed for persons in the public services to help establish a better understanding of common problems in the community. Emphasis is placed on the public service image, ethnic groups, prejudices, human relations and reactions, crisis areas, and confrontations with the public.

1684–51	T	7:00–10:00	OWNBEY, Albert W.	26A–304
1684–52	TH	9:00–12:00	CENOZ, Joseph	26A–301
or	TH	7:00–10:00	CENOZ, Joseph	26A–301

CORRECTIONS

FOUND OF CR & DELINQ 51 [W] 3 UNITS

A study directed towards the causes of crime in our society with an examination of prior approaches to this problem. Special attention will be given towards delinquency motivation, socio-economic, psychological, and personality factors.

1645–51	W	9:00–12:00	DI MAGGIO, Jerome V.	26A–308
or	W	7:00–10:00	DI MAGGIO, Jerome V.	26A–308

INTERVIEWING & COUNSEL 56 [W] 3 UNITS

Prerequisite: Institutional Field Service 50.

This course presents the basic theories in casework and interview techniques in dealing with the offender. Traces functions and objectives of interviewing and casework. How offenders are processed through the judicial system; types of sentences, prison records, executive powers, and types of commitments.

1648–51	T	9:00–12:00	BALL, Charles T.	26A–308
or	T	7:00–10:00	BALL, Charles T.	26A–308

COURTS

PRINC & PRACT CIVIL PROC 7 [V] 3 UNITS

A course of law and procedure designed to acquaint police and correctional officers with the many civil problems and their solutions which arise in the ordinary tour of duty. Course includes coverage of subpoena, writs and judgments of special application to peace officers.

1686–51	W	7:00–10:00	POGGIONE, William	26B–302
or	S	9:00–12:00	POGGIONE, William	26B–302

LAW ENFORCEMENT

CONCEPTS ENFORCEMNT SERV 6 [V] 3 UNITS

Responsibilities, techniques, and methods of police patrol are the basic components of this course. The aim of the course is to provide the student with the basic knowledge required in handling ordinary police occurrences.

1681–51	M	9:00–12:00	MC CARTHY, Ronald M.	26A–308
or	M	7:00–10:00	MC CARTHY, Ronald M.	26A–308

PRINC OF INVESTIGATION 20 [V] 3 UNITS

Prerequisite: Concepts of Criminal Law 3 or equivalent experience.

This course covers the fundamentals of investigation including crime scene search and recording; collection and preservation of physical evidence; modus operandi; scientific aids; sources of information; interviews and interrogation; follow up and case preparation.

1688–51	T	9:00–12:00	SANDOVAL, Gilbert	26A–302
or	T	7:00–10:00	SANDOVAL, Gilbert	26A–302

PHYSICAL EVIDENCE TECHNICIAN

EVIDENCE AND LABORATORY 72 [W] 3 UNITS

Prerequisite: Six units of Administration of Justice or equivalent experience.

A course designed to give the officer a basic knowledge of collection and preservation of crime scene evidence, including proper search, dusting for latent prints, casting, fingerprint classification, and use of crime laboratory in crime detection and prosecution.

1702–51	T	7:00–10:00	BINGLE, Richard J.	26A–303

TRAFFIC CONTROL 13 [V] 3 UNITS

A study of the California Vehicle Code, traffic laws and their enforcement, regulation and control, traffic accident investigation and accident report.

1687–51	TH	9:00–12:00	SCHNEIDER, Fred H.	26A–302
or	TH	7:00–10:00	SCHNEIDER, Fred H.	26A–302

JUVENILE PROCEDURE 51 [W] 3 UNITS

Prerequisite: Six units of course work in Administration of Justice.

The organization, functions and jurisdiction of juvenile agencies; processing and detention of juveniles; juvenile case disposition; juvenile statutes and court procedures.

1689–51	W	9:00–12:00	GARRISON, Jack	26A–305
or	W	7:00–10:00	GARRISON, Jack	26A–305

LEGAL ASP OF CORRECTIONS 58 [W] 3 UNITS

Prerequisite: Institutional Field Service 50.

The elements of law affecting correctional institutions and field services. An in-depth study of the rights and responsibilities of the offender as defined by statutory and case law.

1830–51	TH	9:00–12:00	PEDROSIAN, Nal Peter	26A–308
or	TH	7:00–10:00	PEDROSIAN, Nal Peter	26A–308

TRAFFIC ACCIDENT INVEST 63 [W] 3 UNITS

Prerequisite: Traffic Control 13 or equivalent experience.

Accident cause, investigation, legal responsibility of investigating officer, questioning drivers and witnesses, skid marks, diagrams, photography, and hit and run investigation.

1694–51	T	9:00–12:00	WARREN, Kenneth W.	26B–304
or	T	7:00–10:00	WARREN, Kenneth W.	26B–304

HAZARDOUS DEVICE DISPOSAL 65B [W] 3 UNITS

Prerequisite: Hazardous Device Disposal 65A.

Designed to present the fundamentals of bombing investigation with emphasis on the scientific methods necessary to accomplish arrest and conviction. Incorporates court case preparation and presentation of evidence by both police agency and fire service personnel.

1819–51	W	7:00–10:00	MC CREE, Arleigh E.	26A–303
or	TH	7:00–10:00	MC CREE, Arleigh E.	26A–303

ADMIN JUST REPORT WRITING 68 [W] 3 UNITS

The essential elements of report writing. Actual reports are examined and analyzed and the student prepares reports for examination and evaluation. Emphasis is placed on the ability to report accurately the facts relating to a crime or incident in order that further investigation may be properly conducted.

ANNOUNCING AND BROADCASTING

RADIO PRODUCTION 42 [V] 3 UNITS

(May be taken four times for credit.)

Prerequisite: Radio and Television Announcing 41 or consent of the department.

Professional production of a full-track audio piece. The first production is a recorded 30-second piece which can be used on local radio and may be commercial or non-commerical. The student uses all studio equipment and by the end of the course he will have prepared a one-hour production piece that may be aired. Documentaries produced by students in this class may be submitted to local radio stations for airing as Public Affairs Programs.

1937–51 TH 6:00–10:00 EDWARDS, Charles 26A–307

RADIO PRODUCTION WORKSHP 70 [W] 1 UNIT

(May be taken four times for credit.)

Corequisite: Radio Production 42.

In studio production techniques with instructors supervision in the use of radio consoles and recording equipment. An opportunity to analyze preproduction techniques on microphones and to receive guidance in selection of music and special effects for production.

1952–51 TH 1:00– 4:00 EDWARDS, Charles 26A–306

SPECIAL COURSES

SKILLS DEVELOPMENT 61 [W] 1 UNIT

(1-2-3) (May be taken for Credit/No Credit only.)

1 unit equals 3 hours laboratory.

2 units equal 6 hours laboratory.

3 units equal 9 hours laboratory.

Prerequisites: Current enrollment, Day; Consent of Development Specialist.

This course provides the opportunity to select a specific skill for intensive remedial or developmental work in communications or numbers. Teaching and tutorial assistance will be given in conjunction with the use of multi-media materials. Emphasis will be given to application in subject area fields. Flexibility in structure of this course permits registration during the semester until the 13th week. One unit requires a total expenditure of 48 hours in class; 2 units require 96 hours in class; 3 units require 144 hours in class. Time to be arranged.

1759–51 ARRANGE HOURS HAZARD, Phyllis 6–119

SKILLS DEVELOPMENT 62 [W] 2 UNITS

(1-2-3) (May be taken for Credit/No Credit only.)

1 unit equals 3 hours laboratory.

2 units equal 6 hours laboratory.

3 units equal 9 hours laboratory.

Prerequisites: Current enrollment, Day; Consent of Development Specialist.

ADULT EDUCATION CLASSES

SPRING SEMESTER, 1976

Adult Education classes are offered to meet the needs of students in specific interest areas and who are not concerned with college credit. Students taking Adult Education classes are not assigned a course grade and no credit toward an Associate Degree is awarded.

REGISTRATION FOR ADULT CLASSES

Registration for Adult Education classes will be completed in the classroom under the direction of the instructor at the time of the first class meeting. Students should report directly to the classroom(s) at the time indicated in this schedule. It is not necessary to contact the College previous to reporting to class.

In many Adult Education courses registration can take place at any time during the course duration. This registration also takes place in the classroom under the direction of the instructor.

Students interested in credit classes should consult the Continuing Education Schedule of Classes, pages 3 through 24. In order to enroll in a credit class, students must complete an application for admission. Please refer to the Fall Calendar in the Continuing Education Schedule of Classes.

ACADEMIC INSTRUCTION

The Reading Clinic 9100–01 Hours Arranged 16 wks.

A free individualized reading program designed to meet the needs of students. Each student will receive a personal diagnostic work-up on admission, and a personal prescriptive program will be devised, and intensive tutorial assistance on either a one-to-one or small group basis.

Feb. 2 – May 26 MW 3–9 KIRKPATRICK, W. Library Center

Teaching your Child to Read 9101–01 3 hrs. per wk. 16 wks.

A self-help program of reading assistance for the disabled reader, age 12 through adults. Parents or others concerned with those who have reading problems will be trained in basic principles of remedial reading instruction, and will systematically apply these principles with their own child, or the child of another participant. The course will follow a lab format with part of the period devoted to instruction in reading theory, and the remainder of the time given to actual reading instruction of disabled readers. Enrollment limited.

Feb. 7 – May 29 S 9–12 BRITZ, P. Library Center

Individualized Instruction in Study Skills 9103–01 16 wks.

This course is designed to meet the individual needs of students in the improvement of study skills. Print and non-print materials as well as tutorial services are available.

Feb. 2 – May 28 MTWTH 8 a.m. – 10 p.m. STAFF Library Center
F 8 a.m. – 5 p.m.

General Subject Review 9104–01 Hours Arranged 16 wks.

A review and intensive presentation of subjects in which a student may be deficient. Designed to prepare students for a successful experience in college subjects. Veterans carrying at least four college units may enroll in this course and receive their monthly educational assistance allowance without having the hours charged against their entitlement.

Feb. 2 – May 28 MTWTHF 8–5 BOLLING, E. Library Center

Tutorial Biology 9106–01 3 hrs. per wk. 16 wks.

The course is designed to assist students that are having difficulties with this subject. The instructor will act as a resource to help a student identify his problem area and set up objectives to master the course.

Feb. 5 – May 27 TH 7–10 REUTER, G. 14–9

Art of Cinema 9113–01 6 hrs. per wk. 16 wks.

This course will take a look at what the film medium has done in transforming the written word to the screen.

Feb. 3 – May 27 TTH 7–10 ALLAWAY, P. 26B–101

COMMUNITY SERVICE

Tennis (Advanced) 9400–01 2 hrs. per wk. 16 wks.

This course presents the advanced skills and techniques essential for playing good tennis.

Feb. 6 – May 28 F 12–2 GREELEY, D. Courts

Volleyball for Physical Fitness 9401–01 2 hrs. per wk. 16 wks.

This course is designed to present beginning and advanced instruction in the skills of volleyball with attention given to improving general physical condition.

Feb. 5 – May 27 TH 8–10 ADERMANN, R. Gym 3

Badminton Skills and Fundamentals 9402–01; 02 2 hrs. per wk. 16 wks.

This course is designed to assist the student learn the techniques of basic strokes, systems of partner play, court strategies and proper care of equipment. Students will learn the rules of the game and understand competition play in both singles and doubles.

Feb. 4 – May 29 W 8–10 GREELEY, D. Gym 3

Master's Swimming for Health and Conditioning 9404–01 16 wks.

A course offering instruction in basic swimming techniques – all strokes and the opportunity to increase fitness through a supervised workout in the pool.

Feb. 2 – May 27 MTWTH 6:15–7:45 KRUEGER, K. DAYNE, L. Pool

Physical Conditioning – Wrestling Self-Defense 9406–01 16 wks.

This course is designed for people interested in self-defense and wrestling. The course includes instruction in the four basic areas. Take downs, escape, reversals, and pinning combinations. It also includes the rules governing wrestling, strategy as well as diet, weight-training and conditioning.

Feb. 2 – May 26 MTW VOROBIEFF, V. 27A
9406–01 6:30–8 9406–02 8–9:30

Gymnastics for Good Health 9409–01 9 hrs. per wk. 14 wks.

Course is designed to meet the physiological objectives received from physical education. Includes instruction in the floor exercise, pommel horse, rings, vaulting, parallel bars, horizontal bar, uneven bars and balance beam.

Feb. 2 – May 12 MTW 6:30–9:30 SIMONIAN, P. 27A
9409–01 6:30–8 9409–02 8–9:30

Physical Fitness (Body Building) Men's 9410–01 8 hrs. per wk. 16 wks.

This course offers an opportunity for individuals to build and gain body strength and physical conditioning through form exercise, weight lifting, and isometric exercises in individual or group activities.

Feb. 2 – May 27 MTWTH 6–8 GREELEY, D. Gym 3

Women's Individual Open Workout 9411–01 and Body Conditioning 16 wks.

A specific exercise program is designed for each person to improve figure and health. Each class period includes practical experience. Instruction will cover the use of weight-training and floor exercise for general conditioning and figure contouring.

All registration will take place in Building 27C Fee $15

Dates: Feb. 2 – May27
Days: Monday through Thursday
Time: 4 to 7:30 p.m.

Feb. 2 – May 28 MTWTH 8 a.m. - 1 p.m. LESLIE, P. 27C
4 p.m. - 9 p.m. BLACK, Z.
F 8 a.m. - 1 p.m.
June 1 – June 11 MTWTH 8 a.m. - 12 Noon
5 p.m. - 9 p.m.

Group Exercise & Conditioning 9412–01 16 wks.

Floor exercises on strength, flexibility, endurance, and relaxation.

Based on exercise physiology.

All registration will take place in Building 27C Fee $5

Dates: Feb. 2 – May 27
Days: Monday through Thursday
Time: 5 to 7:30 p.m.

Feb. 2 – May 28 MW 9–10, 12–1, 27C
TTH 12–1,
F 9–10, 12–1

Golf 9413–01; 02 6 hrs. per wk. 16 wks.

This course will include instruction in the basic golf stroke with emphasis on putting, chipping, woods, and an understanding of the rules of etiquette of the game.

Feb. 5 – May 27 TH 3– 6 GONTA, S. 27A
S 9–12

VOCATIONAL INSTRUCTION

Welding for Plumbers 9701–01; 02 8 hrs. per wk. 16 wks.

Prerequisite: The student must be an indentured apprentice or work in the trade at the level of instruction offered in class.

This course provides instruction in techniques of welding and familiarization with welding equipment. Instruction in welding symbols, rod identification, and safety is included.

Feb. 2 – May 26 MW 6–10 PRYOR, D. 22–1
Feb. 3 – May 27 TTH 6–10 VANN. J. 22–1

Plumbing – Period (1) 9702–01 6 hrs. per wk. 16 wks.

Prerequisite: The student must be an indentured apprentice or working in the trade at the level of instruction offered in class.

This course is designed for indentured apprentices and presents a study of accident prevention and mathematics.

Feb. 3 – May 27 TTH 7–10 LISKEY, T. 28B–312

Plumbing – Period (2) 9703–01 6 hrs. per wk. 16 wks.

Prerequisite: The student must be an indentured apprentice or working in the trade at the level of instruction offered in class and have completed Period 1.

This course is designed for indentured apprentices and presents a study of drawing interpretation.

Feb. 3 – May 27 TTH 7–10 LISKEY, T. 28B–312

Plumbing – Period (3) 9704–01 6 hrs. per wk. 16 wks.

Prerequisite: The student must be an indentured apprentice or working in the trade at the level of instruction offered in class and must have completed Periods 1 and 2.

This course is designed for indentured apprentices and presents a study of rigging science and mechanics.

Feb. 3 – May 27 TTH 7–10 LISKEY, T. 28B–312

Plumbing – Period (4) 9705–01 6 hrs. per wk. 16 wks.

Prerequisite: The student must be an indentured apprentice or working in the trade at the level of instruction offered in class and must have completed Periods 1, 2, and 3.

This course is designed for indentured apprentices and presents a study of basic electricity, general piping, and supporting and fastening.

Feb. 2 – May 27 MTH 7–10 ORTIZ, R. 26D–209

Plumbing – Period (5) 9706–01 6 hrs. per wk. 16 wks.

Prerequisite: The student must be an indentured apprentice or working in the trade at the level of instruction offered in class and must have completed Periods 1, 2, 3, and 4.

This course is designed for indentured apprentices and presents a study of mathematics, water supply.

Feb. 2 – May 27 MTH 7–10 ORTIZ, R. 26D–209

Plumbing – Period (6) 9707–01 6 hrs. per wk. 16 Wks.

Prerequisite: The student must be an indentured apprentice or working in the trade at the level of instruction offered in class and must have completed Periods 1, 2, 3, 4, and 5.

This course is designed for indentured apprentices and presents a study of drainage systems, repairing and service lab.

Feb. 2 – May 27 MTH 7–10 ORTIZ, R. 26D–209

Plumbing – Period (7) 9708–01 6 hrs. per wk. 16 wks.

Prerequisite: The student must be an indentured apprentice or working in the trade at the level of instruction offered in class and must have completed periods 1, 2, 3, 4, 5, and 6.

This course is designed for indentured apprentices and presents a study of advance plan reading, plumbing fixtures and appliances, and gas installations.

Feb. 2 – May 26 MW 7–10 NORRIS, E. 28B–312

Plumbing – Period (8) 9709–01 6 hrs. per wk. 16 wks.

Prerequisite: The student must be an indentured apprentice or working in the trade at the level of instruction offered in class and have completed Periods 1, 2, 3, 4, 5, 6, and 7.

This course is designed for indentured apprentices and presents a study of plumbing codes, special purpose installations, and a guide to service work.

Feb. 2 – May 26 MW 7–10 NORRIS, E. 28B–312

Plumbing for Layman 9731–01 3 hrs. per wk. 16 wks.

This course is designed to prepare the layman to work with basic plumbing systems for his own home or recreational vehicle.

Feb. 5 – May 27 TH 7–10 PERKINS, G. 13–9

ADMISSION TO THE FOLLOWING CLASSES HELD AT CASA COLINA HOSPITAL IS WITH PERMISSION OF INSTRUCTOR ONLY. COURSE DESIGNED FOR DISABLED CITIZENS OF THE COMMUNITY.

Ward Clerk 9713–01 30 hrs. per wk. 16 wks.

Study of the responsibilities, duties and activities of the clerical liaison on the nursing unit, with extensive practical experience transcribing doctors orders, and dealing with the public, the medical profession and the patients.

Feb. 2 – May 28 MTWTHF 9–3 BUTZ, L. Casa Colina Hosp.

Attendant Specialist 9714–01 9 hrs. per wk. 16 wks.

Practical experience caring for a variety of severely disabled patients with appropriate instruction about their condition and needs.

Feb. 2 – May 28 MWF 9–12 BUTZ, L. Casa Colina Hosp.

Kitchen Aide 9715–01 30 hrs. per wk. 16 wks.

Study the responsibilities, duties, and activities of the kitchen aide. Particular emphasis will be placed on the coordination of the kitchen aide with the kitchen staff, patients, and all other house staff.

Feb. 2 – May 28 MTWTHF 9–3 BUEHLER, P. Casa Colina Hosp.

Janitor/Housekeeper 9716–01 30 hrs. per wk. 16 wks.

Study the responsibilities, duties and activities of the janitor/housekeeper with the house staff, the public, and the in-house patients.

Feb. 2 – May 28 MTWTHF 9–3 BUEHLER, P. Casa Colina Hosp.

Utility Man 9717–01 30 hrs. per wk. 16 wks.

Study of requirements, duties, and activities of the utility man profession as it relates to the small business establishment, hospital, and instutional building.

Feb. 2 – May 28 MTWTHF 9–3 BUEHLER, P. Casa Colina Hosp.

Study the responsibilities, duties, and activities of the groundskeeping profession as it relates to nursery work, landscaping, and exterior building maintenance.

Feb. 2 – May 28 MTWTHF 9–3 BUEHLER, P. Casa Colina Hosp.

Organizational Leadership 9734–01; 02 16 wks.

Students attending this class are interested in obtaining or upgrading employment as interscholastic sports officials. Particular reference is made to CIF Southern Section of high school athletics.

Jan 12 – Feb. 11 MW 7–10 AMACKER, J. 27C Field
LEE, C.
Mar. 5 – Mar. 26 S 9 a.m.-1 p.m. DAVIS, L. Gym 3
FLORA, A.

Patient With Eye Disease 9735–01 2 hrs. per wk. 3 wks.

This three-week Continuing Nursing course is designed to acquaint the nurse with medical and surgical treatment for pathological conditions of the eye. ($5.00 fee)

Feb. 4 – Feb. 18 W 7–9 VAN SLAMBROOK, M. 26B–101

The Patient With Arthritis 9736–01 2 hrs. per wk. 3 wks.

This three-week Continuing Nursing course is designed to update the nurse in general practice iwth advances in the care and treatment of patients with arthritic conditions. ($5.00 fee)

Mar. 3 – Mar. 17 W 7–9 VAN SLAMBROOK, M. 26B–101

Normal and Abnormal Sleep 9738–01 2 hrs. per wk. 4 wks.

This four-week Continuing Nursing course is designed to acquaint the student with current research in normal and abnormal sleep and the clinical implications. ($5.00 fee)

May 5 – May 26 W 7–9 VAN SLAMBROOK, M. 26B–101

Career Information and Guidance 9719–01 16 wks.

This course will explore current and valid career information, as well as employment opportunities and trends. It will include psychological testing so that the individual client will become aware of his personal interests, aptitudes and abilities, and how he can apply this information to determine his own goals.

Feb. 2 – May 28 MTWTHF 8–5 CARRIKER, C. Library Center

CELEBRITY, DANCE, JAZZ

TASHI

Tashi will premiere Wuorinen's "Tashi" in concert at 7:30 p.m. Sunday, January 18 in the Social Science Center Auditorium.

Tashi (Tibetan for good fortune) is one of the nation's leading instrumental groups. The chamber music ensemble includes pianist Peter Serkin, violinist Ida Kavafian, cellist Fred Sherry and clarinetist Richard Stoltzman.

Since their New York debut in 1973, they have been hailed for their unusual and vibrant performances across the country.

Standing-room-only-audiences greeted Tashi in Europe where the group attracted the eye of some of the world's greatest composers. Japan's foremost composer, Toru Takemitsu, dedicated a new work to Tashi, which it performed in September with Siji Ozawa and the New Japan Philharmonic.

THE CHUCK DAVIS COMPANY

A repertoire of ethnic and modern dance spanning the Black man's heritage from Africa to America will be presented by the Chuck Davis Dance Company Sunday evening, February 22 in Gym 3 at 7:30 p.m.

Under the direction of the distinguished Black choreographer Chuck Davis, the troupe will present the dynamic choreography of African tribal dances, jazz and modern dance styles.

Davis' aim is to dispel some myths that say African dance is always fast and wild. His troupe will present some of the flowing and graceful movements that have come from African cultures.

The Company has appeared on television, at cultural and educational institutions, the American Dance Festival at Connecticut College, Avery Fisher Hall with Miriam Makeba, and the First National Congress on Blacks in Dance at Indiana University.

ODESSA BALALAIKAS

The Odessa Balalaikas, in the colorful garb of old Russia, playing Russian-made instruments, will present two exciting repertoires of traditional and popular Russian folk music February 29. Performances will be held Sunday at 4 and 7:30 p.m. in the Social Science Auditorium.

Considered the only American traveling group of its kind, Balalaikas was formed by Steve Wolonick in 1972 while he was a student at UCLA. Classmates Jonathon Rothe, Peter Rothe, Judy Sherman, Linda O'Brien and David Lieberman complete the ensemble.

Since its debut in '72, the Odessa Balalaikas has played more than 125 engagements to standing-room-only audiences.

BOB GREENE'S "JELLY ROLL MORTON"

The music of America's first jazz composer, Jelly Roll Morton, will be presented in concert Sunday, March 7 in Gym 3 at 7:30 p.m.

Bob Greene, making his first West Coast tour, will present The World of Jelly Roll Morton, the genius pianist-composer who made ragtime "hot." Morton's melodies captured Chicago in the '20s and in Chicago he formed one of the best New Orleans' bands to ever record – the Red Hot Peppers.

Bob Greene's evocation of "Mr. Jelly Lord" captures the sounds that made Morton unique: the breaks, the riffs, the three-part formula.

Introduced at the New Port Jazz Festival in 1973 and at Lincoln Center in New York City in 1974, the group brings out the Morton qualities – his lyricism, inventiveness, wistfulness, humor, his sense of the dramatic.

SERIES SETS SEVEN CONCERTS

MORTON SUBOTNICK

A unique concert in light and sound will be presented by electronic sound genius Morton Subotnick at 8 p.m. Saturday, March 20 in the Social Science Auditorium.

Subotnick, a pioneer in the art of composition for light and sound, will demonstrate his newest design, a small buchla synthesizer.

Subotnick has been working with tape since 1960. His present involvement with mixed media employs simultaneous composition for various aspects of sound and light, including multi-screen films, strobes, traversing slide projections, lasers and computer-generated cinema.

MARIO ESCUDERO

Mario Escudero, rated one of the world's greatest flamenco guitarists, will perform in concert Sunday, April 4, at 7:30 p.m. in the Social Science Auditorium.

Escudero is considered one of the few true geniuses in the art of flamenco guitar.

To impart a singular mood or effect, the virtuoso employs individual fingering techniques or tonal applications, most of which have been personally devised. Most techniques are jealously guarded and respected by contemporaries. In the case of Escudero, his techniques and involvements are considered so complex and unique that there would be little likelihood of anyone duplicating his startling innovations.

Born of a Gypsy family in Alicante, Spain, Escudero had his first concert at the age of 9. He made his debut performances as a full-fledged flamenco guitarist with Maurice Chevalier in Bordeaux, France. At 14, his flawless interpretations and individual style had already spread his fame throughout Europe.

UTAH REPERTORY DANCE THEATRE

One of America's greatest modern dance companies, the Utah Repertory Dance Theatre takes center stage Saturday evening, April 24, at 8 p.m. in Gym 3.

The troupe has a repertoire of 50 different works by 22 different choreographers — among them works by John Butler, Anna Sokolow, Glen Tetley and Matt Mattox.

But many of the modern dances come from the members themselves. Kay Clark presents "Women Waiting," a touching quartet elaborating different degrees of need and patience. Linda C. Smith, who with Clark is a founding member of the company, choreographed "Snack Pack," a hilarious spoof of pop art, commercials and modern dance itself.

The modern dance variety show features dances that are contemporary and classical; music that is percussive and synthesized, and lights that are expressive — from brightest whites to darkest blacks, pastels, fluorescents and rainbows.

Designed to be a regional company outside the New York dance center, the troupe takes dance to communities. The company's residency is sponsored by the National Endowment of the Arts.

DANCE, YOGA SESSIONS SET FOR ADULTS, CHILDREN

A one-day only registration will be held for the twelve and six week dance and yoga classes in the College's recreational program for the spring semester.

Registration will be in the Dance Studio Monday, February 2 from 5 to 8 p.m.

Twelve week sessions are: Creative Dance for Children, Mondays from 4:15 to 5; Beginning Belly Dance, Tuesdays from 4:15 to 5:30; Intermediate Belly, Tuesdays from 5:30 to 7; Beginning Ballet, Thursdays from 6 to 7:30; Intermediate Ballet, Thursdays, 7:30 to 9, and Yoga, Tuesdays from 7 to 9 p.m. A fee of $12 per person will be assessed at the time of registration.

Three six week sessions include Modern Jazz — Wednesdays, 4 — 6 p.m. beginning February 11; Beginning Jazz — Wednesdays, 4 — 5:30 p.m., April 21, and Intermediate Modern — Wednesdays, 5:30 — 7 p.m., April 21. Registration fee for the six-weeks will be $10.

Join us this spring for fun. Learn new techniques and styles and feel better, too.

BICENTENNIAL EXHIBIT TO TOUR MSAC DISTRICT

One of the College's major Bicentennial projects has been the collection and mounting of materials for its "Vintage Years" exhibition. A multi-unit modular display of the evolution of the MSAC District communities, "Vintage Years" will be displayed throughout the valley during 1976.

The exhibition includes murals, maps, sketches, photographs and other regional memorabilia representing the people and places of the valley from 1771 to 1945.

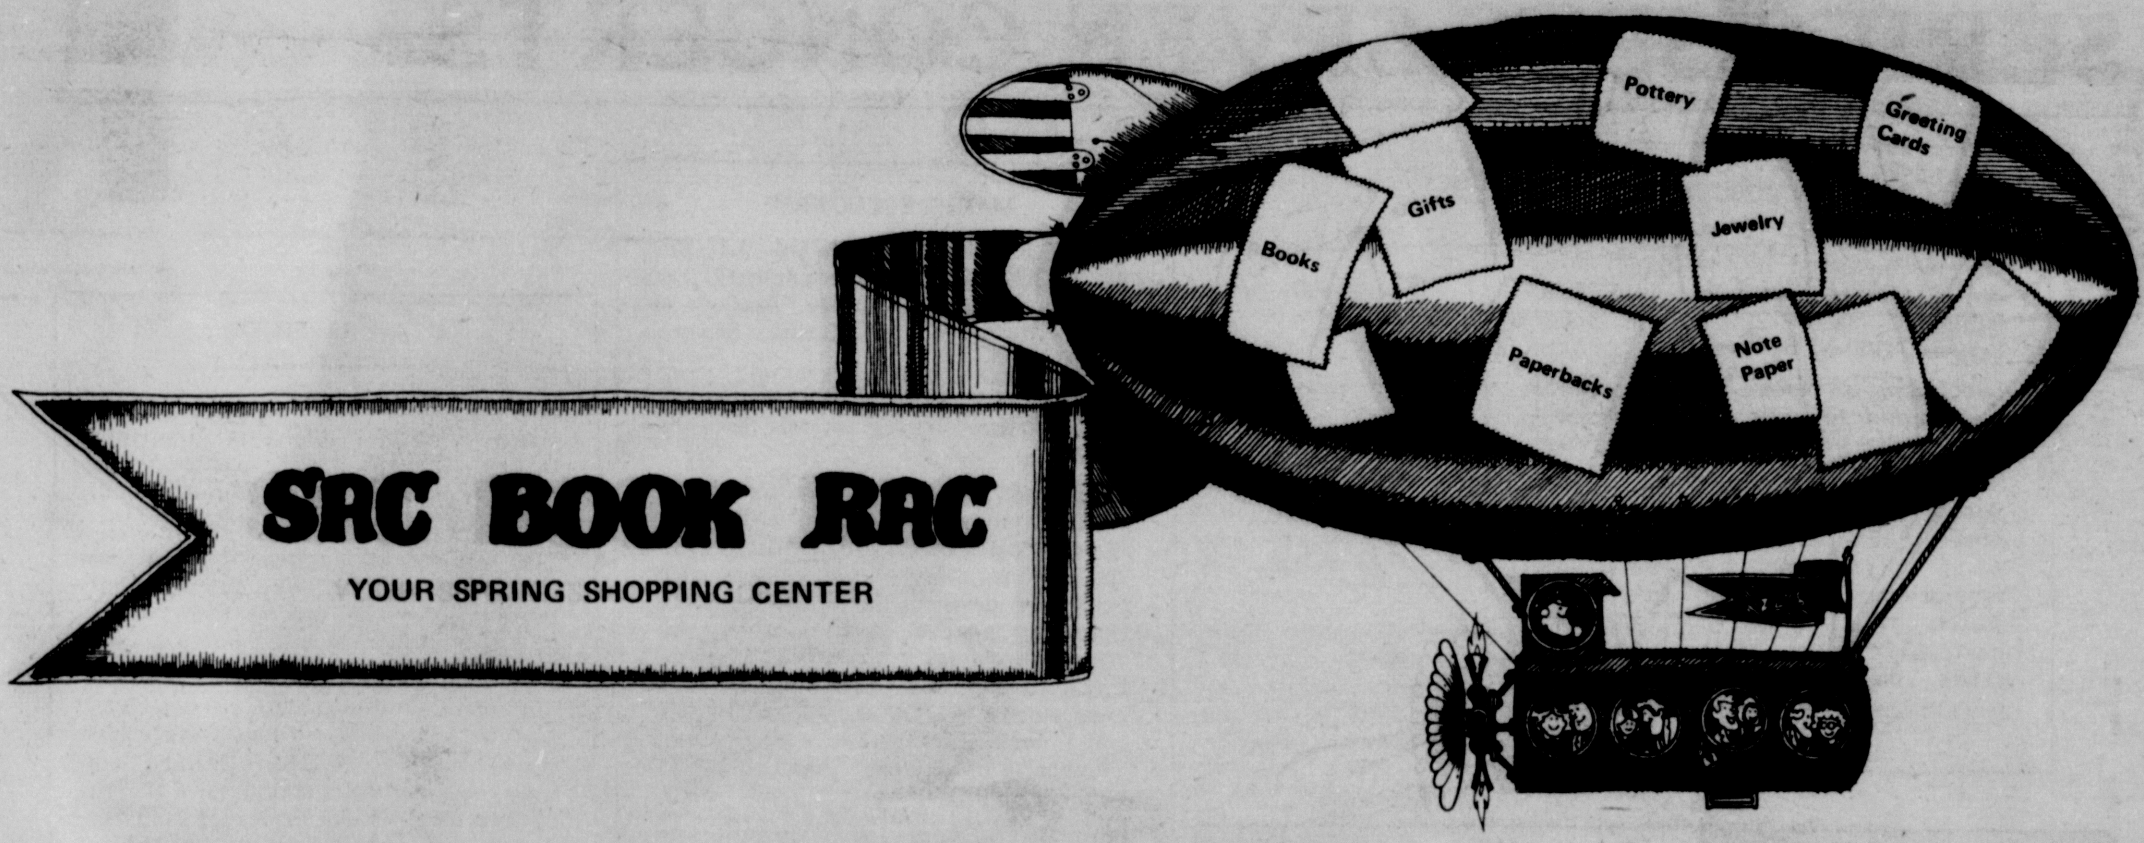

"Vintage Years" is scheduled for the following places:

Jan. 5 — Hollenbeck School, West Covina Unified District
Feb. 24 — Walnut High School, Walnut Unified District
Apr. 2 — MSAC Library
May 1 — Puente Hills Mall, Industry
June 2 — Security Pacific Bank
Oct. 1 — Branches in MSAC District

Reservations for the exhibition are still being scheduled for the year. Information may be obtained by calling the Community Services Office, Ext. 361 Wednesdays or Thursdays from 2 to 4 p.m.

LUCY WHEELER, Covina, shows students at Cypress School a photo in "The Vintage Years" exhibition taken of her father and her when she was 7, some three-quarters of a century ago.
